

**Alabama: Selected statistics from the United States section**

**All pneumoconioses mortality, 1988-1992**

	<b>Value</b>	<b>State rank</b>
Total deaths	303	12
Crude mortality rate (per 1,000,000 population)	19.16	9
Age-adjusted mortality rate (per 1,000,000 population)	9.89	10
Total years of potential life lost to life expectancy	3,388	12
Years of potential life lost to life expectancy (per death)	11.2	42

**Deaths by type of pneumoconiosis, 1988-1992**

	<b>Deaths*</b>	<b>Percent** distribution</b>
Asbestosis	94	31.0
Coal workers' pneumoconiosis	146	48.2
Silicosis	25	8.3
Byssinosis	2	0.7
Unspecified/Other pneumoconiosis	36	11.9

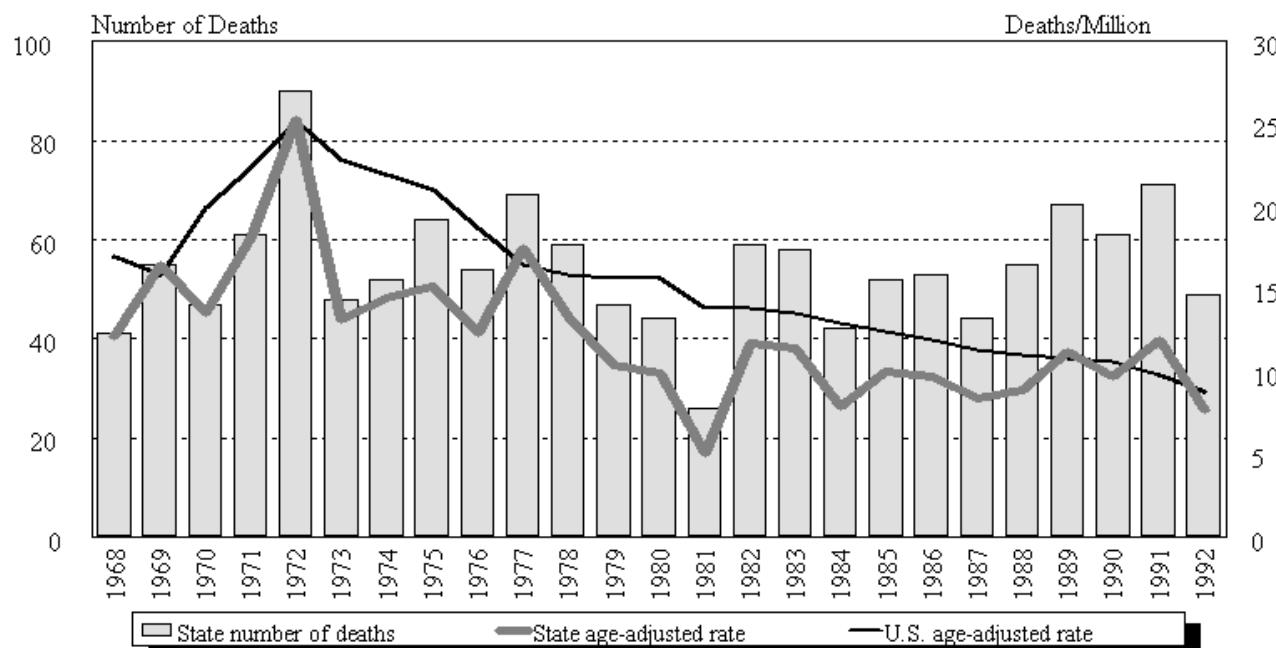

\* Sum of column may exceed total deaths because of deaths with multiple pneumoconioses.

\*\* Percentages may total more than 100% due to deaths with multiple pneumoconioses.

