

# We're planning for a long retirement.

**Getting screened for colorectal cancer will help us get there.**

**D**oris and I are looking forward to our future. That's why we're planning on colorectal cancer screenings. Our family doctor said that colorectal cancer is the second-leading cancer killer. And everyone 50 and older should get screening tests. So that's exactly what we're doing. Thanks to our doctor!

Screening tests can save lives. Talk to your doctor about your screening options.
