Optional Populations: Refers to eligibility groups that can be covered under a Medicaid or SCHIP State Plan, i.e., those that do not require a section 1115 demonstration to receive coverage and who have incomes above the mandatory population poverty levels. Groups are considered optional if they <u>can be</u> included in the State Plan, regardless of whether they <u>are</u> included. The Medicaid optional groups are described at 42 CFR Part 435, Subpart C. Examples include children covered in Medicaid above the mandatory levels, children covered under SCHIP, and parents covered under Medicaid. For purposes of the HIFA demonstrations, Section 1902(r)(2) and Section 1931 expansions constitute optional populations.

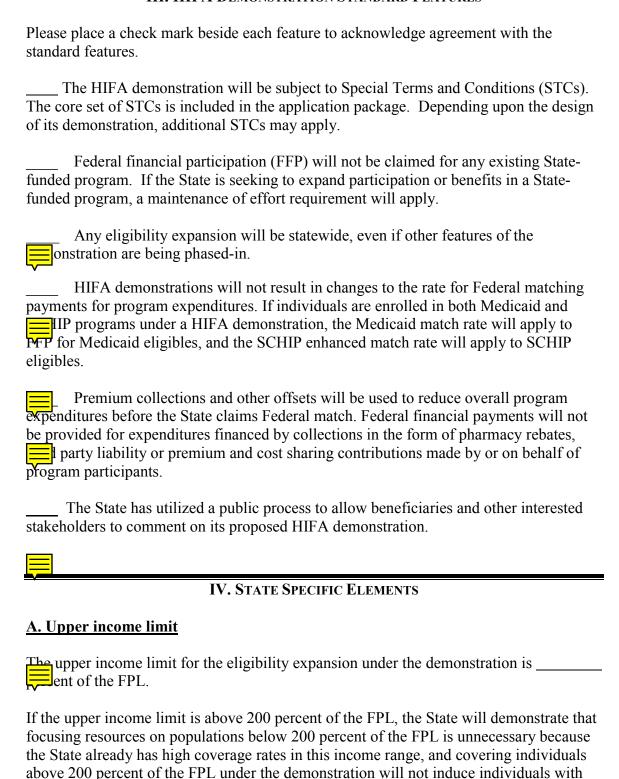

Expansion Populations: Refers to any individuals who cannot be covered in an eligibility group under Title XIX or Title XXI and who can only be covered under Medicaid or SCHIP through the section 1115 waiver authority. Examples include childless non-disabled adults under Medicaid.

Private health insurance coverage: This term refers to both group health plan coverage and health insurance coverage as defined in section 2791 of the Public Health Service Act.

(The proposed benefit package is described in Attachment D.)
Note: For Secretary approved coverage, benefit packages must include these basic services: inpatient and outpatient hospital services, physicians surgical and medical services, laboratory and x-ray services, well-baby and well-child care, including age appropriate immunizations.
3. SCHIP populations, if they are to be included in the HIFA demonstration
States with approved SCHIP plans may provide the benefit package specified in Medicaid State plan, or may choose another option specified in Title XXI. (If the State is

proposing to change its existing SCHIP State Plan as part of implementing a HIFA demonstration, a corresponding plan amendment must be submitted.) SCHIP coverage will consist of:

G. Private health insurance coverage options

Coordination with private health insurance coverage is an important feature of a HIFA demonstration. One way to achieve this goal is by providing premium assistance or "buying into" employer-sponsored insurance policies. Description of additional activities may be provided in Attachment D to the State's application for a HIFA demonstration. If the State is employing premium assistance, please use the section below to provide details.

As part of the demonstration the State will be providing premium assistance for priva	t€
health insurance coverage under the demonstration. Provide the information below for the	
relevant demonstration population(s):	

The State elects to provide the following coverage in its premium assistance program: (Check all applicable, and describe benefits and wraparound arrangements, if applicable, in Attachment D to the proposal if necessary. If the State is offering different arrangements to different populations, please explain in Attachment D.)

	The same coverage provided under the State's approved Medicaid plan.
	The same coverage provided under the State's approved SCHIP plan.

The State assures that it will monitor aggregate costs for enrollees in the premium assistance program for private health insurance coverage to ensure that costs are not significantly higher than costs would be for coverage in the direct coverage program. (A description of the Monitoring Plan will be included in Attachment D.)
The State assures that it will monitor changes in employer contribution levels or the degree of substitution of coverage and be prepared to make modifications in its premium assistance program. (Description will be included as part of the Monitoring Plan.)

H. Cost Sharing

Please check the cost sharing rules for all applicable eligibility categories in the chart below:

New HIFA Expansion			

Cost-sharing for children

Only those cost-sharing amounts that can be attributed directly to the child (i.e. co-payments for the child's physician visits or prescription drugs) must be counted against the cap of up to five percent of family income. Cost-sharing amounts that are assessed to a family group that includes adults, such as family premiums, do not need to be counted as 'child cost-sharing' for the purposes of the up to five percent cost-sharing limit. A premium covering only the children in a family must be counted against the cap.

