HOLLYWOOD

Stars Look *Sexier* Thanks To New Safe Fat-Fighting Pill

INSIDERS CALL IT "THE ULTIMATE FAT BLOCKER"
AND THEIR KEY TO BOUNDLESS ENERGY.
SCIENTISTS CALL IT **MILLENEX^{ES}**

FTC05501

BY: LANCE WARREN,
HEALTH SCIENCES REPORTER
HOLLYWOOD, CALIF

Dr. Robert Aldan admitted he felt a little out of place dining with mega celebrities at a recent prestigious TV award ceremony. "They insisted I come because they claim our discovery has been an important factor in their careers." What Dr. Aldan discovered was an amazing natural pill that allows this rich and famous bunch to dine lavishly without bulging, while being filled with positive energy! "A portion of the fat component in food doesn't even enter the system because of our formula."

"[It] was actually an accident. Honest!"

Dr. Aldan and his team had been searching for an effective way to lower life-threatening serum triglyceride and cholesterol levels, when they made the discovery that made them the talk of the entertainment world—at least behind the scenes. "The discovery of **Millenex^{ES}** (*Mill-in-ex Extra Strength*) was actually an accident. Honest!" Their research specialty is in isolating the small components of protein and DNA that can be identified as helpful in addressing various health concerns. This probably sounds as boring to you as it did to this reporter, until I began to understand more about "*the science of micro isolation.*"

Recently, the news media gave us our first lesson in micro isolation upon the discovery of a tiny gene that may identify the likelihood of breast cancer in some women. We also learned that there is a single protein in

our bodies that may be responsible for Alzheimer's disease, thus offering hope to future generations.

The news media continues reporting new discoveries involving microscopic portions of life's recipe. In the future, we'll likely be looking better and living a longer and experiencing a much higher quality of life.

Weight Loss Has Never Been So Easy

"YOU CAN ACTUALLY FEEL MILLENEX^{ES} WORKING!"

With an estimated 88-million overweight Americans, it's understandable that we are looking for a solution that really works. Now, for the first time, here's a clinically proven, dynamic approach that's both **fast and very effective**. Dr. Aldan's **Millenex^{ES}** approaches weight loss very scientifically. He has isolated a naturally occurring single protein peptide molecule which encourages the digestive system to discard much of the fat we eat. This is exciting! **This is what we dieters dream of!**

"The **Millenex^{ES}** formula also contains a group of natural ingredients that boost your energy level without giving you the jitters. Having plenty of energy and a strong feeling of well-being is important when losing weight," added Dr. Aldan. "You can **feel** **Millenex^{ES}** working. You actually feel good while losing!"

Newest HOLLYWOOD Craze

As a former entertainment reporter turned healthy, I am excited to reveal the story of **Millenex^{ES}**. I haven't seen a craze like this here in Hollywood since the *Wonder Bra!* Selfishly, I'm equally enthusiastic about trying **Millenex^{ES}** myself. This report also contains information on how you can get this formula directly from the source and without prescription. Read on ...

Scientists Identify Single Protein With **AMAZING** Weight Loss Benefits

FTC05502

Pill Eliminates Useless Starvation Dieting! MillenexES - Energy + Weight Loss

Diets Don't Work!

Anyone who has been on a fad starvation diet knows that calorie counting alone is not the answer to permanent weight loss. "You can't fight Mother Nature," explains Dr. Aldan. "We are meant to eat. You have to understand how the body works. A weight problem must be attacked in a way that does not violate the natural process. That's why **MillenexES** works so well **and so fast.**"

I asked Dr. Aldan to explain how **MillenexES** works and how it's different from all the hyped pills we've seen come and go. He answered, "There's no hype here, just pure educated science. The success of our formula comes from the perfect marriage of science and nature."

"Fat is a primary enemy of anyone wanting to lose weight. Fat, unfortunately, is in most foods we love to eat. Fat is actually an essential part of a healthy diet. You need to consume some fat to stay alive! The problem is that after the age of about 25, fat becomes metabolized differently. In many cases, being over weight **is really not your**

fault. There's no reason to feel guilty, but for health concerns alone, obesity must be addressed."

