

*The Northern California Power Agency and the Southern California Public Power Authority
present two FREE green power workshops:*

Public Utility Green Power Workshop

Northern California—November 30, 2004, Hilton Garden Inn, Roseville
Southern California—December 2, 2004, City of Riverside Public Utilities

Interested in...

The Status of Renewable Resources and Technologies?

The Use of Renewable Energy Certificates to Meet Renewable Energy Goals?

How to Improve the Performance of Your Utility Green Pricing Program?

These workshops are designed to provide utilities and renewable energy providers with a better understanding of renewable energy options and markets, and the design of meaningful green power programs. It will explain salient aspects of green power, from resources and technologies to policy and program implementation.

The Northern California workshop is being organized and hosted by the Northern California Power Agency (NCPA).

The Southern California workshop is being organized by the Southern California Public Power Authority (SCPPA) and hosted by the City of Riverside Public Utilities.

Co-organizers: Western Area Power Administration, Public Renewables Partnership, California Municipal Utility Association, Utility Energy Forum, National Renewable Energy Laboratory.

WORKSHOP TOPICS

Renewable Resources and Transmission Strategies

Renewable Energy Certificates, Tracking and Certification Programs

Integrating Renewable Energy into the Resource Mix

Green Power Markets and State Policies: RPS, SBC, and Voluntary Purchases

Renewables Acquisition and RFPs

Improving the Performance of Your Green Pricing Program

PV Applications and Zero Energy Homes

Each one-day workshop will begin at 9:00 AM and adjourn at 3:30 PM
