

# CONSOLIDATED LIST OF INCENTIVES

1. Less frequent inspections/ Offsite full compliance evaluations (A, D)
2. Reduced reporting frequency/ Reduced manpower for reporting (A, E)
3. Reduced recordkeeping/ Reduced manual recordkeeping (B, F)
4. Increased operating flexibility/ Increase production (A, F)

## **INCENTIVES (Continued)**

5. Creating opportunities for PAL (C)
6. Public awards/ Public Recognition/ Press releases (A, B, C, G)
7. Longer averaging times with better technologies/  
Balance emission standard, averaging time with monitoring time (A, D)
8. Reduce the stringency of the emission standard with increased monitoring (D)

## **INCENTIVES (Continued)**

9. Extend life of equipment (F)
10. Allow more exceedances before calling a violation (less opportunity for criminal enforcement) (A)
11. Reduced penalties for violation (B, D)
12. Substitute CEMS for parametric monitoring (D)
13. Raise the BAT (best available treatment) bar (E)

## **INCENTIVES (Continued)**

14. Better emissions data (F, G)
15. Reduced liability of facility (C)
16. Tax credit / incentives (B, E)
17. Lower costs, save time and money, easier methods (F, G)
18. Reduced fees/ Reduced title V fees (C, D, E)

## **INCENTIVES (Continued)**

19. Siting considerations (C)
20. Lessen frequency of stack testing (B, E)
21. Captures the available incremental reduction that the data reveals (G)