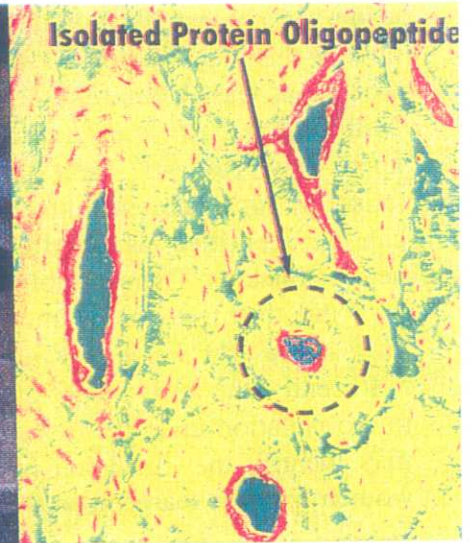

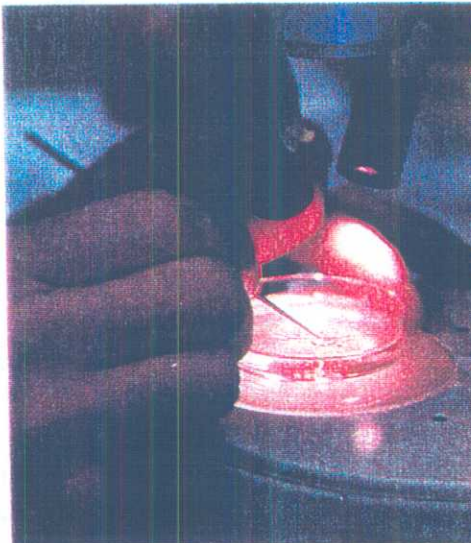

Virtually Automatic Weight Loss

"**MillenexES** promotes rapid weight loss with a formula of bioactive oligopeptides (**BOPS**) obtained from natural sources. These protein peptides can send a message to the digestive system to simply ignore fat and pass it by." When you lower lipid (fat) levels in your system, triglyceride levels (cholesterol) go down as well. Best of all, **weight loss can begin automatically.**"

Users of **MillenexES** that I've interviewed tell me they can still eat

plenty as they watch their figure improving daily. They say they have lots more energy and just feel on top of the world! Many claim they're able to exercise easier and some even claim their sex drive has improved! "Of course a healthy, reasonable diet is an essential element of any successful weight loss program," explains the excited doctor.

"When your blood is full of fat many natural functions simply slow down," says Dr. Aldan. "Reduced retained fat and you start to look better and feel younger. In youth, the peptides were plentiful in our systems. That's why we were so trim.

TV Star's Personal Confession

"I was nearly fired from my popular TV series when I got fat. MillenexES saved my career!"

FTC05503

Dear Dr. Aldan:

Acting is a tough but wonderful career. After five years of small, low paying walk-on parts, I was fortunate to be cast in a reoccurring role on

a popular soap. The stress was as high as the pay, but it was worth it!

As our ratings soared, so did the ego of the executive producer. I'm basically a quiet person and managed to avoid his arrogant attitude as much as possible.

One day I was called into his lavishly decorated office and told that my part was being written out. After I managed to stop crying for a few seconds, I pressured him for an explanation.

"There's been a lot of gossip about you. You've gotten pudgy. Viewers want to see their stars looking perfect season after season. You're fat, honey. What happened to that sexy little figure?"

I was angry, humiliated, and yes, 22 pounds overweight. After I turned 30, it became impossible to stay trim.

In two months my character was to perish in a car accident, literally ending my career.

