Department of Health and
Human Services (DHHS)
HEALTH CARE FINANCING
ADMINISTRATION (HCFA)

Transmittal AB-01-84

Date: JUNE 4, 2001

CHANGE REQUEST 1708

SUBJECT: Correction to Second Update to the 2001 Medicare Physician Fee Schedule Database

This Program Memorandum (PM) incorporates all changes that were transmitted in PM AB-01-59, dated April 24, 2001, Change Request 1638, as well as some additions and corrections to Change Request 1638. **The additions and corrections that are in addition to the original 2nd Quarter Update (CR 1638) are redlined.**

The Division of Health Plan and Provider Data will make the updated file available to carriers/intermediaries on HCFA's Mainframe Telecommunications System, formerly the Network Data Mover (NDM), on June 08, 2001.

The file name for this correction to the Second Update to the 2001 Medicare Physician Fee Schedule Database for carriers is:

MU10.@BF12390.MFS2001.QTR3.C00000.V0608

The filename for the therapy supplemental file for intermediaries is:

MU10.@BF12390.MFS2001.SUPL.Q3.V0608.FI

The filename for the therapy abstract file is:

MU10.@BF12390.MFS2001.ABSRT.Q3.V0608.FI

In accordance with the Medicare Carriers Manual Part 3, 15902, the changes in this update must be implemented in early July after providing 30 days notice.

Unless otherwise stated in this transmittal, changes will be effective for claims with dates of service January 1, 2001, or later.

Carriers need not search their files to either retract payment for claims already paid or to retroactively pay claims. However, carriers should adjust claims brought to their attention.

Changes included in this update are as follows:

<u>CPT/ HCPCS</u>	<u>Revision</u>
A4570	Proc Stat = X
A4580	Proc Stat = X
A4590	Proc Stat = X

NOTE: HCPCS codes A4570, A4580, and A4590 were to be deleted on July 1, 2001, with a 90-day grace period. Due to the design of the majority of carriers claims processing systems, they are unable to apply a grace period "mid-year" without systems changes. In order to

HCFA-Pub. 60AB

effectuate our intended policy as related to the aforementioned services without systems changes we will do the following:

For dates of service July 1, 2001, through September 30, 2001, we will retain the current procedure status indicator of “X” for HCPCS codes A4570, A4580, and A4590. Effective October 1, via the Final Update to the 2001 Medicare Physician Fee Schedule, we will change the procedure status to an “I” for HCPCS codes A4570, A4580, and A4590. The status of “I” will make these services not valid for Medicare purposes and will not allow a grace period. This will accomplish the same result as would a systems change that would allow a grace period “mid-year”.

This note should be interpreted as notification to the provider community that effective October 1, 2001, HCPCS codes A4570, A4580, and A4590 will no longer be billable services.

This change in procedure status for HCPCS codes A4570, A4580, and A4590 overrides the information provided in Change Request 1641.

Casting Supply Codes

The following casting supply codes (Q4001 through Q4051) are being added to the HCPCS on July 1, 2001, and are effective for carrier claims with dates of service on or after July 1, 2001, and FI claims with dates of service on or after October 1, 2001, (see PM AB-01-60, dated April 24, 2001, Change Request 1641). These codes are all statutorily excluded from the Medicare Physician Fee Schedule. The payment indicators are identical for all services in the aforementioned code range. Thus, the payment indicators will only be listed for the first service (HCPCS code Q4001) in this range. These same indicators should apply to all codes in this range.

NOTE: The only thing that has changed between this Change Request and CR 1638 is the TOS = 'S'.
