CHANGE REQUEST 2201

SUBJECT: Installation of Version 27.3 of the Provider Statistical and Reimbursement (PS&R) Report

The Provider Statistical and Reimbursement (PS&R) version 27.3 was available for release to fiscal intermediaries (FIs) on May 21, 2002. The FI's are expected to install the software for PS&R release Version 27.3 into their production environments no later than July 1, 2002. For FI's which process the PS&Rs more frequently than monthly, the release needs to be installed prior to processing any claims with service dates on or after June 1, 2002, and may therefore necessitate installation prior to July 1. This could possibly be as early as June 1 for daily processors.

The change updates Version 27.3 to reflect enhancements made to the MSP hook, and modules MD400500, MD 400600 and MD 420501.

The *effective date* for this PM is June 1, 2002.

The *implementation date* for this PM is July 1, 2002 (could be as early as June 1, 2002 for daily processors).

The instructions contained in this PM should be implemented within your current operating budget.

This PM may be discarded after June 30, 2003.