Another actress on the set told me about MillenexES. "Everyone's using it," she said. I begged her for a sample

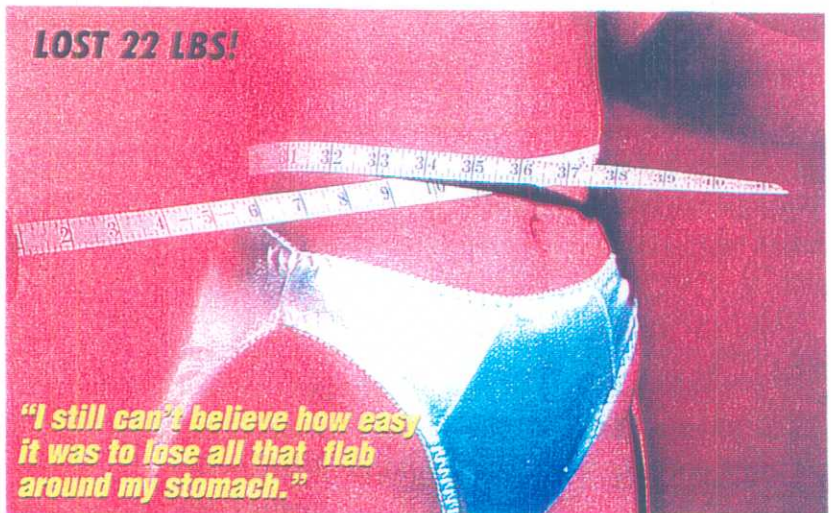

to give it a try.

"My friends watch me eat slice after slice of pizza and can't figure out how I stay so slim."

In just 6 weeks I lost every bit of ugly fat around my hips and thighs. After studio executives noticed that my figure had returned, they pressured the producer into keeping my character in the show.

MillenexES saved my career! I still can't believe how easy it was to lose the weight. I've kept the weight off for over a full year. My friends watch me eat pizza and can't figure out how I stay so trim! The energy Millenex gives me is a wonderful feeling. I'm not tired after a long 12 hour day. You've really got something here, doctor.

Love, JS -- Hollywood, CA

Page 5

Tough Clinical Study Proves MillenexES Ingredient Very Effective

Test subjects lost weight and experienced a welcome burst of energy shortly after taking the tablet.

Double-Blind Studies Show Impressive Results

TEST # 1 - WEIGHT LOSS

The ingredients in MillenexES (BOPS) were studied in a double-blind clinical test on humans. Most impressive was that many of the test subjects were not hugely overweight. In fact, the average weight of test participants was only 165 lbs. This actually made the study more accurate. It's common knowledge that obese people tend to lose weight easily at first due mainly to fluid loss. False water-weight loss quickly returns.

In a double-blind clinical study, half the participants are given the formula being tested and the other half are given a placebo (fake) pill. Neither the participants or the technicians know which is which.

A daily dose of oligopeptide ingredient was given to these healthy adult subjects, ranging in age from 22 to 61 years, for a period of three months. This dosage was equivalent to just three small MillenexES tablets a day.

SLAMS THE DOOR ON FAT

Participants who received the real formula **decreased their body fat by 9%, without useless starvation dieting!** This was due to the fact that only a portion of the fat in the foods they ate was absorbed by the digestive system. A positive correlation was obtained between body fat-loss and body weight. The MillenexES oligopeptide complex (BOPS) sort of "slammed the door" on the fat as it went through the natural digestion process. There were no significant side-effects reported.

