

**Other Work Incentive Participants**

Table 16.—Percentage distribution of SSI disabled recipients benefiting from specified work incentive provisions, by diagnosis, March 2000

Diagnosis	Plans for achieving self-support (PASS) <sup>1</sup>	Impairment-related work expenses (IRWE)	Blind work expenses (BWE)
Total number .....	1,179	9,533	3,970
Total percent <sup>2</sup> .....	100.0	100.0	100.0
Infectious and parasitic diseases .....	1.8	.7	.4
Neoplasms .....	1.1	.4	.3
Endocrine, nutritional, and metabolic .....	3.3	.5	.9
Mental disorders:			
Schizophrenia .....	11.2	4.4	.0
Other psychiatric .....	30.4	8.5	.3
Mental retardation .....	4.4	65.9	2.4
Diseases of the—			
Nervous system and sense organs <sup>3</sup> .....	21.0	12.4	92.2
Circulatory system .....	2.1	.9	.9
Respiratory system .....	.8	.2	.0
Digestive system .....	.7	.1	.0
Genitourinary system .....	1.6	.3	.1
Musculoskeletal system and connective tissues .....	7.4	.9	.1
Congenital anomalies .....	.5	1.7	1.8
Injury and poisoning .....	13.1	2.3	.3
Other .....	.6	.5	.2

<sup>1</sup> Includes 132 persons with a PASS that excludes only resources.

<sup>2</sup> Includes only recipients whose diagnosis information is specifically identified on the source files.

<sup>3</sup> Most disabled recipients classified as blind are included in this category. A few blind recipients with a primary impairment other than diseases of the eye are coded in other categories. Also, a few recipients are classified with diseases of the eye, but their impairment does not meet the definition of blindness.