## Arizona: Selected statistics from the United States section

### All pneumoconioses mortality, 1988-1992

	<u>Value</u>	<u>State rank</u>
Total deaths	75	31
Crude mortality rate (per 1,000,000 population)	5.28	40
Age-adjusted mortality rate (per 1,000,000 population)	3.15	40
Total years of potential life lost to life expectancy	933	31
Years of potential life lost to life expectancy (per death)	12.4	17

### Deaths by type of pneumoconiosis, 1988-1992

	<u>Deaths*</u>	<u>Percent** distribution</u>
Asbestosis	30	40.0
Coal workers' pneumoconiosis	20	26.7
Silicosis	15	20.0
Byssinosis	1	1.3
Unspecified/Other pneumoconiosis	9	12.0

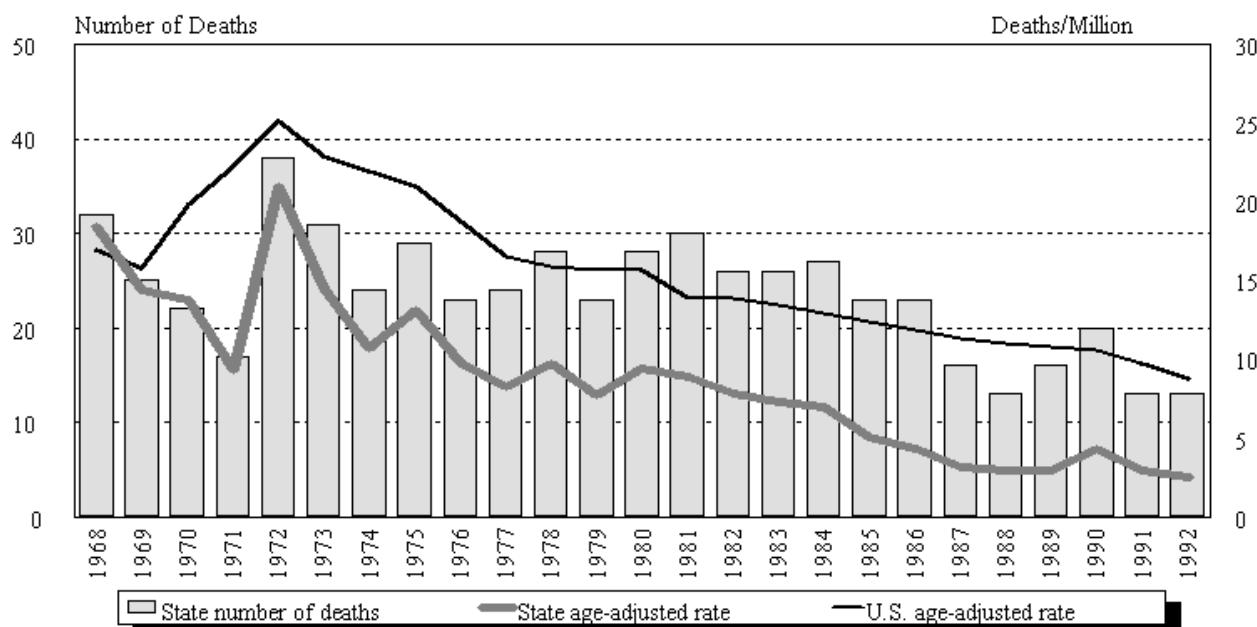

\* Sum of column may exceed total deaths because of deaths with multiple pneumoconioses.

\*\* Percentages may total more than 100% due to deaths with multiple pneumoconioses.

NOTE: See Appendix A for source description and Appendix B for methods and ICD-8 and ICD-9 codes.

- indicates no deaths listed.

NOTE: Counties with no deaths for all listed conditions are not displayed. Rates based on small numbers may be unstable. Sum of individual conditions may exceed total because of deaths with multiple pneumoconioses. See Appendix A for source description and Appendix B for methods and ICD-8 and ICD-9 codes.

SOURCE: National Center for Health Statistics multiple cause of death data. Population estimates from U.S. Bureau of the Census.