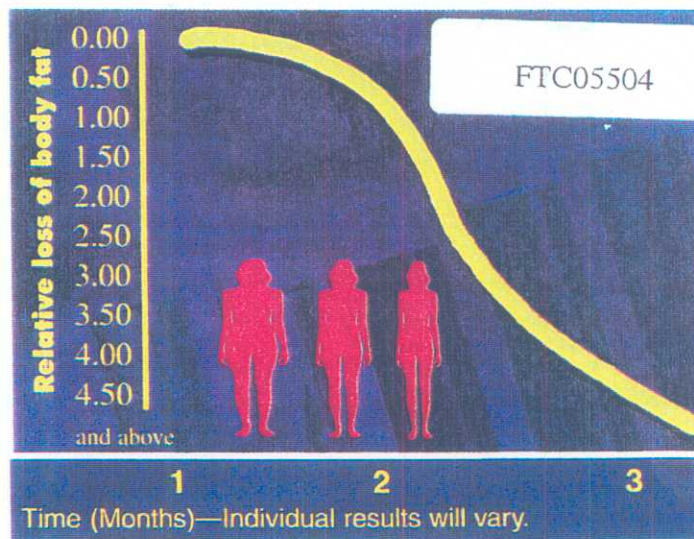

"Our MillenexES formula goes even further by including energy producing components. The extra get-up-and-go feeling encourages more movement and exercise which furthers the weight loss process. Users say they get more done during a day with MillenexES.

TEST # 2 - TRIGLYCERIDES & CHOLESTEROL

A second clinical study investigated the effect of the MillenexES formula (active ingredient, BOPS) on serum triglyceride levels of healthy test subjects fed 25 grams of fat in the form of butter cream soup. Those who also ingested the MillenexES ingredient had significantly lower serum triglyceride levels.

"Triglycerides appear in the blood within 1 to 2 hours after a meal containing fat, predominantly in the form of chylomirons. Elevated serum triglycerides often indicates increased risk of cardiovascular disease. Excess serum triglycerides will ultimately be stored in adipose (fatty) tissue." Dr. Aldan also emphasized that early detection of high triglyceride levels could potentially prevent several catastrophic illnesses including heart attacks. "Triglycerides should always be monitored."

"MillenexES users rave about the almost effortless weight loss and energy. The health benefits of our program really make this an overall wellness approach."

Relative depiction of fat loss. MillenexES ingredient test subjects lost significantly more fat and weight than with just dieting and/or exercise alone!

No Will Power? NO PROBLEM! MillenexES Lets You Eat Without Feeling Guilty

"My stomach had to be perfectly flat for this jeans ad. There was no way I could have gotten this modeling job without MillenexES."

Shauna Lucas, Actress, Model

FTC05505

"I wanted to eat what I want to eat, without the fat sticking to my hips and thighs! That's why I tried MillenexES. It's amazing!"

How MillenexES Works

I asked Dr. Aldan for another explanation of how the MillenexES system works, this time in simple terms that could be understood by us chemistry class dropouts.

"... helps prevent fat from being stored in all the wrong places."

"The MillenexES system works at a cellular level and prevents fat from being digested and then stored in all the wrong places." Dr. Aldan continues, "You should never have to crash diet again. MillenexES can become a part of your life. This dietary supplement formula is safe, even for prolonged use, when used according to instructions.

I asked about possible side-effects. Dr. Aldan responded, "MillenexES is a support supplement that seems to empower the body to identify the threshold, above which fat intake might be needlessly stored." Instead of storing this fat around the waist

and thighs, the body ignores what it does not burn." Best of all, you can comfortably stay on the MillenexES program for as long as you need to lose your unwanted pounds, then switch to the maintenance level included with the program instructions.

Doctors Ask For MillenexES For Overweight Patients

Until now, few outside of Dr. Aldan's circle of famous folks had any knowledge of his fat fighting MillenexES. But in this town even the best-kept secrets leak out—and in this case, it's a good thing!

The customer service department of the company distributing new MillenexES actually receives requests from doctors nationwide who want to offer MillenexES to overweight patients.

As more natural formulas like MillenexES become identified, we can expect the new millennium to bring discoveries that will safely and naturally improve our lives.

"I feel young and sexy again since I've lost 28 pounds."

"After the birth of our son, my youthful figure was gone. Dieting didn't help much at all. Other women said I would never be the same. They said it's just part of motherhood.

They were wrong! I could feel MillenexES start working almost immediately. I swear I could see the fat disappearing daily.

