

# Development Document for Proposed Effluent Limitations Guidelines and Standards for the Concentrated Aquatic Animal Production Industry Point Source Category

United States Environmental Protection Agency  
Office of Water (4303T)  
EPA-821-R-02-016  
Washington, DC 20460

August 2002

# **Development Document for Proposed Effluent Limitations Guidelines and Standards for the Concentrated Aquatic Animal Production Industry Point Source Category**

Christine T. Whitman  
Administrator

G. Tracy Mehan, III  
Assistant Administrator, Office of Water

Geoffrey H. Grubbs  
Director, Office of Science and Technology

Sheila E. Frace  
Director, Engineering and Analysis Division

Marvin Rubin  
Chief, Environmental Engineering Branch

Jan Goodwin  
Technical Coordinator

Marta Jordan  
Project Manager

Engineering and Analysis Division  
Office of Science and Technology  
U.S. Environmental Protection Agency  
Washington, DC 20460

August 2002

## **Acknowledgments and Disclaimer**

This report has been reviewed and approved for publication by the Engineering and Analysis Division, Office of Science and Technology. This report was prepared with the support of Tetra Tech, Inc., Eastern Research Group, Inc., Science Applications International Corporation (SAIC), Westat, Inc., and DynCorp I&ET, under the direction and review of the Office of Science and Technology.

Neither the United States government nor any of its employees, contractors, subcontractors, or other employees makes any warranty, expressed or implied, or assumes any legal liability or responsibility for any third party's use of, or the results of such use of, any information, apparatus, product, or process discussed in this report, or represents that its use by such a third party would not infringe on privately owned rights.

# CONTENTS

Chapter 1	Legal Authority and Background.....	1-1
1.1	Legal Authority.....	1-1
1.2	Clean Water Act.....	1-1
1.2.1	Best Practicable Control Technology Currently Available (BPT)—Section 304(b)(1) of the CWA .....	1-2
1.2.2	Best Control Technology for Conventional Pollutants (BCT)—Sec. 304(b)(4) of the CWA .....	1-2
1.2.3	Best Available Technology Economically Achievable (BAT)—Section 304(b)(2)(B) of the CWA .....	1-3
1.2.4	New Source Performance Standards (NSPS)—Section 306 of the CWA .....	1-3
1.2.5	Pretreatment Standards for Existing Sources (PSES)—Section 307(b) of the CWA .....	1-4
1.2.6	Pretreatment Standards for New Sources (PSNS)—Section 307(c) of the CWA .....	1-4
1.3	Section 304 and Consent Decree .....	1-4
1.4	Regulatory Flexibility Act (RFA) as Amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA).....	1-5
1.5	State, Regional, and Municipal Aquatic Animal Production Regulations.....	1-6
1.5.1	State Regulations .....	1-6
1.5.1.1	Regulations Dealing Directly with Effluents and Discharges .....	1-6
	National Pollutant Discharge Elimination System Permits .....	1-7
	Discharges.....	1-7
	Pesticides .....	1-7
	Waste Handling.....	1-8
	Miscellaneous Permits and Regulations .....	1-8
1.5.1.2	Regulations Dealing Indirectly with Effluents and Discharges.....	1-9
	Construction and Storm Water .....	1-9
	Disease Control and Protection of Fish and Wildlife Health.....	1-9
	Nonnative Species.....	1-10
	Water Supply .....	1-10
	Miscellaneous Permits and Regulations .....	1-10
1.5.1.3	Regulations Addressing All Other Types of Aquaculture-Related Activities.....	1-12
	Possession .....	1-12
	Licensing and Permitting.....	1-12
	Processing .....	1-12
	Inspection.....	1-13

Depuration .....	1-13
Leasing.....	1-13
Taxes.....	1-13
Miscellaneous Permits and Regulations .....	1-13
1.5.2 Federal Regulations .....	1-15
1.6 Regulatory History of the Concentrated Aquatic Animal Production Industry.....	1-17
1.7 References.....	1-17
Chapter 2 Summary of Scope and Proposed Regulation.....	2-1
2.1 National Pollutant Discharge Elimination System (NPDES).....	2-1
2.2 Effluent Limitations Guidelines and Standards .....	2-2
2.2.1 Regulatory Implementation of Part 451 Through the NPDES Permit Program and the National Pretreatment Program .....	2-2
2.2.1.1 NPDES Permit Program .....	2-3
2.2.1.2 New Source Performance Standards .....	2-3
2.2.1.3 Pollutants in Intake Water (Net Limitations) .....	2-3
2.2.1.4 National Pretreatment Standards .....	2-4
2.2.2 Applicability of the Proposed Rule.....	2-4
2.2.3 Summary of the Proposed Effluent Limitations Guidelines and Standards .....	2-6
2.2.3.1 BPT.....	2-6
Flow-through Systems.....	2-6
Recirculating Systems.....	2-7
Net Pen Systems .....	2-7
2.2.3.2 BCT and BAT.....	2-7
Flow-through Systems .....	2-7
Recirculating Systems.....	2-8
Net Pen Systems .....	2-8
2.2.3.3 NSPS.....	2-8
2.3 References.....	2-14
Chapter 3 Data Collection Activities.....	3-1
3.1 Summary of Data Collection Activities.....	3-1
3.1.1 Literature Searches .....	3-1
3.1.2 Permitting Information .....	3-2
Permit Compliance System.....	3-2
Discharge Monitoring Reports.....	3-2
NPDES Permits.....	3-5
Summary of NPDES, PCS, and DMR Data .....	3-6