## Indiana: Selected statistics from the United States section

### All pneumoconioses mortality, 1988-1992

	<u>Value</u>	<u>State rank</u>
Total deaths	203	19
Crude mortality rate (per 1,000,000 population)	9.38	24
Age-adjusted mortality rate (per 1,000,000 population)	5.20	26
Total years of potential life lost to life expectancy	2,350	19
Years of potential life lost to life expectancy (per death)	11.6	33

### Deaths by type of pneumoconiosis, 1988-1992

	<u>Deaths*</u>	<u>Percent** distribution</u>
Asbestosis	26	12.8
Coal workers' pneumoconiosis	123	60.6
Silicosis	28	13.8
Byssinosis	1	0.5
Unspecified/Other pneumoconiosis	26	12.8

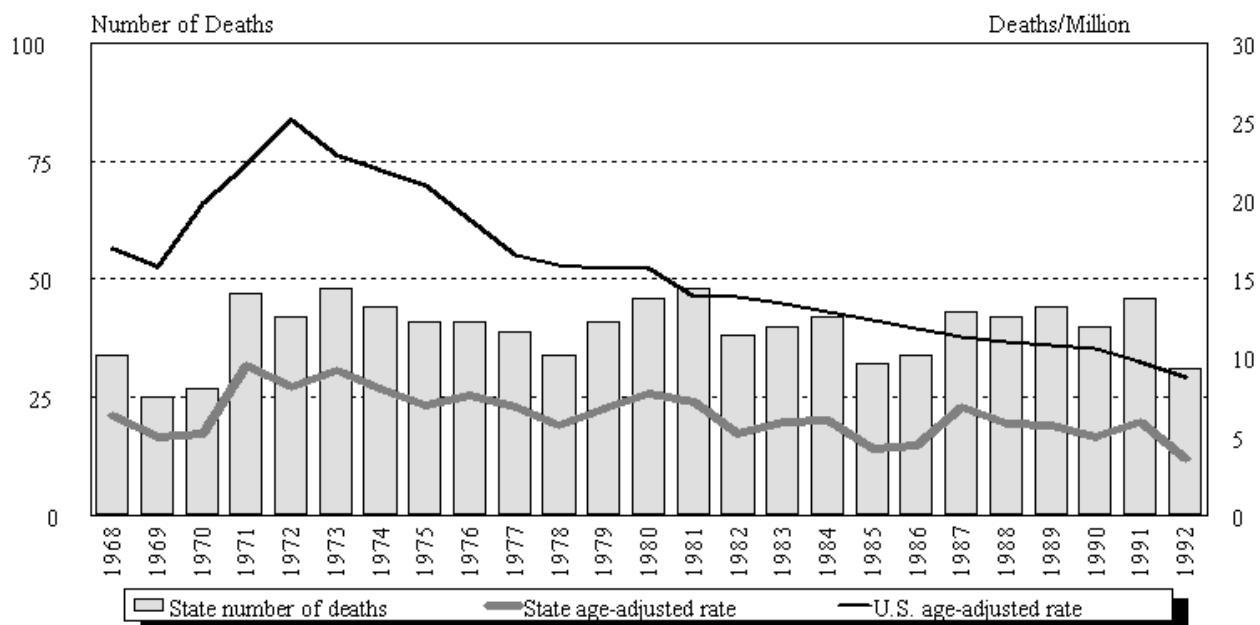

\* Sum of column may exceed total deaths because of deaths with multiple pneumoconioses.

\*\* Percentages may total more than 100% due to deaths with multiple pneumoconioses.

NOTE: See Appendix A for source description and Appendix B for methods and ICD-8 and ICD-9 codes.

- indicates no deaths listed.

NOTE: Counties with no deaths for all listed conditions are not displayed. Rates based on small numbers may be unstable. Sum of individual conditions may exceed total because of deaths with multiple pneumoconioses. See Appendix A for source description and Appendix B for methods and ICD-8 and ICD-9 codes.

SOURCE: National Center for Health Statistics multiple cause of death data. Population estimates from U.S. Bureau of the Census.