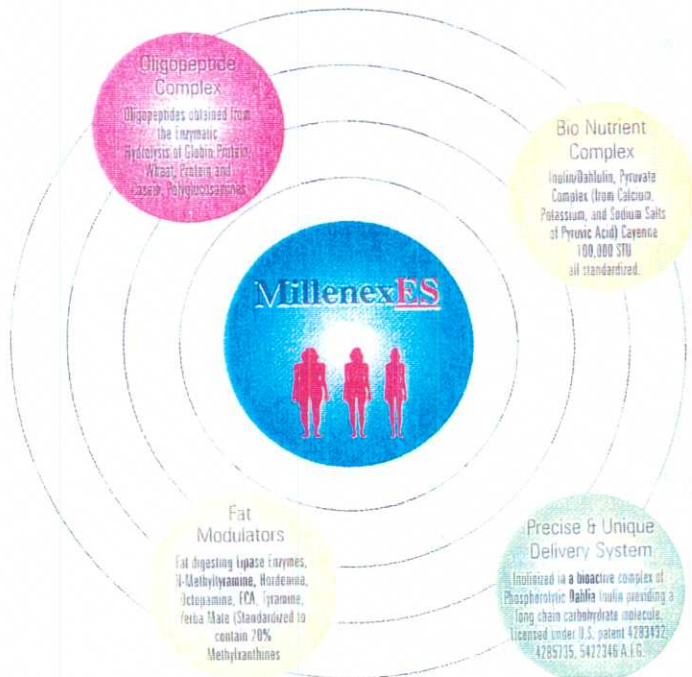

This is great!"-- Nancy LaRoche

Page 7

Fat Doesn't Stand A Chance With Millenex^{ES}

FTC05506

The Millenex^{ES} formula is a precise combination of approximately 28 extremely high quality ingredients. Blending and quality assurance is provided by a laboratory licensed to manufacture pharmaceuticals.

"I used to hate having my picture taken."

"Now that I've gone from a size 14 to a loose size 6, I actually enjoy being photographed."

My husband constantly compliments me on my new, attractive figure. He was surprisingly understanding when I had to buy a whole new wardrobe!

Millenex^{ES} was everything you said it would be and more. I have more energy now than when I was in my teens. Congratulations on an excellent discovery."

Stacy Delmonico, Beverly Hills, CA

Do Fat-Free, Sugar-Free Foods Really Make You Thin? Study Says **NO!** They Just Make Big Food Companies **FATTER!**

Food manufacturers have been pushing their terrible tasting diet versions of the things we love to eat using the "Fat-Free" or "Sugar-Free" label to play on our guilt. These synthetic concoctions have made corporate giants billions, but studies show **they don't actually make us lose weight!**

The *American Journal of Clinical Nutrition* (Vol. 65, No. 6) reported that people compensate for the eating of reduced-fat and reduced-sugar foods by eating more food overall. One clinical study consisted of three groups of women; one group consumed no reduced-fat or reduced-sugar foods, the second ate only reduced-fat and/or fat-free foods, and a third group ate only reduced-sugar and/or sugar-free foods. During the 10-week study, participants kept very careful food diaries.

The results were very interesting:

At the end of the study, **none of the participants had lost weight. NONE!**

Millenex^{ES} Works Like a Powerful Fat-Grabber*

"We are meant to eat. A tasty meal stimulates all our natural senses. Sharing the experience with friend and family has been a pleasant tradition for thousands of years. However, as we pass the age of about 30, storage becomes inevitable, which can lead to an unhealthy state of obesity. Millenex^{ES} attacks the problem from the inside out like a powerful fat grabber," continues Dr. Aldan. "And it's safe. Eat reasonably, engage in some moderate exercise; Millenex^{ES} will reward you with lasting results." added energy will allow you to get more accomplished each day and help you feel happy."

"Life's too precious not to enjoy all it has to offer including the wonderful culinary delights." Amen!

*These statements have not been evaluated by the Food & Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Mood, Energy, Sex Drive All Improve When You Lose Weight!

With MillenexES There's No Excuse Not To Have An Attractive, Sexy Figure!

