

# Program Memorandum Intermediaries

Department of Health and  
Human Services (DHHS)  
HEALTH CARE FINANCING  
ADMINISTRATION (HCFA)

Transmittal A-00-81

Date: NOVEMBER 2, 2000

## CHANGE REQUEST 1368

**SUBJECT: Resolution of Outpatient Prospective Payment System (OPPS) Implementation Issues**

You were previously informed on August 22, 2000 via a notice posted on website "www.hcfa.gov/medlearn/opp3.doc" of glitches that were found in the standard systems, outpatient code editor (OCE) and PRICER, during continued systems testing and initial implementation of OPPS. This Program Memorandum (PM) provides instructions for identifying certain claims processed prior to incorporation of changes at the Standard System Maintainers or in the OCE or PRICER. It also provides instructions for the reprocessing of claims which were paid incorrectly. Begin now to identify claims for reprocessing.

### Standard System Maintainer Issues

1. The Fiscal Intermediary Standard System (FISS) was rejecting claims with Condition Code G0 as duplicates. These claims should have been processed for payment. A fix was implemented the week of August 28, 2000.

Selection Criteria	Condition Code G0; and Reason Codes 38032 or 38037
--------------------	---

Reprocess identified claims for payment.

2. The FISS receives error code E6101 from the Common Working File (CWF) because the total charge line is not equal to the sum of the revenue lines on a claim. The claim was rejected to the contractor suspense file prior to implementation of a fix which was implemented during the week of October 9, 2000. Release the suspended claims for processing after the coding changes have been made.

3. In the FISS system a surgical claim that contains two revenue lines for surgery with charges displayed on line one and no charges on line two will pay correctly. Even though the payment was correct, the Medicare Summary Notice did not reflect complete data. This gave beneficiaries incomplete information regarding deductible and coinsurance. A fix was implemented during the week of September 4, 2000. No further action is required.

4. The CWF System was generating an error code when outlier payments were involved. The claims were suspended prior to implementation of a fix, which was implemented during the week of August 28, 2000. The suspended claims have been released for normal processing.

### Guidelines for Resolution of October and January OCE Issues

Once the specified version of OCE has been installed, reprocess claims through OCE using the following procedures. The identified claims include a variety of paid claims or line item denials. If

a claim should be identified by more than one selection category in the OCE, process only one adjustment. If a pending action is open on an identified claim, coordinate to assure that only one adjustment is processed. However, if the claim is identified by criteria related to both OCE updates, process the claim through the October OCE and reprocess it (adjustment) again after the January OCE update. The following describes actions required by you based on OCE output.

- For line item rejections, create and process an adjustment claim including the rejected line(s). Subject the claim to duplicate edits to avoid duplicate payment if corrections have been processed in the interim; and
- Where a claim has been paid based on previous OCE output and is identified through these processes as potentially incorrect, create and process an adjustment claim, or a cancel only as appropriate.

Do not require your providers to submit adjustments or new claims. You are responsible for identifying and processing the necessary adjustments.

You will need to review the following data elements on paid claims and line item rejections to identify and reprocess claims that fall into the categories described below.

- Bill type,
- From date,
- Through date,
- Revenue codes,
- HCPCS codes,
- HCPCS modifiers,
- Units,
- OCE edit codes, and
- OCE service indicators.

### **Issues Scheduled for Inclusion In October 1, 2000 OCE Release**

Identify all claims for reprocessing that fall into the following categories after the October 2000 OCE is installed.

1. Edit 17 (inappropriate specification bilateral procedure) - line item rejection prior to October 1, 2000 - RTP effective October 1, 2000.

Some claims with multiple occurrences of the same bilateral procedure may have more than one bilateral procedure paid. If the same type "T" procedure is reported with multiple units on the same line item, the OCE is not rejecting all but one of the bilateral procedures as it should. When the multiple bilateral procedures are reported on separate line items the OCE is working correctly.

Selection Criteria: Bill Type 121, 131, or 141,  
Paid line item with units greater than 1,  
Modifier 50, and  
Bilateral HCPCS codes in attached excel file represented by  
a "1" in the CondBilateral column, or

Bill Type 121, 131, or 141,  
Paid line item with units greater than 1, and  
Bilateral HCPCS codes in the attached excel file represented  
by a "1" in the InBilateral column

When reprocessing these claims, reduce the units to 1 (one) and reprocess the adjustment through the October OCE.

2. Edits 19, 39, 40 (mutually exclusive/component of comprehensive procedure that would be allowed if appropriate modifier were present) - line item rejection.

Multiple psychiatric services provided on the same day may be edited incorrectly by OCE because the Correct Coding Initiative (CCI) v6.2 edit table in the current OCE incorrectly includes mental health codes. A PRICER modification was made to fix this problem. However, some claims may have been paid incorrectly prior to the PRICER modification.

Selection Criteria: OCE edit/reason code 19, 20, 39, or 40,  
Line item date of service for one day (same from and through date),  
Bill type 131 with condition code 41, or bill type 761, and  
HCPCS codes 90801-90857, 90865, 90880 and 90899

3. Edit 20 (Component of comprehensive procedure that is not allowed even if appropriate modifier is present) – line item rejection.