## Louisiana: Selected statistics from the United States section

### All pneumoconioses mortality, 1988-1992

	<u>Value</u>	<u>State rank</u>
Total deaths	123	23
Crude mortality rate (per 1,000,000 population)	7.73	29
Age-adjusted mortality rate (per 1,000,000 population)	5.41	25
Total years of potential life lost to life expectancy	1,751	21
Years of potential life lost to life expectancy (per death)	14.2	4

### Deaths by type of pneumoconiosis, 1988-1992

	<u>Deaths*</u>	<u>Percent** distribution</u>
Asbestosis	86	69.9
Coal workers' pneumoconiosis	7	5.7
Silicosis	18	14.6
Byssinosis	1	0.8
Unspecified/Other pneumoconiosis	12	9.8

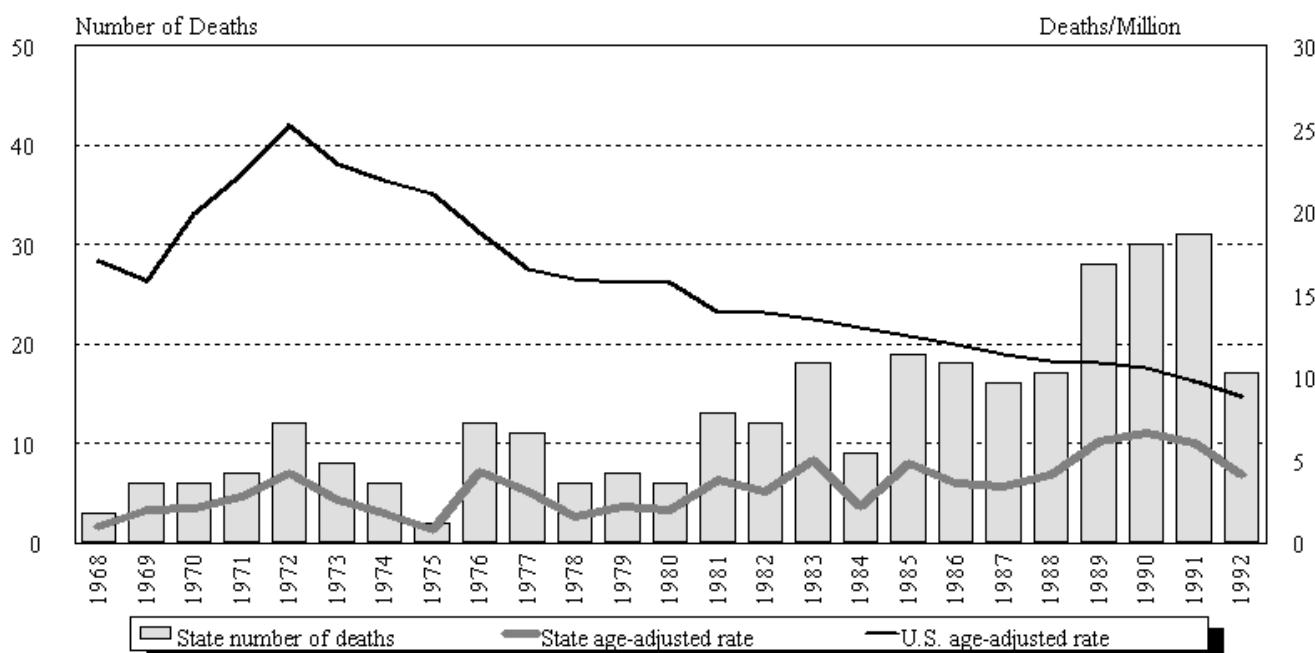

\* Sum of column may exceed total deaths because of deaths with multiple pneumoconioses.

\*\* Percentages may total more than 100% due to deaths with multiple pneumoconioses.

NOTE: See Appendix A for source description and Appendix B for methods and ICD-8 and ICD-9 codes.

SOURCE: National Center for Health Statistics multiple cause of death data. Population estimates from U.S. Bureau of the Census.

**Figure LA-1. All pneumoconioses: Louisiana and U.S. age-adjusted mortality rates, residents age 15 and over, 1968-1992**

- indicates no deaths listed.