Weight loss can be automatic and might even surprise you! MillenexES is safe and works quite fast.

You won't see MillenexES sold in any retail stores or catalogs, but you can get it direct, without a prescription! This is a protected formula only available from Cartazyme Sciences International of Canada.

"I threw out all my ugly stretch pants and those long T-shirts I wore to cover my big bottom."

"I lost 32 lbs and found the man of my dreams. Randy is always telling me I have a very sexy figure."

MillenexES really changed my life. I look in the

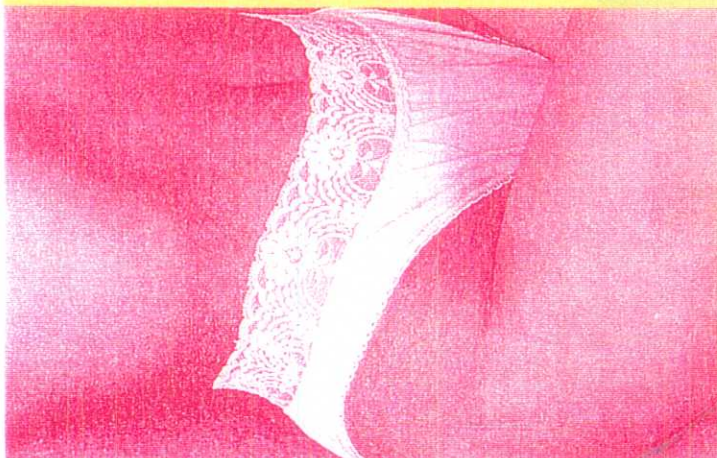

mirror and I can't believe what I see! Is this really me? Plus, I'm full of wonderful energy. This is an absolute miracle."

"My tummy has never been this flat! Thank you MillenexES!"

—Tracy Myers, Portland, OR

FTC05507

Ready for a little gossip?

Dear Dr. Aldan:

I was fat in high school. I was fat all through college. I can't stand to look at my wedding pictures because (you guessed it) I was so fat.

I'm writing this letter today with a smile on my face after just getting off my bathroom scale. Since I started the MillenexES system, I've lost 39 pounds!

This is amazing! I still enjoy most of the foods I love, and the weight just kept melting off! MillenexES gives me the energy I need to work and raise my 5-year old son. I feel great!

Thank you,
Stacy Delmonico (TV actress)

Hey Doc!

I took you up on your offer to try MillenexES, and I have to say it performed exactly as stated. I've lugged around so much extra weight for so long, I slowly slipped into a low energy lifestyle. I used to think up excuses why I couldn't play ball with my grandson. Not any more!

After just a few weeks on MillenexES, I've lost 55 pounds! I feel 10 years younger and absolutely full of energy! I'm back to working out everyday like I did when I was in my thirties.

Thank you for this weight loss miracle!

Mr. Don Jeffreys & Randy

NEW PILL IS HUGE **HOLLYWOOD CRAZE!**

Dear Dr. Aidan:

I am an actress on a TV show that is filmed on the beach here in Malibu, California. Most everyone in our cast is using your wonderful MillenexES pill and seeing great results.

It's amazing that you can still eat and you just don't put on weight! We all want to thank you for your discovery!
- **Melissa S.**

We never thought a little pill could promote such fast and effortless weight loss. Before we knew it, I lost 28 pounds and Jim lost 43 pounds and we're full of energy. We never had to follow any stupid diet.

