¹ Electricity-only and combined-heat-and-power (CHP) plants within the NAICS (North American Industry Classification System) 22 category whose primary business is to sell electricity, or electricity and heat, to the public.

² Sales to railroads are included in "Other."

E = Annual estimate based on eleven months of data. — = Not applicable. (s)=Less than 0.5 thousand barrels per day.

Notes: • All historical data are revised due to a change from "adjusted sales" to "sales" (unadjusted) data. Data in this table in the *Annual Energy Review 2002* (Table 5.13) were adjusted so that the totals for distillate fuel oil, residual fuel oil, and kerosene equaled the total product supplied for those fuels (see Table

5.11). Data in the current table are "sales" (unadjusted) data from Energy Information Administration (EIA), Form EIA-821, "Annual Fuel Oil and Kerosene Sales Report," and on-highway diesel data from the Federal Highway Administration. • Totals may not equal sum of components due to independent rounding.

Web Page: See http://www.eia.doe.gov/oil_gas/petroleum/info_glance/petroleum.html for related information.
