Rural Utilities Service

7 CFR Parts 1724, 1726, and 1755

RIN 0572-AB67

Revision of Electric Program Standard Contract Forms

AGENCY: Rural Utilities Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Rural Utilities Service (RUS) is proposing to amend its regulations to revise its standard forms of contracts that borrowers are required to use when contracting for construction and procurement, that are or will be financed by loans made or guaranteed by RUS, in accordance with applicable RUS regulations. RUS proposes to update, consolidate, and streamline these standard forms of contracts. These changes are needed to improve the usefulness of the standard forms of contract and to make it easier for RUS borrowers to utilize these standard forms of contract.

DATES: Written comments must be received by RUS, or bear a postmark or equivalent, no later than October 30, 2002. Please note that comments concerning the information collection and recordkeeping requirements must be received by September 3, 2002.

ADDRESSES: Written comments should be addressed to F. Lamont Heppe, Jr., Director, Program Development and Regulatory Analysis, Rural Utilities Service, U.S. Department of Agriculture, Stop 1522, 1400 Independence Avenue, SW., Washington, DC 20250-1522. Telephone: (202) 720-9550. RUS requires a signed original and three copies of all comments (7 CFR 1700.4). Comments will be available for public inspection during regular business hours (7 CFR 1.27(b)).

FOR FURTHER INFORMATION CONTACT: Fred J. Gatchell, Deputy Director, Electric Staff Division, Rural Utilities Service, U.S. Department of Agriculture, Stop 1569, 1400 Independence Ave., SW.,

Washington, DC 20250-1569. Telephone: (202) 720-1398. FAX: (202) 720-7491. E-mail: fgatchel@rus.usda.gov. The proposed contract forms are available on the RUS website at: <http://www.usda.gov/rus/electric/regs.htm>.

SUPPLEMENTARY INFORMATION:

Executive Order 12866

This proposed rule has been determined to be not significant for the purposes of Executive Order 12866 and, therefore, has not been reviewed by the Office of Management and Budget (OMB).

Executive Order 12372

This proposed rule is excluded from the scope of Executive Order 12372, Intergovernmental Consultation, which may require consultation with State and local officials. See the final rule related notice entitled, "Department Programs and Activities Excluded from Executive Order 12372," (50 FR 47034) advising that RUS loans and loan guarantees were not covered by Executive Order 12372.

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. RUS has determined that this rule meets the applicable standards provided in section 3 of the Executive Order. In addition, all State and local laws and regulations that are in conflict with this rule will be preempted; no retroactive effect will be given to this rule; and in accordance with sec. 212(e) of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. sec. 6912(e)) administrative appeal procedures, if any, must be exhausted before an action against the Department or its agencies may be initiated.

Regulatory Flexibility Act Certification

RUS has determined that this proposed rule will not have a significant economic impact on a substantial number of small entities, as defined in the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The RUS electric program provides loans and loan guarantees to borrowers at interest rates and on terms that are more favorable than those generally available from the private sector. Small entities are not subjected to any requirements which are not applied equally to large entities. RUS

borrowers, as a result of obtaining federal financing, receive economic benefits that exceed any direct economic costs associated with complying with RUS regulations and requirements.

National Environmental Policy Act Certification

The Administrator of RUS has determined that this proposed rule will not significantly affect the quality of the human environment as defined by the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*). Therefore, this action does not require an environmental impact statement or assessment.

Catalog of Federal Domestic Assistance

The program described by this proposed rule is listed in the Catalog of Federal Domestic Assistance Programs under number 10.850, Rural Electrification Loans and Loan Guarantees. This catalog is available on a subscription basis from the Superintendent of Documents, the United States Government Printing Office, Washington, DC 20402-9325, telephone number (202) 512-1800.

Information Collection and Recordkeeping Requirements

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), RUS invites comments on this information collection. RUS will request approval from the Office of Management and Budget (OMB).

Comments on this notice must be received by September 3, 2002.

Comments are invited on (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumption used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Title: 7 CFR 1726, "Electric System Construction Policies and Procedures—Electric."

OMB Control Number: 0572-0107.

Type of Request: Revision of a currently approved collection.

Abstract: In order to facilitate the programmatic interest of the Rural Electrification Act of 1936, 7 U.S.C. 901 et seq. (RE Act), and, in order to assure that loans made or guaranteed by RUS are adequately secured, RUS, as a secured lender, has established certain standards and specifications for materials, equipment, and the construction of electric systems. The use of standards forms, construction contracts, and procurement procedures helps assure RUS that appropriate standards and specifications are maintained; RUS' loan security is not adversely affected; and the loan and loan guarantee funds are used effectively and for the intended purposes.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1.5 minutes per response.

Respondents: Not-for-profit institutions, business or other for-profit.

Estimated Number of Respondents: 697.

Estimated Number of Responses per Respondent: 5.

Estimated Total Annual Burden on Respondents: 71 hours.

Copies of this information collection can be obtained from Michele Brooks, Program Development and Regulatory Analysis, at (202) 690-1078.

All responses to this information collection and recordkeeping notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Unfunded Mandates

This rule contains no Federal mandates (under the regulatory provision of Title II of the Unfunded Mandates Reform Act of 1995) for State, local, and tribal governments or the private sector. Thus, this rule is not subject to the requirements of sections

202 and 205 of the Unfunded Mandates Reform Act of 1995.