This MillenexES is really going to catch on. Best of all, it's safe. What a winner! Keep up the good work Doc.
- **Jim and Betty Wilson**

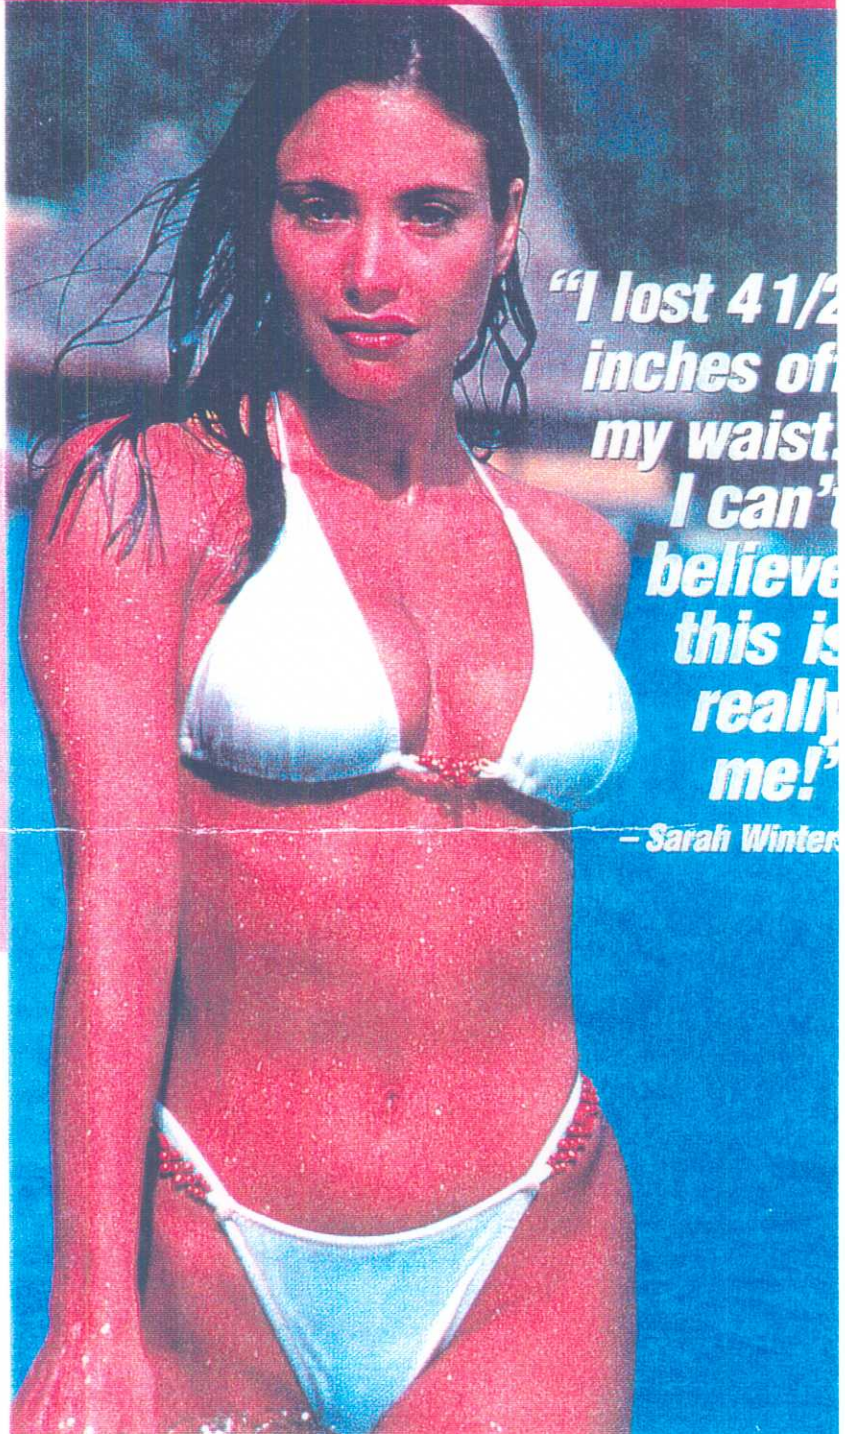

Doctor:

My husband and I had to write you and share our experience with MillenexES. I lost 33 pounds and Billy lost 46 pounds so far. People don't even recognize us.

We feel full of energy and very much in love again. Thank you for changing our lives.

God Bless,

- **Terri & Billy Washington**
