	Summary of Changes					
1						

OMB will issue revised formats for the SF 132 and SF 133 that will be effective *October 1*, 2005 for fiscal year 2006 in the spring of 2005 prior to the issuance of the 2005 revision to OMB Circular No. A–11.

130.1 What is the purpose of the SF 133 and how is it organized?

The SF 133 Report on Budget Execution and Budgetary Resources:

- Fulfills the requirement in <u>31 U.S.C. 1511–1514</u> that the President review Federal expenditures at least four times a year.
- Allows the monitoring of the status of funds that were apportioned on the SF 132 Apportionment and Reapportionment Schedule and funds that were not apportioned.
- Provides a consistent presentation of information across programs within each agency, and across agencies, which helps program, budget, and accounting staffs to communicate.
- Provides historical reference that can be used to help prepare the President's Budget, program operating plans, and spend-out rate estimates.
- Provides a basis to determine obligation patterns when programs are required to operate under a continuing resolution.
- Ties an agency's financial statements to their budget execution. The compilation of an agency's SF 133s should generally agree with an agency's Statement of Budgetary Resources. The few differences are explained in section 130.16(e).

The SF 133 consists of the following sections:

Section	shows whether	and is described in:
Budgetary Resources	budgetary resources are available for obligation or not	Appendix F, Budgetary Resources
Status of Budgetary Resources	budgetary resources have been obligated or not	Appendix F, Status of Budgetary Resources
Relation of Obligations to Outlays	obligated amounts have been outlayed or not	Appendix F, Relation of Obligations to Outlays

130.2 What are the general requirements for submitting SF 133s?

(a) What accounts should I report?

Unless otherwise specified by OMB, all Executive Branch agencies must electronically submit SF 133 information each quarter for each open Treasury appropriation fund symbol (TAFS).

Do submit SF 133 reports for:

- Unexpired (i.e. current) TAFSs;
- Expired TAFSs (including TAFSs about to be closed and annual TAFSs that are older than five years that have legally authorized extended disbursing authority);
- Both apportioned TAFSs and those that have not been apportioned; and

• Credit program, financing, and liquidating TAFSs (see section <u>185</u> for detailed information).

Do not submit SF 133 reports for:

- Deposit fund accounts;
- Receipt accounts (including clearing accounts and suspense accounts); and
- Closed TAFSs (i.e. TAFSs with canceled balances) unless required by OMB.

(b) What level of detail should I report?

Submit SF 133s for each expired and unexpired TAFS. Report amounts as cumulative from the beginning of the fiscal year to the end of the period.

Because one of the main purposes of the SF 133 is to monitor the use of the funds planned on the SF 132 Apportionment, in general, your SF 133 should contain the same level of detail as your SF 132 Apportionment.

(c) How do I submit an SF 133?

You must submit SF 133 budget execution information electronically through the Treasury's Federal Agencies' Centralized Trial-balance System II (FACTS II). This facilitates analysis and ensures consistent presentation of budget execution information so that Government-wide totals are meaningful. Electronic submission of the information also allows the SF 133 to be presented on the internet at http://www.whitehouse.gov/omb/reports/ to facilitate communication among accounting, budget, and audit staff.

You can find out more about FACTS II at http://www.fms.treas.gov/factsii/index.html or by calling the Budget Reports Division at (202) 874–9880. FACTS II does not replace the SF 133, but rather replaces previous systems used to collect SF 133 information.

(d) Who can approve an SF 133 submission?

SF 133 information submitted for each independent agency, departmental bureau, or similar subdivision will be certified by an officer duly authorized by the head of the agency to be responsible for the integrity of the submission.

Typically, one group within your agency (for example, the accounting office) reports amounts to Treasury while another group (for example, the budget office) prepares budget schedules (see section <u>82.15</u>). Before the accounting office submits its actuals to Treasury in FACTS II, you must ensure that the amounts you are going to report are conceptually and numerically consistent with the amounts that your budget office is going to report in MAX A-11. In addition, GAO requires your auditors to determine whether controls exist to ensure that the amounts in your systems and the amounts submitted via FACTS II agree. See GAO-02-126G "Guide for Auditing the Statement of Budgetary Resources" (see section <u>82.15</u>).