---

3.2	Summary of Aquatic Animal Production Questionnaire Activity .....	3-7
3.2.1	Background.....	3-7
3.2.2	Screener Survey .....	3-8
3.2.2.1	Description of the Screener Survey .....	3-8
3.2.2.2	Development of Screener Survey Mailing List .....	3-8
3.2.2.3	Response to the Screener Survey.....	3-8
3.2.2.4	Preliminary Summary of Data from the Screener Survey .....	3-9
3.2.3	Detailed Survey .....	3-11
3.2.3.1	Description of the Detailed Survey .....	3-11
3.2.3.2	Sample Selection for the Detailed Survey .....	3-12
3.3	Summary of EPA’s Site Visit and Wastewater Sampling Programs.....	3-12
3.3.1	Site Visits.....	3-12
3.3.1.1	Site Visit Summary.....	3-13
3.3.1.2	Comparison of Site Visit Data with 1998 Aquaculture Census .....	3-16
3.3.2	Wastewater Sampling .....	3-16
3.3.2.1	Pollutants Sampled .....	3-17
3.3.2.2	Analytical Methods.....	3-21
3.4	U.S. Department of Agriculture Data .....	3-22
3.4.1	1998 Census of Aquaculture.....	3-22
3.4.2	National Agricultural Statistics Service.....	3-23
3.4.3	Animal and Plant Health Inspection Service: Veterinary Services and the National Animal Health Monitoring System .....	3-23
3.4.4	Economic Research Service .....	3-24
3.5	Summary of Other Data Sources .....	3-24
3.5.1	Joint Subcommittee on Aquaculture.....	3-24
3.5.2	BMP Guidance Documents Developed by Governmental and Other Organizations.....	3-25
3.5.2.1	Alabama.....	3-25
3.5.2.2	Arizona .....	3-25
3.5.2.3	Arkansas .....	3-25
3.5.2.4	Florida.....	3-26
3.5.2.5	Hawaii.....	3-26
3.5.2.6	Idaho .....	3-26
3.5.2.7	Other BMP Guidance Documents .....	3-26
3.5.3	Other Industry-Supplied Data: Small Business Advocacy Review Panel .....	3-27
3.5.4	Summary of Public Participation.....	3-28
3.6	References.....	3-28

Chapter 4	Industry Profiles.....	4-1
4.1	Overview of the Industry .....	4-1
4.1.1	Development of Federal, State, and Local Hatchery Programs.....	4-2
4.1.2	Development of Commercial Aquatic Animal Production .....	4-3
4.2	System Types.....	4-4
4.2.1	Ponds Systems .....	4-4
4.2.1.1	Levee Ponds.....	4-4
4.2.1.2	Watershed Ponds .....	4-7
4.2.2	Flow-through Systems.....	4-9
4.2.3	Recirculating Systems .....	4-10
4.2.4	Net Pens and Cages .....	4-11
4.2.5	Floating and Bottom Culture Systems.....	4-12
4.2.6	Other Systems: Alligator Farming.....	4-13
4.3	Production Description by Species .....	4-13
4.3.1	Catfish.....	4-13
4.3.1.1	Production Systems .....	4-14
	Levee Ponds.....	4-15
	Watershed Ponds.....	4-15
4.3.1.2	Culture Practices.....	4-15
	Feed Management.....	4-18
	Health Management.....	4-19
4.3.1.3	Water Quality Management and Effluent Treatment Practices.....	4-20
	Water Quality in the Production System .....	4-20
	Effluent Characteristics.....	4-21
	Current Industry Effluent Treatment Practices.....	4-24
4.3.2	Trout .....	4-25
4.3.2.1	Production Systems .....	4-26
4.3.2.2	Culture Practices.....	4-28
	Feed Management.....	4-29
	Health Management.....	4-30
4.3.2.3	Water Quality Management and Current Treatment Practices.....	4-31
	Water Quality Management Practices .....	4-31
	Sludge Treatment and Disposal .....	4-34
4.3.3	Salmon .....	4-35
4.3.3.1	Production Systems .....	4-36
4.3.3.2	Culture Practices.....	4-38
	Production for Release.....	4-38
	Production for Commercial Culture .....	4-38
	Harvest Practices.....	4-39
	Feed Management.....	4-39
	Health Management.....	4-39

