

Subpart N - Problems in Alcohol Testing

§ 40.269 What problems cause an alcohol test to be cancelled unless they are corrected?

As a BAT or STT, or employer, you must cancel an alcohol test if any of the following problems occur, unless they are corrected. These are “correctable flaws.” These problems are:

- (a) The BAT or STT does not sign the ATF (see §§40.247(a)(1) and 40.255(a)(1)).
- (b) The BAT or STT fails to note on the “Remarks” line of the ATF that the employee has not signed the ATF after the result is obtained (see §40.255(a)(2)).
- (c) The BAT or STT uses a non-DOT form for the test (see §40.225(a)).
