### A Word About NASS Reports...

The Agricultural Statistics Board (ASB) publishes reports of production, stocks, inventories, disposition, utilization, and prices of agricultural inputs and commodities, and other items such as labor, farm numbers, and agricultural chemical usage.

National reports are issued from the Washington, D.C., headquarters. Individual State reports are issued from the State Statistical Offices (SSO's) following release of the national reports. Printed copies of both ASB and SSO reports are available for a fee.

An abundance of agricultural information is available to data users through our programs. In addition to the information above, estimates on more specialized commodities, including hop stocks, mink, cherries, cranberries, lentils, and peppermint oil are also available. The information is geared toward producers and can help them plan planting, feeding, breeding, and marketing programs. The data are also used by agricultural organizations, services, and businesses; trade groups; and financial institutions to determine demand for inputs, resources, transportation, and storage-related crop and livestock products. In addition, the data are used to make and carry out agricultural policy concerning farm program legislation, commodity programs, agricultural research, and rural development

### How to Order

To subscribe to national reports, use the order form in this publication or call toll-free **1-800-999-6779**. State reports may be obtained from the appropriate SSO (see pages 20-22).

### Electronic Information

NASS reports are available electronically immediately after release via Today's Reports from the NASS Homepage at <http://www.usda.gov/nass/>.

### E-Mail Subscriptions

E-Mail Subscriptions to NASS, and WAOB periodicals are available free of charge via e-mail, generally delivered within one hour of publication. Our electronic mailing list provides quick and timely access to the agricultural and economic information estimates you need now. Please note that delivery time may take longer depending on factors, such as network speed and report size. More information is provided on page 3.

### NASS Revision Policy

Most estimates are subject to revision, if necessary, when the next estimate is prepared. Revisions are made to provide data users with the best possible data for evaluating the current estimates. Revisions are based on additional information, such as new surveys, late reports, corrected data, or more complete administrative data. Revisions may also be based on a re-evaluation of previous survey data when making current estimates to improve survey to survey relationships.

### Understanding USDA Crop Forecasts

Describes the statistical methodology used by the National Agricultural Statistics Service to prepare the crop forecasts to give user of the data a better understanding. This is followed by a similar description of the world agriculture supply and demand estimates prepared by the World Agricultural Outlook Board.

To obtain a copy of this publication call Customer Service at 1-800-727-9540 and ask for Miscellaneous Publication No. 1554.

### Internet Published Estimates Database

Historical County, State, and U.S. information is now available in an online database via the Internet **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State, and other selection criteria and produces an output file compatible for updating databases and spreadsheets. The database can be accessed from the NASS Homepage at: <http://www.usda.gov/nass/>.

### Other USDA Publications

Several other USDA Agencies also issue a variety of Economic Reports which may be of interest to NASS customers. More information about the reports at these Agencies can be obtained from the following telephone numbers or Internet addresses:

## NASS on the World Wide Web

### Periodicals, Publications, and Data on the World Wide Web

NASS has a homepage on the World Wide Web that provides easy access to the wide range of information and data produced. Through the homepage, you can obtain copies of all reports described in this catalog, commodity and price specialists, and more.

### NASS Homepage -- <http://www.usda.gov/nass/>

Through a cooperative project with Cornell University, the Albert R. Mann Library distributes NASS, Economic Research Service (ERS), and World Agricultural Outlook Board (WAOB) periodicals and data files via the USDA Economics and Statistics System on a web server. Over 400 reports annually and over 100 data files are available free of charge. All NASS reports and WAOB's World Agricultural Supply and Demand Estimates (WASDE) are available electronically within minutes of release.

A calendar of scheduled releases is available from the NASS Homepage by clicking on Publications. At the next screen, select Reports Calendar and choose the year and month. To view a combined schedule of releases from NASS, ERS, and WAOB, select the Search from the NASS Homepage and click on Calendar in the upper frame.

### NASS Subject Specialists on the Internet

NASS maintains a listing of subject and commodity specialists for the various program areas. From the NASS Homepage, Click on Publication, then Contacts.

### NASS Customer Service

NASS operates an information center, staffed 7:30 a.m. to 4 p.m. ET Monday-Friday, to assist you with accessing their reports and data via the Internet, autofax, or printed copies. Please call 1-800-727-9540.

### Internet Published Estimates Database

Historical County, State, and U.S. information is now available in an online database via the Internet **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State, and other selection criteria and produces an output file compatible for updating databases and spreadsheets. The database can be accessed from the NASS Homepage at: <http://www.usda.gov/nass/> and select "On-Line Data Base".

### Bookmark It!!

Check the NASS Homepage frequently for new data from on-going surveys and special follow-on surveys from the Census of Agriculture.

