

CERTIFICATION OF TRUTH, ACCURACY, AND COMPLETENESS (CTAC)

January 2001

INSTRUCTIONS

This form is designed for the responsible official to certify that submitted documents (i.e., permit applications, updates to application, reports, and any other information required to be submitted as a condition of a permit) are true, accurate, and complete.

This form should be completed and submitted with each set of documents sent to the permitting authority. It may be used at time of initial application, at each step of a phased application submittal, for application updates, as well as to accompany routine submittals required as a term or condition of a permit.

Section A - Federal law requires that title V permit applications be signed by a responsible official. The definition of responsible official can be found at § 70.2. Provide the name, title, address, telephone number, and, if desired, the facsimile machine number for the responsible official.

Section B - The responsible official must sign and date the certification of truth, accuracy and completeness. This should be done after all application forms are complete and the responsible official has reviewed the information. Normally this would be the last form completed before the package of forms are mailed to the permitting authority.
