

An illustration of a man and a woman in a gallery setting. The man, on the left, is wearing a suit and has his hand on his hip, gesturing towards a large framed sign. The woman, on the right, is wearing a dress and a hat, holding a bag. The sign contains the text 'Colorectal Cancer Screening Saves Lives'. The background features abstract, cubist-style artwork on the walls.

Colorectal Cancer Screening Saves Lives

“Now THAT I understand.”

If you're over 50, get tested for colorectal cancer.

Polyps and colorectal cancer don't always cause symptoms. That's why screening is so important... screening helps find precancerous polyps, so they can be removed before they turn into cancer.

See your doctor and get screened.
