
Program Memorandum Intermediaries/Carriers

Department of Health and
Human Services (DHHS)
CENTERS FOR MEDICARE AND
MEDICAID SERVICES (CMS)

Transmittal AB-02-149

Date: OCTOBER 25, 2002

CHANGE REQUEST 1729

SUBJECT: Update to the Mammography Quality Standard Act (MQSA) File Record Layout for the Food and Drug Administration (FDA) Certified Digital Mammography Centers

SCOPE:

This Program Memorandum (PM) implements the use of an additional indicator on the MQSA file to identify the FDA approved mammography facilities for digital mammography.

BACKGROUND:

Section 104 of the Benefits Improvement and Protection Act (BIPA) of 2000, entitled "Modernization of Screening Mammography Benefit," provided new payment methodologies for both diagnostic and screening mammograms that utilize digital technology. The new digital mammography codes have a higher payment rate. In order for Medicare to know whether the mammography facility is certified to perform digital mammography and, therefore, due a higher payment rate, the FDA will send an updated file via CMS Mainframe Telecommunications System (CMSTS), formerly Network Data Mover, on a weekly basis.

CMS and the FDA decided upon on a method to annotate the mammography file that the facility also has a digital certification. Currently on the MQSA file, there is a 0 (header-record), a 1 (film facility) and a 9 (trailer record). Effective April 1, 2003, the new file will show:

- Name of Facility,
- Certification number of the facility,
- Film certification obtained (Record-type =1) or digital certification obtained (Record-type = 2), and
- Effective and Expiration dates of each certification.

Some mammography facilities are certified to perform both film and digital mammography. In this case, the facility's name and FDA certification number will show up on this file twice. One line will indicate film certification with effective date/expiration date while the other line will indicate digital certification with effective date/expiration date. The facilities may not have the same effective date and expiration date for both film and digital certification.

POLICY:

Medicare pays for film mammography and digital mammography at different rates and pays for a service only if the provider or supplier is certified by the FDA to perform those types of mammogram for which payment is sought. If the FDA mammography file has an error, contact your Regional Office mammography coordinator. The coordinators will contact the FDA to research the error. The FDA file is transmitted weekly.

CMS Pub. 60AB

IMPLEMENTATION PROCEDURES:

In order to implement these procedures take the following steps:

- 1) The contractors must use the updated file to match the mammography certification number to a provider for validity to adjudicate claims.
 - 2) When a film mammography HCPCS code comes in on a claim, check for a “1” film indicator.
 - If a film mammography HCPCS code comes in on a claim and the facility is certified for film mammography, pay the claim.
 - If a film mammography HCPCS code comes in on a claim and the facility is certified for digital mammography only, return to provider (RTP).
 - If a film mammography HCPCS code comes in on a claim and there is no certification number on the claim, return to provider (RTP) (Carriers only).
 - 3) When a digital mammography HCPCS code comes in on a claim, check for “2” digital indicator.
 - If a digital mammography HCPCS code comes in on a claim and the facility is certified for digital mammography, pay the claim.
 - If a digital mammography HCPCS code comes in on a claim and the facility is certified for film mammography only, return to provider (RTP).
 - If a digital mammography HCPCS code comes in on a claim and there is no certification number on the claim, return to provider (RTP) (Carriers only).
- NOTE:** Refer to MCM §4601.6 and MIM §3660.19 and §3660.20 for a complete listing of mammography HCPCS codes.
- 4) Use Attachment A “Update of the MQSA File Record Layout” to update the record layout to accept digital and film certifications. A change has been made under Facility Record heading next to Record-type to include Value 1 or 2 to indicate whether facility is film certified and/or digital certified by FDA.
 - 5) Use Attachment B “Mammography File – Digital Facilities” to update your files for Digital approved facilities prior to implementation of this program memorandum which is in April 1, 2003. This attachment lists all facilities certified to perform digital mammographies to date. Contractors must use this file to match FDA certification numbers to the provider to determine whether the provider is certified to perform digital mammography.
 - 6) Common Working File (CWF) will no longer receive a mammography file for editing purposes.

PROVIDER EDUCATION:

Advise providers of this new policy in your next regularly scheduled bulletins and on your Web sites.

The *effective date* for this PM is: April 1, 2003.

The *implementation date* for this PM is: April 1, 2003.

These instructions should be implemented within your current operating budget.

This PM may be discarded after April 1, 2004.

If you have any questions concerning Carrier operations, contact Wendy Knarr through Maryland Relay (800) 735-2258 and then have the agent call (410) 786-0843 or Wknarr@cms.hhs.gov

If you have any questions concerning Fiscal Intermediary operations, contact Linda Gregory at (410) 786-6138 or Lgregory@cms.hhs.gov

If you have any questions concerning MQSA file layout and updates, contact Mike Deal at 410-786-1871 or Mdeal@cms.hhs.gov

Update of the MQSA File Record Layout

Below provides the record description for the Mammography Quality Standards Act (MQSA) file. Contractors must retrieve the following file by April 1, 2003:

CARRIER/INTERMEDIARY: P#MSS.#2675.MS201401(0)

The file contains three record types, a HEADER-RECORD, a FACILITY-RECORD, and a TRAILER-RECORD. The only change was an addition to the FACILITY-RECORD, line 1 whereas an “or 2” was added as an indicator for digital certification.

Record Description:

01 HEADER-RECORD.	
05 RECORD-TYPE	PIC 9 VALUE 0.
05 FDA-FILE-DATE	PIC 9(8).
01 FACILITY-RECORD.	
05 RECORD-TYPE	PIC 9 VALUE. 0,1,2,9
88 HEADER-RECORD	VALUE '0'
88 FILM-RECORD	VALUE '1'
88 DIGITAL-RECORD	VALUE '2'
88 TRAILER-RECORD	VALUE '9'
05 FACILITY-ID	PIC X(6).
05 EIN-SSN	PIC X(9).
05 NPI-NUMBER	PIC X(10).