### Geo-Spatial Categorized Land Cover CD-ROM

NASS is proud to offer this new GIS product to the public at large and more specifically for those involved in the agricultural sector of the nation's economy. These products are the final mosaicked output from NASS's Remote Sensing Acreage Estimation Program. Available on this CD-ROM is the categorized Landsat 5 & 7 data, for the State, which is identified and labeled as specific crop types for the cultivated cropland areas of the State. Each set includes software for image browsing, the digital categorized mosaicked image of the State, and associated accuracy statistics. The images are available in ERDAS Imagine .GIS and .IMG formats, for easy importing into most commercial GIS and image processing packages. Mosaicked precision registered images are available for North Dakota 97/98. Mosaicked but not precision registered preliminary images are available for Arkansas 97/98 & 98/99, Illinois 99, Mississippi 99, and North Dakota 98/99. To obtain a free copy contact NASS Customer Service at 1-800-727-9540.

## Free E-Mail Subscription to NASS Periodicals

**Subscribe E-mail** - Mann Library provides a **FREE** e-mail service for NASS reports. When a current report is released, it is sent via e-mail to the list of subscribers for that report. From NASS Homepage at <http://www.usda.gov/nass/>, select **Publications**. From the **Publications** page, the **Subscribe E-mail** button takes the user to the page describing e-mail delivery of reports. Click on **Go to the Subscription Page** and follow the instructions. It's as simple as clicking on the report name.

message to [usda-reports@usda.mannlib.cornell.edu](mailto:usda-reports@usda.mannlib.cornell.edu). In the body of the message put "Subscribe XXX, where XXX is the "Report Code" for each publication desired. To order NASS reports send an e-mail message to:

[usda-reports@usda.mannlib.cornell.edu](mailto:usda-reports@usda.mannlib.cornell.edu) subscribing to the desired reports. As an example, user entries in the message for *Crop Production* and *Hogs and Pigs* would be:

Subscribe *crop-production*  
Subscribe *hogs-pigs*

Subscriptions may also be obtained by sending an e-mail

## NASSFax Information Service

This system is operated by the National Agricultural Statistics Service (NASS) of the U.S. Department of Agriculture as a service for users of NASS information. Documents available **FREE** through NASSFax are reports issued by NASS. In general, **current U.S. summary pages and report highlights are available via the NASSFax for selected reports by document number. The 1997 Census of Agriculture State Highlights are also available.**

NASS statistical reports provide estimates of production, stocks, inventories, disposition, utilization, and prices of agricultural inputs and commodities, and other items such as labor, farm workers, and chemical usage.

Request **document number 0100** on the NASSFax for a **complete listing** of NASS report titles, stock number, and price information.

You may obtain a subscription to any of the full NASS printed reports by calling the ERS-NASS Order Desk at 1-800-999-6779. A free *NASS Guide to Products and Services* catalog is also available at this toll-free number upon request. Refer to the *NASS Guide to Products and Services* catalog for

a brief description of specific report contents.

It's quick and it's easy. Helpful hints:

1. Pick up the receiver on your facsimile machine (or a touch-tone telephone associated with your fax machine), dial 202-720-2000, listen, and respond to the voice prompts.
2. If you know the document number of the report(s) you desire, you can override the opening greeting by entering the document number as soon as the system answers.
3. You can request up to three documents in one phone call.
4. When answering system prompts, 9="yes" and 6="no."

**Refer to the following list of Document Numbers to receive reports from the NASSFax.**

NASS provides support and assistance in the areas of questionnaire and sample design, data collection and editing, analysis of survey results, and training. For further information contact the Survey Administration Branch at 202-720-2248.

## NASS International Program Activities

NASS technical support is not confined to the domestic sphere since Agency specialists frequently provide assistance and training to other countries to help establish or improve agricultural statistics programs.

NASS has been involved in international training and technical assistance activities for over 36 years. Assistance and training are provided to technical staffs in other countries for improvement of individual skills and organization's survey methodology to provide more reliable and timely agricultural information. NASS participates in reimbursable international training and technical assistance because they:

1. Allow for improvement of USDA's own assessment of food and fiber production capabilities and levels in foreign countries;
2. Assist the U.S. Government's efforts to help developing countries improve institutions that can help eliminate hunger and poverty; and
3. Develop NASS's human resources by exposure to other cultures and work situations.

For further information contact the NASS International Programs Office at 202-720-4505.

## Survey Assistance to Other Organizations

In addition to the many statistical activities directly related to its mission, NASS conducts surveys for and lends technical expertise to other Federal agencies, State governments, and private organizations on a reimbursable basis.

## Data Users Meetings

### Give Us Your Feedback!

Over the past several years, NASS has sponsored annual U. S. Department of Agriculture (USDA) data users meetings in various cities to solicit comments and suggestions from users of statistical and economic reports issued by NASS, World Agricultural Outlook Board, Economic Research Service, Foreign Agricultural Service, and Agricultural Marketing Service.

These meetings provide an open forum where representatives of the data programs are available to answer questions about their agency's current programs and receive public suggestions for possible changes.

Proceedings are prepared from some of the meetings and provided to the participants.