NOTE: Counties with no deaths for all listed conditions are not displayed. Rates based on small numbers may be unstable. Sum of individual conditions may exceed total because of deaths with multiple pneumoconioses. See Appendix A for source description and Appendix B for methods and ICD-8 and ICD-9 codes.

SOURCE: National Center for Health Statistics multiple cause of death data. Population estimates from U.S. Bureau of the Census.

## Maine: Selected statistics from the United States section

### All pneumoconioses mortality, 1988-1992

	<u>Value</u>	<u>State rank</u>
Total deaths	63	36
Crude mortality rate (per 1,000,000 population)	13.00	13
Age-adjusted mortality rate (per 1,000,000 population)	7.11	15
Total years of potential life lost to life expectancy	725	34
Years of potential life lost to life expectancy (per death)	11.5	34

### Deaths by type of pneumoconiosis, 1988-1992

	<u>Deaths*</u>	<u>Percent** distribution</u>
Asbestosis	53	84.1
Coal workers' pneumoconiosis	1	1.6
Silicosis	5	7.9
Byssinosis	0	0.0
Unspecified/Other pneumoconiosis	4	6.3

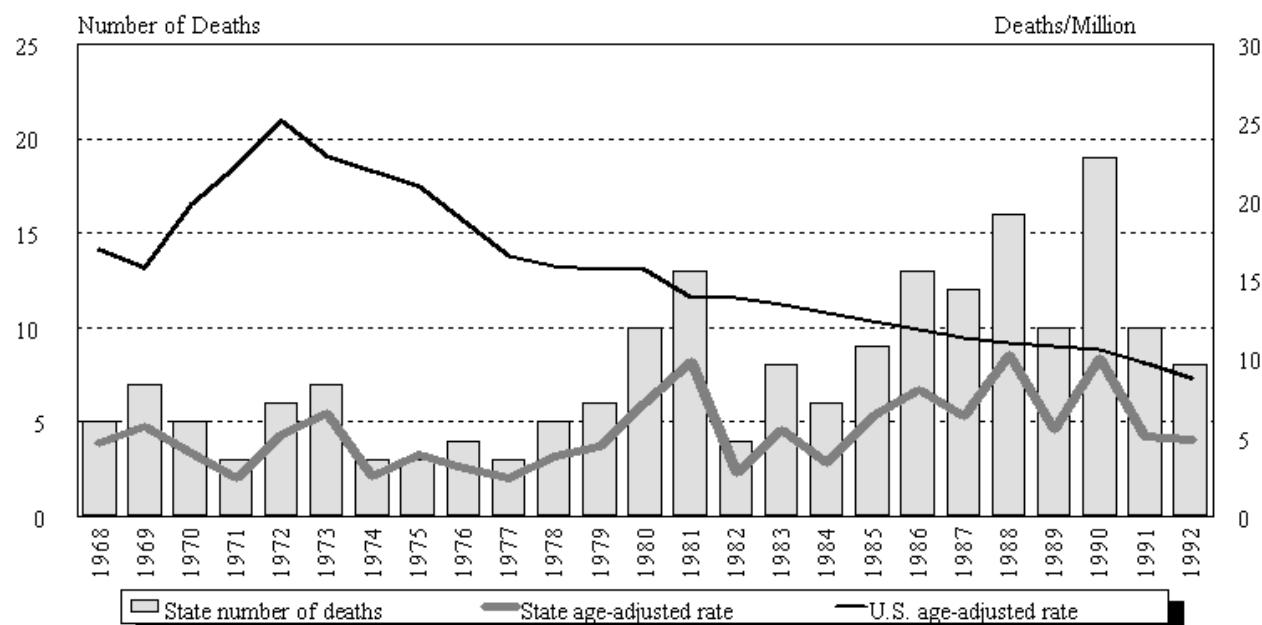

\* Sum of column may exceed total deaths because of deaths with multiple pneumoconioses.

\*\* Percentages may total more than 100% due to deaths with multiple pneumoconioses.

NOTE: See Appendix A for source description and Appendix B for methods and ICD-8 and ICD-9 codes.

- indicates no deaths listed.

