

SATELLITE BROADCAST

U.S. Environmental Protection Agency

Proposals on the Review of the Ozone and Particulate Matter National Ambient Air Quality Standards

Date: December 9, 1996

Time: 1- 5 p.m., ET

Why is this an important broadcast for you to watch?

On November 29, 1996, the U.S. EPA will announce it's proposal on whether or not the national air quality standards for ozone and particulate matter. This broadcast will be one of the first opportunities for the U.S. EPA to explain the proposals in detail and answer questions from State and local officials and others.

Valuable Information

- Overview of proposal on standards and implementation
- Explanation of the standard review process
- Overview of health and welfare effects of concern
- Presentations by EPA national experts

Your Questions Answered

- Live Q & A session
- The rationale for EPA's proposal
- Update on the process to develop an implementation strategy
- How to get further information

Target Audience

- State and local air quality personnel
- Industries
- Environmental groups
- Public Information Officers
- Small Business Ombudsmen and Small Business Assistance Programs
- The public
