## NOTICE OF INTENT (NOI) FOR NPDES GENERAL PERMIT AK-57-0000 FOR SMALL PUBLICLY OWNED TREATMENT WORKS (POTW's) AND OTHER SMALL TREATMENT WORKS TREATING DOMESTIC SEWAGE TO SECONDARY STANDARDS AND DISCHARGING INTO FRESH WATER

<b>RESPONSIBLE PARTY</b> (Owner, Operator or Person responsible for overall management of the project):											
First Name:	Last Name:				Phone	Number:					
Title:											
Company Name:		Email	Address:								
Address:					·						
City, State, Zip:	p:										
FACILITY INFORMATION											
Facility Name:					lity Address:						
Population Served	by this facility:	y this facility:			ip						
OPERATOR IN	FORMATION OF	R ON-SITE CO	NTACT								
Name:	Title				Phon	e Number:					
PREVIOUS PERMITS OR AUTHORIZATIONS (if applicable)											
CHECK CATEGORY WHICH APPLIES TO THIS FACILITY											
Treatment plant (e.g. extended aeration, Fixed film e.t.c.). Indicate type (Category 1)											
Passive was	ive waste stabilization pond (non-aerated lagoon) as principle process. Indicate number of cells (Category 2)										
Mechanically aerated waste stabilization pond (aerated lagoon) as principle process. Indicate number of cells (Category 3)

**EFFLUENT TESTING INFORMATION.** Provide effluent testing data collected over the previous 12 months for the following parameters: pH (minimum, maximum), maximum and average flow rate, BOD<sub>5</sub>, TSS, fecal coliform bacteria, and total chlorine residual or the previous 12 instances of monitoring data collected if there has not been 12 months of data for the previous year..

REQUEST FOR MIXING ZONE AND EFFLUENT MODIFICATION FROM ADEC										
Do you wish to request for a mixing zone from ADEC?								☐ Yes		□ No
		MUST BE PROVIDED IF RI strating compliance with the								
Distance from river or lake bank to discharge or first port on diffuser:					Number of ports and spacing:					
Diameter of port or ports:			Length of diffuser:							
Water body tem low flow:	perature at time of		Depth of discharge or diffuser:							
Approximate width and depth of the receiving water body at low (3Q2) flow (for riv				or rive	rs only	/ <b>)</b> :				
Dimensions of lake/pond (for discharges to lakes or ponds only):										
USES OF REC	EIVING WATER AT	DISTANCE FROM DIFFU	USER:							
	USE					DISTANCE			<b>U</b> .	NITS
Supply for drinking water										
Supply for agriculture including irrigation & stock water										
Supply for aquaculture										
Supply for industrial use										
Contact recreation										
Secondary recreation										
Fish spawning										
Harvesting and consumption of raw fish, or other aquatic life										
Certification: Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete.
