BILLING CODE 4163-18-P

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and  
Prevention

### Iowa Ordnance Plant

AGENCY: Centers for Disease Control and  
Prevention (CDC), Department of Health  
and Human Services (HHS).

ACTION: Notice.

**SUMMARY:** The Department of Health and Human Services gives notice of a decision to evaluate a petition to designate a class of employees at the Iowa Ordnance Plant, also known as the Iowa Army Ammunition Plant, in Burlington, Iowa to be included in the Special Exposure Cohort under the Energy Employees Occupational Illness Compensation Program Act of 2000. The initial proposed definition for the class being evaluated, subject to revision as warranted by the evaluation, is as follows:

**Facility:** Iowa Ordnance Plant, Burlington, Iowa.

**Locations:** Line 1 (which includes Yard C, Yard G, Yard L, Firing Site Area, Burning Field "B", and Storage Sites for Pits and Weapons including Buildings 73 and 77).

**Job Titles and/or Job Duties:** All Technicians (Laboratory, Health Physics, Chemical, X-ray, etc.), Production Personnel (hourly and salaried), Engineers, Inspectors, Safety Personnel, Physical Security Personnel, and Maintenance Persons. Period of Employment: 1947-1974.

**FOR FURTHER INFORMATION CONTACT:** Larry Elliott, Director, Office of Compensation Analysis and Support, National Institute for Occupational Safety and Health, 4676 Columbia Parkway, MS C-46, Cincinnati, OH 45226, telephone 513-533-6800 (this is not a toll-free number). Information requests can also be submitted by e-mail to [OCAS@CDC.GOV](mailto:OCAS@CDC.GOV).

Dated: October 18, 2004.

James D. Seligman,

Associate Director for Program Services,  
Centers for Disease Control and Prevention.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

National Toxicology Program; Call for  
Additional Public Comments on 21  
Substances, Mixtures and Exposure  
Circumstances Proposed for Review  
for Listing or Changing the Current  
Listing in the Report on Carcinogens,  
Twelfth Edition

### Background

The National Toxicology Program (NTP) initially announced its intent to review additional agents, substances, mixtures and exposure circumstances for possible listing or changing the current listing in the Report on Carcinogens (RoC), Twelfth Edition in a May 19, 2004 *Federal Register* notice (69 FR 28940 (May 19, 2004)). Based on some of the comments received in response to this notice, the NTP is concerned that there might have been confusion about the procedures that will be used for review of nominations to the 12th RoC. A detailed description of the current review procedures, including the steps in the formal review process, is available on the Web at <http://ntp-server.niehs.nih.gov> (select on Report on Carcinogens) or can be obtained by contacting: Dr. C.W. Jameson, National Toxicology Program, Report on Carcinogens, 79 Alexander Drive, Building 4401, Room 3118, PO Box 12233, Research Triangle Park, NC 27709; phone: (919) 541-4096, fax: (919) 541-0144, e-mail: [jameson@niehs.nih.gov](mailto:jameson@niehs.nih.gov).

### Public Comment Requested

Because of the possibility of confusion over the review procedures for the 12th RoC nominations, additional comments concerning the nominations for listing or changing the current listing in the 12th RoC will be accepted by the NTP for a period of 30 days from the publication date of this announcement in the *Federal Register*. The following table identifies the 21 nominations the NTP may consider for

review in 2004 or 2005, as either a new listing in or changing the current listing in the 12th RoC. These nominations are provided with their Chemical Abstracts Services (CAS) Registry numbers (where available) and pending review action. Additional nominations for the 12th RoC or modifications to the nominations in the attached table may be identified and would be announced in future *Federal Register* notices. The NTP solicits public input on these 21 nominations and asks for relevant information concerning their carcinogenesis, as well as current production data, use patterns, or human exposure information. The NTP also invites interested parties to identify any scientific issues related to the listing of a specific nomination in the RoC that they feel should be addressed during the reviews.

Individuals who submitted comments in response to the May 19, 2004 *Federal Register* (69 FR 28940 (May 19, 2004)) that initially announced the 12th RoC nominations need not re-submit their comments as they are already part of the public record. Individuals submitting new or additional public comments are asked to include relevant contact information (name, affiliation (if any), address, telephone, fax, and e-mail). Comments or questions should be directed to Dr. C.W. Jameson at the address listed above.

### Additional Nominations Encouraged

The NTP solicits and encourages the broadest participation from interested individuals or parties in nominating agents, substances, or mixtures for review for the Twelfth and future RoCs. Nominations should contain a rationale for review. Appropriate background information and relevant data (e.g., journal articles, NTP Technical Reports, IARC listings, exposure surveys, release inventories, etc.), which support the review of a nomination, should be provided or referenced when possible. Contact information for the nominator should also be included (name, affiliation (if any), address, telephone, fax, and email). Nominations should be sent to Dr. Jameson's attention at the address given above.

Dated: October 15, 2004.

Samuel Wilson,

Deputy Director, National Institute of  
Environmental Health Sciences.
