1963	1,910,538
1962	1,896,178
1961	1,824,578
1960	1,807,958

\* Includes the Postal Rate Commission established in 1970. As of 10/1/96, the Defense Mapping Agency no longer reports 113A data. The above statistics reflect a drop of about 7,000 employees starting in 1997.

\*\* From 1960 - 1976 as of June; from 1977 to present as of September.  
\*\*\* Current level is the lowest since 1960.

Revised July 6, 2001

#### ABOUT THE SF 113-A, Monthly Report of Federal Civilian Employment:

Standard Form 113-A, Monthly Report of Federal Civilian Employment, collects monthly summary data about Federal civilian employment, payroll and turnover. Employment data is as of the last calendar day of the month or as of the end of the pay period closest and prior to the end of the month. Payroll and turnover data reflect the report month covered.

Included are Federal civilian officers and employees in or under the U.S. Government (including Government-owned or controlled corporations) who are paid salaries, wages, or fees for personal service they render. The Central Intelligence Agency, National Security Agency, National Imagery and Mapping Agency, and Defense Intelligence Agency are exempt. Most non-appropriated fund employees and employees of the District of Columbia government are not included.