The dates and locations vary annually, and will be announced when scheduled for 2001. These meetings are announced on the Internet at the NASS Homepage <http://www.usda.gov/nass/>; under "Coming Events and News" as soon as they are determined for the upcoming year.

Written comments concerning the data users meetings, questions, or requests for additional information are welcomed. Please direct comments or questions to Karlyn McCutcheon USDA-NASS, Room 5805 South Building, Washington, DC 20250-2000. Phone (202) 690-8141, fax (202) 690-1311, or e-mail [hq\\_dapp@nass.usda.gov](mailto:hq_dapp@nass.usda.gov).

## Census of Agriculture

The census is conducted every 5 years to obtain agricultural statistics for each county, State, and the Nation. The next census will be done in 2002.

The census is the leading source of statistics about the Nation's agricultural production and the only source of consistent, comparable data at the county, State, and national levels.

The census includes all places from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year.

Special studies and censuses are conducted as follow-on programs to the census. They include a farm and ranch irrigation survey, an agricultural economics and land ownership survey, a census of horticultural specialties, and a census of aquaculture.

### Data Products

NASS can prepare data to meet user specifications. Sponsors must reimburse all costs for specially prepared work. For further information, call the NASS Data Lab at 202-720-5414.

## Highlights and Profiles

**State and County Highlights.** Presents basic data from the 1997 Census of Agriculture including farms by size, land use, market value of sales, operator characteristics, livestock and poultry inventories, and major crops for every county and by State. Data provided for the current and previous census years. Available on the Internet.

**State and County Profiles.** Based on results of the 1997 Census of Agriculture, describes changes in several key agricultural statistics also provides the rank of each county in the State and the Nation in crop acreage, livestock inventories, and sales. Graphics included. Available on the Internet.

## Volume 2, Subject Series

**ZIP Code and Congressional District (105<sup>th</sup> Congress) Tabulations.** *Census CD-ROM disc.* Order # AC97-CD-ZCCD, \$25.00. Presents agricultural statistics by five-digit postal ZIP Code and Congressional district (105<sup>th</sup> Congress) in two separate files, for all farms in all 50 States. Tables show the total market value of products sold and the number of farms by size for land in farms, cropland harvested, selected crops, and

inventory of cattle, calves, hogs, and pigs. Crops vary by State, and tables show number of farms by acres harvested for commodities such as tobacco, cotton, soybeans for beans, peanuts for nuts, and land in orchards.

**Agricultural Atlas of the United States. Order # AC97-SU-1, \$25.00.** Features a series of maps highlighting agricultural activities and characteristics such as farm number and size, selected crops harvested, livestock and poultry inventories and number sold, agricultural sales, production expenses, land use, irrigation patterns, fertilizer and chemical use, and machinery and equipment inventories. Displays some changes from 1992-97. Covers the United States, States, and counties. Available on the Internet and as a printed report.

**Ranking of States and Counties. Order # AC97-SU-2, \$25.00.** Ranks the leading States and counties for selected items from the 1997 Census of Agriculture. Items ranked include number of farms, value of products sold, inventory of livestock and poultry, and production and acreage of major crops. Most tables show data for 20 leading States and 100 leading counties. Also, most tables include the cumulative percent of the United States total as each leading State or county is ranked. Available on the Internet and as a printed report.

## Volume 3, Special Studies

**1998 Farm and Ranch Irrigation Survey. Order # AC97-SP-1, \$25.00.** Displays results from a sample survey of farm and ranch operators who reported using irrigation in the 1997 census. Includes acres irrigated; yields of specified crops; method of distribution; quantity and source of water used; number and depth of wells; pumps used in moving water; energy use; and expenditures for maintenance and investments for each State, 20 water resources areas, and the United States. Includes some comparative data from 1994. Available on the Internet and as a printed report.

**1998 Census of Horticultural Specialties. Order # AC97-SP-2, \$25.00.** Presents tabulations on number of establishments, value of sales, type of horticultural products, and other data items for horticultural operations. Covers the United States, each State, and leading counties. Available on Internet and as a printed report.

**1998 Census of Aquaculture. Order # AC97-SP-3, \$25.00.** Provides data on size of operation, methodology, sales by category, losses, irrigation, and other topics. **This is the Nation's first census of aquaculture.** Available on the Internet and as a printed report.

**1999 Agriculture Economics and Land Ownership Survey (AELOS). Order # AC99-SP-4, \$25.00.** AELOS provides data for land ownership, production and capital expenses, farm acres, farm debt, and farm related incomes at the U.S. Regional and State levels. Due Spring of 2001.

### ACKNOWLEDGEMENT

**Many thanks to the farmers, ranchers, and producers across the nation who willingly participate in the surveys with the National Agricultural Statistics Service, U. S. Department of Agriculture. They are the strength behind the NASS agricultural inventory, production, price and environmental information, products and services. We appreciate their support and cooperation—they are the cornerstone of the food and fiber system that feeds and clothes the world.**
