NA = Not available.

Note: Totals may not equal sum of components due to independent rounding. Beginning with the Natural Gas Annual 2002, Federal offshore Gulf of Mexico production volumes are presented as a separate data series. Because Federal Gulf of Mexico production was previously included in production for the States of Alabama, Louisiana, and Texas, the change in presentation does not affect total U.S. production for prior years. As

in previous years, extraction loss volumes for the Gulf of Mexico Federal production are included in the total extraction loss volumes for the States of Alabama, Louisiana, and Texas.