Background

The standard loan agreement between RUS and its electric borrowers provides that, in accordance with applicable RUS regulations, the borrower shall use standard forms of contracts promulgated by RUS for construction, procurement, engineering services, and architectural services financed by a loan made or guaranteed by RUS. RUS also provides forms of contracts which serve as guidance to borrowers and which borrowers may use at their discretion. RUS proposes to update, consolidate, and streamline the standard forms of contracts used for construction and procurement. The forms affected are:

Proposed Changes

The proposed revisions to the listed contract forms include:

1. Eliminate unneeded forms. This includes merging the Form 181 into the Form 187, merging the Form 180 and 792c into the Form 238, merging the Form 201, 203, and 764 into the Form 830, and eliminating Forms 180, 181, 201, 203, 764 and 792c. We are also proposing to eliminate infrequently used guidance forms (Forms 172, 173, 274, 282, and 458.)

2. Make forms suitable for "subject to" or "not subject to" RUS approval. This includes merging the Form 831 into the Form 830 and eliminating Form 831.

3. Make construction contract forms suitable for "labor only" or "labor and material." This includes merging the Form 792 into the Form 790 and eliminating Form 792.

4. Standardize tables and information pages and incorporate them as separate attachments. RUS is planning to publish the "Construction Units" pages as a separate bulletin. This would allow the borrower to include in its bid package only those construction unit pages that are relevant to a particular project.

5. Maximize consistency among forms. This includes standardizing common provisions and terminology, and adding a "Notice and Instructions to Bidders" to forms not having one. This also includes restructuring the

Form 198, Equipment Contract, to a "proposal" and "acceptance" format (like the other forms), and adding certain provisions, such as insurance and protection to persons and property, applicable to work performed at the project site, such as technical assistance during installation.

6. Add a provision regarding assignment of the contract to RUS for security purposes.

7. Update and clarify certain contract provisions in the forms. This includes:

a. Clarify that the contractor (not the owner or engineer) is solely responsible for the means and methods of construction and for the supervision of the contractor's employees.

b. Delete the reference to a "Supervisor" appointed by RUS.

c. Delete the reference to the loan contract and owner's access to funding.

d. Delete the option for eliminating retainage after the contract is 50 percent complete.

e. Update the "Buy American" and "Civil Rights" requirements.

f. Eliminating gender specific terms such as him, his, and materialmen.

Comments

RUS published an Advanced Notice of Proposed Rulemaking in the **Federal Register** on September 16, 1998, at 63 FR 49503. Comments were received from two distribution borrowers and two power supply borrowers. RUS reviewed and considered all comments. Several of the comments are addressed herein.

Commenters requested that RUS:

- Add a liquidated damages clause to the Forms 198 and 200. This comment has been incorporated.

- Allow electronic reproduction for all or part of the forms. In this proposal, RUS is proposing to remove many of the tables contained in the forms and to make them optional attachments which may be modified (electronically or otherwise) as needed. RUS is also proposing to allow exact electronic reproduction of the contract forms. This change will also be made to 7 CFR 1724, Electric Engineering, Architectural Services and Design Policies and Procedures.

- Modify the closeout and accounting requirements for certain types of contract forms. RUS has determined that it will not make this suggested change. RUS believes that the existing requirements are a reasonable balance between ease of use and accountability.

- Include certification forms concerning lobbying and debarment. RUS has included a certification form for debarment. RUS has determined that

a lobbying form is not needed in the contract forms.

- Eliminate the requirement to include owner furnished materials under the contractor's bond for certain contracts. RUS has determined that it will not make this suggested change. RUS believes that the existing bonding requirements are necessary for protection of the borrower's and the government's financial interests.

- Add or modify a number of contract provisions to define or clarify the contractor's obligations. RUS proposes to modify the contract provisions as appropriate to clarify the contractor's obligations.

One commenter suggested that by eliminating Form 274, Bidder's Qualifications, RUS is not encouraging prequalification of bidders. On the contrary, RUS requires prequalification of bidders (see 7 CFR 1726.23) for all contracts. RUS is proposing to eliminate the Form 274 because RUS believes that the substance of the bidder's qualification is more important than the form used. Borrowers and engineers may use whatever form or format they feel is appropriate for obtaining bidder's qualifications.

Other Changes

In addition to the modifications of the contract forms and the associated changes in 7 CFR 1726, RUS is making several other minor changes and corrections to 7 CFR 1726. For example, § 1726.125(b), which covers approval by RUS of plans and specifications for generating facilities, is being removed because this topic is now covered in 7 CFR 1724, Electric Engineering, Architectural Services and Design Policies and Procedures. Since some of the electric program contract forms are also used in the RUS telecommunications program, RUS is proposing to change the list of forms in 7 CFR 1755. RUS is proposing to remove the reference to year 2000 compliance since this is no longer relevant.

[Docket No. 2002-CE-16-AD]

RIN 2120-AA64

Airworthiness Directives; SOCATA—Groupe AEROSPATIALE Model TB 21 Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes to adopt a new airworthiness directive (AD) that would apply to certain SOCATA—Groupe AEROSPATIALE (Socata) Model TB 21 airplanes. This proposed AD would require you to modify the exhaust system. This proposed AD is the result of mandatory continuing airworthiness information (MCAI) issued by the airworthiness authority for France. The actions specified by this proposed AD are intended to prevent high levels of carbon monoxide from entering the cockpit during certain flight configurations, which could result in the pilot becoming incapacitated or impairing his/her judgement. Such a condition could lead to the pilot not being able to make critical flight safety decisions and result in loss of control of the airplane.

DATES: The Federal Aviation Administration (FAA) must receive any comments on this proposed rule on or before August 1, 2002.

ADDRESSES: Submit comments to FAA, Central Region, Office of the Regional Counsel, Attention: Rules Docket No. 2002-CE-16-AD, 901 Locust, Room 506, Kansas City, Missouri 64106.
