## *Skilled Nursing Facility Consolidated Billing and Preventive/Screening Services*

### Provider Types Affected

Skilled Nursing Facilities (SNFs), physicians, suppliers, and providers

### Provider Action Needed

This Special Edition is an informational article that describes SNF Consolidated Billing (CB) as it applies to preventive and screening services provided to SNF residents.

### Background

When the Skilled Nursing Facility (SNF) prospective payment system (PPS) was introduced in the Balanced Budget Act of 1997 (BBA, P.L. 105-33, Section 4432), it changed the way SNFs are paid, and the way SNFs must work with suppliers, physicians, and other practitioners. CB assigns to the SNF itself the Medicare billing responsibility for virtually all of the services that the SNF's residents receive during the course of a covered Part A stay. See Medlearn Matters article SE0431 for a detailed overview of SNF CB, including a section on services excluded from SNF CB. This article can be found at:

<http://www.cms.hhs.gov/medlearn/matters/mmarticles/2004/SE0431.pdf>

The BBA identified a list of services that are excluded from SNF CB. These services are primarily those provided by physicians and certain other types of medical practitioners, and they can be separately billed to Medicare Part B carriers directly by the outside entity that furnishes them to the SNF's resident (Social Security Act, Section 1888(e)(2)(A)(ii)). Since the BBA did not list preventive and screening services among the services identified for exclusion, these services are included within the scope of the CB provision.

However, reimbursement for covered preventive and screening services, such as vaccines and mammographies, is subject to special billing procedures. As discussed in the May 12, 1998 Federal Register (63 FR 26296), since preventive services (such as vaccinations) and screening services (such as screening mammographies) do not appear on the exclusion list, they are subject to CB. Accordingly, if an SNF resident receives, for example, a flu vaccine during a covered Part A stay, the SNF itself is responsible for billing Medicare for the vaccine, even if it is furnished to the resident by an outside entity.

Nevertheless, even though the CB requirement makes the SNF itself responsible for billing Medicare for a preventive or screening service furnished to its Part A resident, the SNF would not include the service on its

Part A bill, but would instead submit a separate bill for the service to Part B. This is because the Part A SNF benefit is limited to coverage of “diagnostic or therapeutic” services (i.e., services that are reasonable and necessary to diagnose or treat **a condition that has already manifested itself**). (See Sections 1861(h) following (7), 1861(b)(3), and 1862(a)(1) of the Social Security Act.)

Accordingly, the Part A SNF benefit does not encompass screening services (which serve to detect the presence of a condition while it is still in an early, asymptomatic stage) or preventive services (which serve to ward off the occurrence of a condition altogether). Such services are always covered under Part B, even when furnished to a beneficiary during the course of a covered Part A SNF stay. Under Section 1888(e)(9) of the Social Security Act, payment for an SNF’s Part B services is made in accordance with the applicable fee schedule for the type of service being billed.
