

DEPARTMENT OF ENERGY**Notice of Cancellation of Environmental Impact Statement for the McIntosh Unit 4 Pressurized Circulating Fluidized Bed Demonstration Project**

AGENCY: Department of Energy.

ACTION: Notice of cancellation of Environmental Impact Statement Process.

SUMMARY: The Department of Energy (DOE) is canceling the preparation of an Environmental Impact Statement (EIS) for a proposal by the City of Lakeland to design, construct, and operate a project known as the McIntosh Unit 4 Pressurized Circulating Fluidized Bed Demonstration Project in Lakeland, Florida. DOE selected the City of Lakeland's proposal for further consideration under DOE's Clean Coal Technology Demonstration Program competitive solicitation. The City of Lakeland proposed constructing the demonstration project at the site of the existing C.D. McIntosh Junior Power Plant along the northeastern shore of Lake Parker. The proposed project was intended to demonstrate advanced circulating fluidized bed combustion technologies using a variety of low and high sulfur coal to produce electricity. DOE published a Notice of Intent to prepare an EIS for the proposal in the **Federal Register** on March 26, 1999 (64 FR 14710), and conducted a public scoping meeting in the City of Lakeland's City Commission Chambers on April 13, 1999. The proposed project has been discontinued. As a result, DOE is canceling the EIS process.

DEPARTMENT OF ENERGY**Notice of Cancellation of Environmental Impact Statement for the Colorado Springs Utilities Next-Generation CFB Coal Generating Unit, Fountain, CO**

AGENCY: Department of Energy.

ACTION: Notice of cancellation of Environmental Impact Statement Process.

SUMMARY: The Department of Energy (DOE) is canceling the preparation of an Environmental Impact Statement (EIS) for a proposal by Colorado Springs Utilities (CSU) to design, construct, and operate a project known as the Next-Generation Circulating Fluidized Bed (CFB) Coal Generating Unit near Fountain, El Paso County, Colorado. DOE selected CSU's proposal for further consideration under DOE's Clean Coal Power Initiative competitive solicitation. CSU proposed building a new power plant at a site adjacent to the existing 227-megawatt Ray D. Nixon Power Plant on the Clear Springs Ranch, a 5,000-acre, CSU-owned property located approximately 17 miles south of Colorado Springs. The proposed project was intended to demonstrate advanced technologies for using a variety of fuels, including Powder River Basin sub-bituminous coal from Wyoming, bituminous coals from Illinois and Pennsylvania, waste coal, and wood waste, to produce electricity to meet forecasted demand. DOE issued a Notice of Intent to prepare an EIS for the proposal in the **Federal Register** on August 15, 2003 (68 FR 48893), and conducted a public scoping meeting in Fountain, Colorado, on September 3, 2003. On December 17, 2003, CSU announced its intention to cancel plans for the proposed project. In a letter to DOE dated January 9, 2004, CSU withdrew its application for the project. As a result, DOE is canceling the EIS process.

DEPARTMENT OF ENERGY**Notice of Cancellation of Environmental Impact Statement for the Clean Power From Integrated Coal/Ore Reduction (CPICOR) Project**

AGENCY: Department of Energy.

ACTION: Notice of cancellation of Environmental Impact Statement process.

SUMMARY: The Department of Energy (DOE) is canceling the preparation of an Environmental Impact Statement (EIS) for a proposal by Geneva Steel Company to design, construct, and operate a project known as the Clean Power from Integrated Coal/Ore Reduction (CPICOR) Project near Provo, Utah. DOE selected Geneva Steel Company's proposal for further consideration under DOE's Clean Coal Technology Demonstration Program competitive solicitation. Geneva Steel proposed constructing the demonstration project at the site of its existing steel-making operations in Provo, Utah. The proposed CPICOR project was intended to demonstrate advanced circulating fluidized bed combustion technologies using a variety of low and high sulfur coal to produce electricity. DOE published a Notice of Intent to prepare an EIS for the proposal in the **Federal Register** on June 28, 1999 (64 FR 34640), and conducted a public scoping meeting in the Council Chambers of the Provo City Center on July 15, 1999.

The proposed project has been discontinued. As a result, DOE is canceling the EIS process.