Emergency room claims were rejecting OCE even when modifier 25 was present on the line.

Selection Criteria: Bill type 131  
Units greater than one  
Modifier 25 present  
Revenue code 45X  
HCPCS codes 99281-99285

4. Edit 42 (multiple medical visits on the same day, with the same revenue code, without Condition Code G0) - line item rejection prior to October 1, 2000 - RTP effective October 1, 2000).

If multiple E&M codes are reported on separate line items the OCE is working correctly. When multiple E&M codes are reported with a unit greater than one on a line item, the OCE edit is not working correctly. The result is that some claims with multiple occurrences of an E&M code with the same revenue center might have more than one E&M code paid.

Selection Criteria: Bill type 121, 131, or 141,  
Paid line item with units greater than 1, and  
E&M HCPCS codes 92002-92014, 99201-99215, 99241-  
99245, 99271, 99285, 99291, G0101, G0175

When reprocessing these claims, reduce the units to 1 (one) and reprocess the adjustment through the October OCE.

5. Revenue Codes Without HCPCS - Processed Claims.

OCE currently assigns a line status service indicator of “A” (services not paid under OPSS) to some revenue codes without a HCPCS code. These should be packaged in the OPSS payment.

Selection Criteria: OCE service indicator A,  
Bill types 121, 131 or 141,  
Revenue codes in attachment 1 present, and  
HCPCS code **not** present for these revenue codes

#### 6. ER/Observation - Processed Claims.

Currently, claims which span more than one day and which include ER or observation services are being processed by the OCE as a single day.

Selection Criteria: Revenue codes 45X or 762,  
Bill types 121, 131 or 141, and  
Through date not equal to from date

#### 7. Non-Payable HCPCS Codes.

An edit was not set for some HCPCS codes with payment indicator E (non-allowed HCPCS codes). As a result, some claims were being paid in error based on reasonable cost when payment should not have been made.

Selection Criteria: OCE service indicator E,  
Line item covered charge greater than zero, and  
Bill Types 121, 131, 141 or 761

No action is required if the service was not paid.

### **Issues Scheduled for Inclusion In January 1, 2001 OCE Release**

1. Claims containing the following HCPCS modifiers are being inappropriately discounted in OCE. Identify all such claims for reprocessing after the January 2001 OCE is installed.

- a. Modifier 52 (reduced services) - Paid claims.

Claims containing Modifier 52 with type T procedures are being inappropriately discounted in the OCE.

Selection Criteria: Service indicator of T,  
HCPCS modifier of 52,  
Bill types 121, 131, or 141

- b. Modifiers 76 (repeat procedure by same physician), 77 (repeat procedure by another physician), 79 (unrelated procedure or service by the same physician during the post-operative period) - Paid claims.

Selection Criteria: HCPCS modifier of any of 76, 77 or 79,  
Bill types 121, 131 or 141

2. APC 34 (partial hospitalization per diem) is being assigned inappropriately to hospital outpatient claims with two or more mental health services, whenever the sum of their payments does not exceed the partial hospitalization per diem rate.

Selection Criteria: APC 34, and  
Bill type 131

### **PRICER Issue**

The PRICER software was incorrectly applying deductible and coinsurance to Pneumococcal Pneumonia Vaccine (PPV) claims. The October 1, 2000 OPSS PRICER has been modified to fix this problem. However, some claims may have been incorrectly paid prior to the modification.

Selection Criteria: Bill types 121, 131, 141, 341, 751, and  
HCPCS codes 90732 and G0009

Reprocess claims after implementation of the October 1, 2000 OPPS PRICER release.

### **MSN/EOMB Notices**

Instructions in PM A-00-36 apply to the MSN and EOMB where applicable. In addition, include MSN code 31.1 - this is a correction to a previously processed claim on the MSN or EOMB.

### **Provider Remittance Records**

Instructions in PM A-00-36 apply to the remittance advice changes. In addition, apply the reversals and corrections process detailed in each 835 remittance advice implementation guide, as is the norm for adjustments. This will enable automated posting and correction of the provider's accounts. Group code "CR" must be reported with the reversal action for the incorrect claim data prior to reporting of the corrected claim data in an 835.

### **Processing Requirements**

Standard systems are to create the necessary software, test and install it by January 1, 2001. Intermediaries are to complete reprocessing by March 15, 2001.

### **Reporting Requirements**

Each intermediary must prepare and submit a one time report for the October and January reprocessed claims. See Attachment 2 for the format of the report and where to submit the reports. The report is due April 15, 2001.

### **Provider Notification**

Notify your providers of information contained in this PM in your next scheduled bulletin release.

Attachments

**These instructions should be implemented within your current operating budget.**

**The effective date of this PM is October 1, 2000.**

**The implementation date of this PM is January 1, 2001.**

**For questions contact your regional office.**

**This PM may be discarded January 1, 2002.**
