5/Data are for persons with family incomes below the Census poverty threshold.
6/For people 18-64 years, a screening question on at least one of the following: diet, physical activity, tobacco use, alcohol use, drug use,
sexually transmitted diseases, contraceptive use at a routine checkup in the last 3 years. For people 65 years and over,
a screening question on at least one of: diet, physical activity, tobacco use, alcohol use at a routine checkup in the past year.
7/Beginning with 1996 data, persons receiving public assistance other than Medicaid are considered to have health care
coverage. Prior to 1996 they were considered to not have health care coverage
8/1997-98 data.
$9 /$ Response rate for this group was too low to produce reliable estimates
10/Academic year 1990-91.
11/Academic year 1991-92
12/Academic year 1992-93
13/Academic year 1993-94
14/Academic year 1994-95
15/Academic year 1995-96