---

---

4.3.3.3	Water Quality Management.....	4-40
	Hatchery Water Quality Characteristics .....	4-40
	Net Pen Water Quality.....	4-41
	Current Treatment Practices in Net Pen Systems .....	4-43
4.3.4	Striped Bass .....	4-43
4.3.4.1	Production Systems .....	4-44
4.3.4.2	Culture Practices.....	4-45
	Hatchery Phase .....	4-45
	Phase I in Ponds.....	4-45
	Phase II in Ponds.....	4-46
	Phase III in Ponds .....	4-46
	Other Systems Used to Culture Hybrid Striped Bass .....	4-46
	Feed Management.....	4-47
	Health Management.....	4-48
4.3.4.3	Water Quality Management and Effluent Treatment Practices.....	4-49
	Pond Systems.....	4-49
	Other Production Systems .....	4-50
4.3.5	Tilapia.....	4-50
4.3.5.1	Production Systems .....	4-51
4.3.5.2	Culture Practices.....	4-51
	Feed Management.....	4-53
	Health Management.....	4-53
4.3.5.3	Water Quality Management and Effluent Treatment Practices.....	4-53
	Pond Systems.....	4-53
	Flow-through Systems .....	4-54
	Recirculating Systems.....	4-54
4.3.6	Other Finfish.....	4-55
4.3.6.1	Largemouth Bass .....	4-55
	Production Systems.....	4-55
	Culture Practices .....	4-56
4.3.6.2	Smallmouth Bass .....	4-56
4.3.6.3	Carp .....	4-56
	Culture Practices .....	4-57
4.3.6.4	Flounder.....	4-57
	Production Systems.....	4-57
	Culture Practices .....	4-58
4.3.6.5	Paddlefish .....	4-58
	Production Systems.....	4-59
	Culture Practices .....	4-59
4.3.6.6	Sturgeon.....	4-60
	Production Systems.....	4-60
	Culture Practices .....	4-60

---

---

4.3.6.7 Sunfish Family .....	4-61
Production Systems.....	4-62
Culture Practices .....	4-62
4.3.6.8 Walleye .....	4-63
Production Systems.....	4-63
Culture Practices .....	4-64
4.3.6.9 Yellow Perch.....	4-65
Production Systems.....	4-65
Culture Practices .....	4-65
4.3.7 Baitfish.....	4-65
4.3.7.1 Production Systems .....	4-66
4.3.7.2 Culture Practices.....	4-67
4.3.7.3 Water Quality Management Practices .....	4-68
4.3.8 Ornamental Fish.....	4-68
4.3.8.1 Production Systems .....	4-69
Pond Systems.....	4-70
Recirculating Systems.....	4-70
4.3.8.2 Culture Practices.....	4-70
Feed Management.....	4-71
Health Management.....	4-71
4.3.8.3 Water Management Practices .....	4-72
4.3.9 Shrimp .....	4-72
4.3.9.1 Production Systems .....	4-73
4.3.9.2 Culture Practices.....	4-73
Feed Management.....	4-74
Health Management.....	4-74
4.3.9.3 Water Quality Management.....	4-75
4.3.9.4 Effluent Characteristics and Treatment Practices.....	4-76
4.3.9.5 Freshwater Prawn .....	4-78
Production Systems.....	4-78
Culture Practices .....	4-79
Feed Management.....	4-79
Health Management.....	4-79
Water Characteristics and Effluent Treatment Practices .....	4-79
4.3.10 Crawfish.....	4-80
4.3.10.1 Production Systems .....	4-80
Permanent Ponds.....	4-80
Rotational Ponds.....	4-81
Health Management.....	4-82
4.3.10.2 Effluent Characteristics .....	4-82
4.3.10.3 Current Effluent Treatment Practices Within the Industry.....	4-83

