

Table 12.—Number and percentage distribution of children receiving federally administered SSI payments, by number of parents in the household, June 2000 ¹

Parents in household	Number	Percent
Total.....	846,670	100.0
No parent(s) ²	114,980	13.6
One parent.....	524,190	61.9
Two parents.....	207,500	24.5

¹ The total of children with one or two parents in the household differs slightly from the number of children living in a parent's household in table 7. This is because table 7 represents only households where a parent is the head of the household, where this table includes children living with parents who are not head of the household.

² Children with no parent(s) in the household reside independently, with other relatives or non-relatives, or in institutions or foster care situations. Deeming does not apply in these situations.