NOTE: Counties with no deaths for all listed conditions are not displayed. Rates based on small numbers may be unstable. Sum of individual conditions may exceed total because of deaths with multiple pneumoconioses. See Appendix A for source description and Appendix B for methods and ICD-8 and ICD-9 codes.

SOURCE: National Center for Health Statistics multiple cause of death data. Population estimates from U.S. Bureau of the Census.

**Montana: Selected statistics from the United States section**

**All pneumoconioses mortality, 1988-1992**

	<u>Value</u>	<u>State rank</u>
Total deaths	37	40
Crude mortality rate (per 1,000,000 population)	12.10	16
Age-adjusted mortality rate (per 1,000,000 population)	6.79	17
Total years of potential life lost to life expectancy	454	39
Years of potential life lost to life expectancy (per death)	12.3	22

**Deaths by type of pneumoconiosis, 1988-1992**

	<u>Deaths*</u>	<u>Percent** distribution</u>
Asbestosis	22	59.5
Coal workers' pneumoconiosis	0	0.0
Silicosis	14	37.8
Byssinosis	0	0.0
Unspecified/Other pneumoconiosis	1	2.7

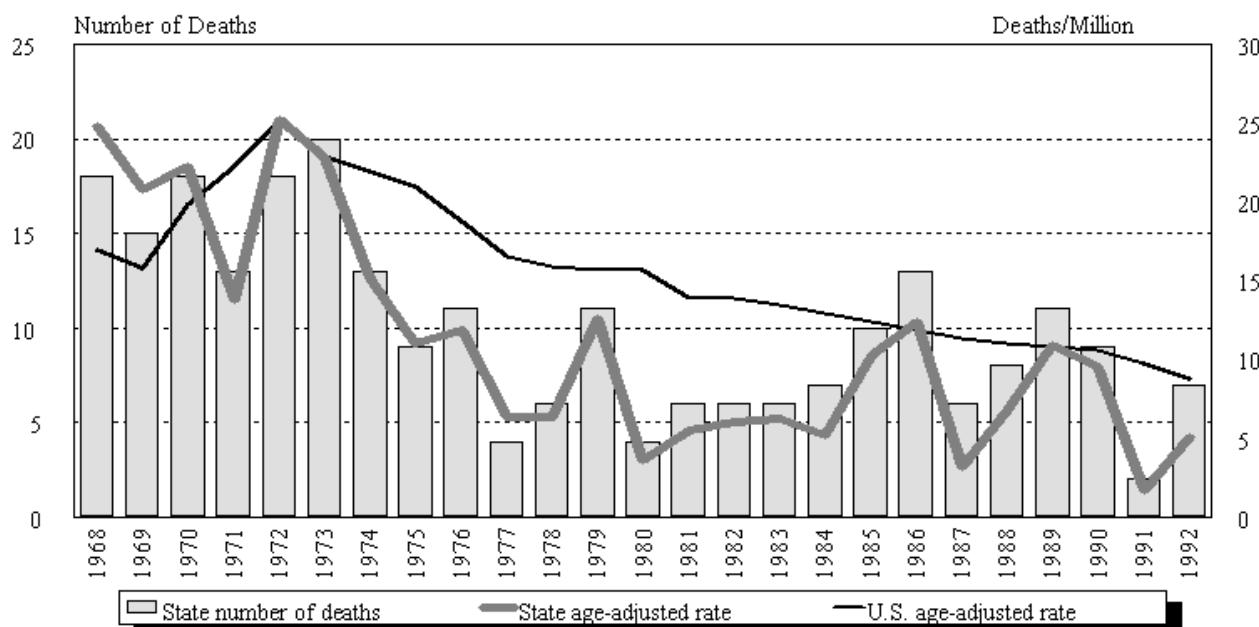

\* Sum of column may exceed total deaths because of deaths with multiple pneumoconioses.

\*\* Percentages may total more than 100% due to deaths with multiple pneumoconioses.

NOTE: See Appendix A for source description and Appendix B for methods and ICD-8 and ICD-9 codes.
