

OSTI

<http://www.osti.gov>

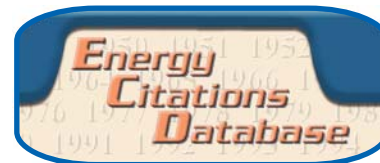

DOE Information Bridge

(www.osti.gov/bridge) Free, convenient, and quick access to more than 78,000 searchable full-text DOE R&D reports, bibliographic records and abstracts.

E-PRINT Network

(www.osti.gov/eprints) More than 10,000 e-print Web sites and databases; use E-PRINT Alerts for weekly updates.

Energy Citations Database

(www.osti.gov/energycitations) Bibliographic records of DOE documents from 1948 to the present, with links to electronic full text when available.

DOE R&D Accomplishments

(www.osti.gov/accomplishments) Outcomes of past DOE R&D which have had significant economic impact, improved people's lives, or been widely recognized as a remarkable advance in science.

DOE R&D Project Summaries

(www.osti.gov/rnd) Public access to more than 20,000 summaries of energy-related scientific projects performed since 1995 by DOE laboratories and other research facilities.

EnergyFiles

(www.osti.gov/energyfiles) Distributed subject-searching of over 500 databases and Web sites.

ScienceLab

(www.osti.gov/sciencelab) A portal of education resources for students, teachers and the public.

Federal R&D Project Summaries

(www.osti.gov/fedrnd) Cross-search 1.8 million R&D project summaries in databases at DOE, the National Institutes of Health, and the National Science Foundation.

These Web-based resources sponsored by the Department of Energy (DOE) Office of Scientific and Technical Information (OSTI) give researchers and the public access to scientific and technical information resulting from DOE's research and development (R&D) enterprise.