Below, please provide a brief description of the methodology that will be used to monitor childonly cost-sharing expenses when the child is covered as part of the entire family and how those expenses will be limited to up to five percent of the family's income.

Any State defined cost sharing must be described in Attachment E. In addition, if cost sharing limits will differ for participants in a premium assistance program or other private health insurance coverage option, the limits must be specified in detail in Attachment E to your proposal.

V. Accountability and Monitoring

Please provide information on the following areas:

1. Insurance Coverage
The rate of uninsurance in your State as of for individuals below 200 percent of povert and any other groups that will be covered under the demonstration project.

2. State Coverage Goals and State Progress Reports

The goal of the HIFA demonstration is to reduce the uninsured rate. For example, if a State was providing Medicaid coverage to families, a coverage goal could be that the State expects the uninsured rate for families to decrease by 5 percent. Please specify the State's goal for reducing the uninsured rate:

Attachment F must include the State's Plan to track changes in the uninsured rate and trends in sources of insurance as listed above. States should monitor whether there are unintended consequences of the demonstration such as high levels of substitution of private coverage and major decreases in employer contribution levels. (See the attached Special Terms and Conditions.)

Annual progress reports will be submitted to CMS six months after the end of each demonstration year which provide the information described in this plan for monitoring the uninsured rate and trends in sources of insurance coverage.

States are encouraged to develop performance measures related to issues such as access to care, quality of services provided, preventative care, and enrollee satisfaction. The performance plan must be provided in Attachment F.

VI. PROGRAM COSTS

A requirement of HIFA demonstrations is that they not result in an increase in federal costs compared to costs in the absence of the demonstration. Please submit expenditure data as Attachment G to your proposal. For your convenience, a sample worksheet for submission of base year data is included as part of the application packet.

The base year will be trended forward according to one of the growth rates specified below. Please designate the preferred option:

Medical Care Consumer Price Index, published by the Bureau of Labor Statistics. (Available at http://stats.bls.gov.) The Medical Care Consumer Price Index will only be offered to States proposing statewide demonstrations under the HIFA initiative. If the State chooses this option, it will not need to submit detailed historical data.

____ Medicaid-specific growth rate. States choosing this option should submit five years of historical data for the eligibility groups included in the demonstration proposal

July 25, 2001 Page 11 of 14

for assessment by CMS staff, with quantified explanations of trend anomalies. A sample worksheet for submission of this information is included with this application package. The policy for trend rates in HIFA demonstrations is that trend rates are the lower of State specific history or the President's Budget Medicaid baseline for the eligibility groups covered by a State's proposal. This option will lengthen the review time for a State's HIFA proposal because of the data generation and assessment required to establish a State specific trend factor.

The State estimates the cost of this program will be	\$ over its	year
approval period.		

VII. WAIVERS AND EXPENDITURE AUTHORITY REQUESTED

A. Waivers

The following waivers are requested pursuant to the authority of section 1115(2)(1) of the Social Security Act (Please check all applicable):

Title XIX: Statewideness 1902(a)(1) To enable the State to phase in the operation of the demonstration. Amount, Duration, and Scope 1902(a)(10)(B) To permit the provision of different benefit packages to different populations in the demonstration. Benefits (i.e., amount, duration and scope) may vary by individual based on eligibility category. Freedom of Choice 1902(a)(23) To enable the State to restrict the choice of provider. Title XXI: **Benefit Package Requirements 2103** To permit the State to offer a benefit package that does not meet the requirements of section 2103. **Cost Sharing Requirements 2103(e)**

To permit the State to impose cost sharing in excess of statutory limits.

B. Expenditure Authority

Expenditure authority is requested under Section 1115(a)(2) of the Social Security Act to allow the following expenditures (which are not otherwise included as expenditures

July 25, 2001 Page 12 of 14 under Section 1903 or Section 2105) to be regarded as expenditures under the State's Title XIX or Title XXI plan.

Note : Checking the appropriate box(es) will allow the State to claim Federal Financial Participation for expenditures that otherwise would not be eligible for Federal match.				
Expenditures to provide services to populations not otherwise eligible to be covered under the Medicaid State Plan.				
Expenditures related to providing months of guaranteed eligibility to demonstration participants.				
Expenditures related to coverage of individuals for whom cost-sharing rules not otherwise allowable in the Medicaid program apply.				
Title XXI:				
Expenditures to provide services to populations not otherwise eligible under a State child health plan.				
Expenditures that would not be payable because of the operation of the limitations at 2105(c)(2) because they are not for targeted low-income children.				
If additional waivers or expenditure authority are desired, please include a detailed				
request and justification as Attachment H to the proposal.
