Transmittal A-02-015

Date: FEBRUARY 12, 2002

CHANGE REQUEST 2043

SUBJECT: Installation of Version 27.1 of the Provider Statistical and Reimbursement (PS&R) Report

The Provider Statistical and Reimbursement (PS&R) version 27.1 was available for release to the fiscal intermediaries (FIs) on February 4, 2002. This is a release of only those PS&R modules that have changed from the December 31, 2001 version 27.0 release. A partitioned data set of the version 27.1 code (PP00.@BGS5420.PSRV271.SOURCE) is at the CMS Data Center for users to obtain by Network Data Mover. FIs must update their system to version 27.1, so that the problems identified in version 27.0 will be resolved. The software implementation date for the version 27.1 software will be March 1, 2002, which was stated in Transmittal A-01-149.

Detailed below are the modules that have been changed.

- MDDETFIX-corrects problem with version 26.0 detail file
- MD400701-new paid claim splitting routine
- MD400710-new paid claim splitting subroutine
- MD410501-summary file creation routine
- MD420501-detail file report routine
- MD430501-summary report creation routine

NOTE: This Program Memorandum (PM) does not change the schedule for PS&R report distribution or the due dates for Medicare cost reports as outlined in Transmittal A-01-149.

The effective date for this PM is February 4, 2002.

The implementation date for this PM is February 12, 2002.

The instructions contained in this PM should be implemented within your current operating budget.

This PM may be discarded after December 31, 2002.
