**BUDREC**

The Budget Reconciliation Report (BUDREC) breaks down the financial plans you entered by object class per account number.

To order the BUDREC report, type BUDREC at the cursor on your main menu and enter your responses to the prompts appearing in the example screen to the left. Notice, in the example, if you do not know the account number and/or the object class, you can enter ALL to get a display of all account numbers and all object classes.

This report displays the document number, posted and approved dates and amounts entered for each plan.

**FPSTATUS**

The Financial Plan Status Report (FPSTATUS) provides the Budget Control Office with an outline displaying the status of submitted financial plans.

After entering the FPSTATUS option, the system will prompt you for the parameters of the report you wish to create.

Notice the system will first ask you for your document number. If you do not know the number or want more than one document, just ask for ALL and give the system the date parameters for the report. (See the example screen to the left.)

The report identifies the status of the plan by document number, account number and posted date. The status column will display one of several messages:

- Pending Approval: No action has been taken by the budget analyst.
- Approved: The document has been approved by the budget analyst.
- Disapproved: The financial plan was disapproved and the reason is indicated.
- Suspense: The plan has been entered by the Budget Control Office but not posted yet.
- Cancel: The document was canceled by the Budget Control Office.
