CHANGE REQUEST 2257

SUBJECT: Revision to Billing for Swing Bed Services Under Skilled Nursing Facility Prospective Payment System (SNF PPS)

This PM consists of:

- **A change in the type of bill (TOB) to be used for services excluded from SNF PPS. The correct TOB for excluded services is 13x. We have repeated the entire section on Special Billing Requirements from CR 1666; and**
- **A change in the method for loading the provider-specific file. FIs must use the swing bed hospital's actual MSA code. Based on the MSA code, the SNF Pricer will select the appropriate rural or urban rate table as it does for SNFs. This revised instruction requires no change to the Pricer or to the standard systems.**

REQUIREMENTS FOR SWING BEDS UNDER SNF PPS

Providers of swing bed services are eligible for additional payment for services that are excluded from the SNF Part A consolidated billing requirements. These consolidated billing exclusions are not subject to the hospital bundling requirements specified in §1862 (a)(14) of the Act and in 42 CFR §411.15(m). All services not specifically excluded from the SNF PPS consolidated billing requirements must be included in the Part A swing bed bill (TOB 18x).

If a swing bed hospital furnishes a service or supply to a beneficiary receiving SNF-level services that is excluded from the SNF PPS rate; the swing bed hospital may submit a separate bill to the FI for the SNF PPS-excluded service. This bill must use TOB 13x with all appropriate revenue codes, HCPCS codes, and line item date of service billing information. A list of services that are excluded from the SNF PPS rate is included in Attachment 1. For more detailed information on services that are separately billable under the SNF PPS, see PM AB-02-043.

Bills for these SNF PPS consolidated billing "exclusions" must be filed as outpatient Part B services and will be paid as outpatient Part B services under the Outpatient Prospective Payment System (OPPS). Note that services included under the SNF PPS may not be billed separately.

Similarly, as explained above, swing bed hospitals may file bills with the FIs for Part B ancillary services furnished to Medicare beneficiaries who are not in a Part A swing bed stay. These claims will be billed as hospital inpatient Part B services, and payable under the OPPS.

Provider-Specific File

For SNF PPS purposes, swing bed hospitals should be assigned to provider type 38. Swing bed providers will be paid at 100 percent of the federal rate. **When loading the swing bed hospital's provider-specific file, code a "4" in the Federal Blend Indicator field and use the actual MSA code. The Pricer program will use the MSA code to select the appropriate rural or urban rate table. This is the same methodology currently used for SNFs and requires no change to the Pricer or to the standard systems.**

NOTE: There are situations where rural hospitals are permitted to reclassify and be reimbursed for hospital services as urban facilities. This reclassification does not apply to swing bed payment under the SNF PPS.

¹ Services must be obtained at an outpatient hospital department. Services obtained at a freestanding clinic are not exempt.

² Outpatient hospital emergency services are defined in 42 CFR Section 424.101 as services that are necessary to prevent death or serious impairment of health and, because of the danger to life or health, require use of the most accessible hospital available and equipped to furnish those services.

³ Services do not have to be obtained at an outpatient hospital department. The Part B suppliers of these services will be able to bill Medicare Part B directly, i.e., the specified chemotherapy and radioisotope services can be provided and billed by hospital outpatient departments, physicians' offices, or other appropriate suppliers and prosthetics suppliers will be able to bill for the specified customized prosthetic devices indicated by the codes in the legislation.

⁷ It is expected that swing bed providers perform these services within the facility. However, if the services are not available in the swing bed facility, the swing bed provider may use an independent supplier. The Part B suppliers of these services will be able to bill Medicare Part B directly, e.g., radioisotope services performed in a free-standing center, ambulance transportation to a dialysis center.