4.3.11	Lobster .....	4-84
4.3.11.1	Production Systems .....	4-85
4.3.11.2	Culture Practices .....	4-85
	Feed Management .....	4-85
	Health Management .....	4-85
4.3.11.3	Water Quality Management Practices .....	4-86
4.3.12	Molluscan Shellfish .....	4-87
4.3.12.1	Production Systems .....	4-88
4.3.12.2	Culture Practices .....	4-89
	Feed Management .....	4-90
	Health Management .....	4-91
4.3.12.3	Water Quality Management Practices .....	4-91
4.3.13	Other Aquatic Animal Production (Alligators) .....	4-91
4.3.13.1	Production Systems .....	4-93
4.3.13.2	Culture Practices .....	4-93
	Feed Management .....	4-96
	Health Management .....	4-96
4.3.13.3	Water Quality Management and Effluent Treatment Practices .....	4-96
4.4	Trends in the Industry .....	4-97
4.5	Aquatic Animal Production Size Categories .....	4-98
4.6	Industry Definition .....	4-99
4.7	References .....	4-99
<b>Chapter 5 Industry Subcategorization for Effluent Limitations Guidelines and Standards .....</b>		<b>5-1</b>
5.1	Factor Analysis .....	5-1
5.1.1	System Type .....	5-2
5.1.1.1	Pond Systems .....	5-2
5.1.1.2	Flow-through Systems .....	5-3
5.1.1.3	Recirculating Systems .....	5-4
5.1.1.4	Net Pens .....	5-4
5.1.1.5	Floating and Bottom Culture .....	5-4
5.1.1.6	Other Facility Types .....	5-4
5.1.1.7	Summary .....	5-5
5.1.2	Species .....	5-5
5.1.3	Facility Age .....	5-6
5.1.4	Facility Location .....	5-6
5.1.5	Facility Size .....	5-6
5.1.6	Feed Type and Feeding Rate .....	5-6
5.1.7	Non-water Quality Environmental Impacts .....	5-7
5.1.8	Disproportionate Economic Impacts .....	5-7

8.5	Overview of Limitations .....	8-13
8.5.1	Objective.....	8-14
8.5.2	Selection of Percentiles.....	8-14
8.5.3	Compliance with Limitations .....	8-15
8.6	Estimation of the Proposed Limitations.....	8-17
8.6.1	Calculation of Option Long-Term Averages.....	8-17
8.6.2	Calculation of Option Variability Factors .....	8-19
8.6.3	Transfers of Option Variability Factors.....	8-21
8.6.4	Summary of Steps Used to Derive the Proposed Limitations .....	8-21
8.7	References.....	8-22
Chapter 9	Costing Methodology.....	9-1
9.1	Introduction.....	9-1
9.1.1	Regulatory Option Summary .....	9-1
9.1.2	Approach for Estimating Compliance Costs .....	9-3
9.1.3	Basic Model Assumptions .....	9-4
9.1.4	Organization of the Cost Chapter .....	9-5
9.2	Cost Model Structure .....	9-5
9.2.1	Model Facility Configuration .....	9-6
9.2.2	Unit Cost of Treatment Technologies or BMPs .....	9-7
9.2.2.1	Unit Cost Components.....	9-7
9.2.2.2	General Cost Assumptions .....	9-7
9.2.3	Frequency Factors.....	9-7
9.2.4	Output Data.....	9-8
9.3	Model Facility Configuration .....	9-8
9.3.1	Flow-through Systems.....	9-8
9.3.2	Alaska Flow-through Systems.....	9-11
9.3.3	Recirculating Systems .....	9-13
9.3.4	Net Pen Systems .....	9-14
9.4	Unit Cost of Treatment Technologies and BMPs.....	9-16
9.4.1	Quiescent Zones.....	9-16
9.4.1.1	Description of Technology or Practice .....	9-16
9.4.1.2	Design.....	9-17
9.4.1.3	Capital Costs.....	9-17
9.4.1.4	Operation and Maintenance Costs.....	9-19
9.4.2	Sedimentation Basins (Gravity Separation).....	9-19
9.4.2.1	Description of Technology or Practice .....	9-20
9.4.2.2	Design.....	9-21
9.4.2.3	Capital Costs: Flow-through Systems .....	9-22
9.4.2.4	Capital Costs: Recirculating Systems.....	9-24

9.4.2.5	Operation and Maintenance Costs: Flow-through and Recirculating Systems .....	9–24
9.4.3	Solids Control BMP Plan .....	9–25
9.4.3.1	Description of Technology or Practice .....	9–25
9.4.3.2	Capital Costs: All System Types .....	9–25
9.4.3.3	Operation and Maintenance Costs: All System Types .....	9–26
9.4.4	Compliance Monitoring.....	9–26
9.4.4.1	Flow-through Facilities.....	9–26
9.4.4.2	Recirculating Systems .....	9–27
9.4.4.3	Operation and Maintenance Costs: Recirculating Systems.....	9–27
9.4.5	Feed Management.....	9–27
9.4.5.1	Description of Technology or Practice .....	9–28