(e) When do I submit an SF 133?

You must submit SF 133 budget execution information at the end of each quarter. You can find out the reporting deadlines at http://www.fms.treas.gov/factsii/index.html or by calling the Budget Reports Division at (202) 874–9880. The FACTS II window opens approximately two weeks after the close of each quarter. You must revise any material errors in previously reported information through FACTS II at this time as well. You also must be able to produce a monthly SF 133 when required by OMB.

(f) What other budget execution reporting requirements must I meet?

You must submit a paper copy of the SF 133 for each quarter directly to the Committee on Appropriations, House of Representatives. To the extent practicable, you should submit all the reports for each independent agency, departmental bureau, or similar subdivision together and numbered consecutively. You may use printouts of SF 133s from FACTS II. You may also encourage or make arrangements with the Committee on Appropriations, House of Representatives to electronically retrieve the information on the internet at http://www.whitehouse.gov/omb/reports/.

You should periodically compare the estimates of anticipated amounts (contained on SF 132 lines 1E, 2C, 3C, 3D, 4B, 6F, and SF 133 line 9A3) to actual results to improve future estimates.

130.3 How do I report budgetary resources?

To use the entries in this section of the SF 133, see <u>Appendix F, budgetary resources</u>. The Appendix F includes specific instructions for unexpired TAFSs, expired TAFSs, and expired TAFSs being closed. "Expired TAFSs being closed" refers to the final September 30 SF 133 that is submitted for a TAFS (e.g. the September 30 report for an annual TAFS that has been expired for five years).

130.4 How do I report the status of budgetary resources?

To use the entries in this section of the SF 133, see Appendix F, status of budgetary resources.

130.5 How do I report obligations, and how are obligations shown on SF 133 reports?

Agencies will provide descriptive stubs for both Category A and Category B obligations. For Category B obligations that do not use program reporting categories, agencies will continue to provide a stub that describes the Category B project. For both Category A and Category B obligations that use program reporting categories, agencies will provide a stub that describes the reporting category.

OMB sends a list of program reporting category stubs, as well as Category B project stubs, from approved apportionments to the Department of the Treasury's Financial Management Service (FMS) for use in FACTS II budget execution reporting. See sections 121.2, 121.3, and 121.4 for additional information. When reporting your obligations, FACTS II will present you with a list of program reporting categories and Category B projects to report upon; these Category B projects and reporting categories are taken from OMB's automated apportionment system.

OMB sends this information to FMS so OMB can use automated tools to align program report categories and Category B projects on the approved apportionments to the SF 133 reports. Prior to this change, OMB was unable to create automated reports that compare apportioned amounts (from the SF 132) and obligations (from the SF 133) by Category B project. The reason is that the SF 132s and SF 133s used different names for the Category B projects, so it was impossible to use a computer program to line up the projects by name.

When reporting your obligations to FACTS II, you may add new Category B project and\or Categories A or B program report category stubs. Here are some reasons why you may need to add new Category B projects and\or Categories A or B program reporting categories:

First, you must report all obligations that took place during the reporting period. You must add Category B projects and\or Categories A or B program reporting categories if FACTS II does not provide you with a comprehensive list of Categories A or B program reporting categories and\or Category B projects to report all your obligations.

Second, if you are aware that OMB has apportioned funds using Category B projects that are not presented in FACTS II, then you should add the missing Category B projects names, and report your obligations for those projects.

Third, if you are aware that OMB has used Category A or B program reporting categories that are not presented in FACTS II, then you should add the missing program reporting category names, and report our obligations for those categories.

The obligations submitted to FACTS II are presented in two ways on the SF 133 reports produced by FACTS II and OMB.

First, obligations are summarized into the following categories: (1) Direct, Category A; (2) Direct, All Category B projects; (3) Direct, exempt from apportionment; (4) Reimbursable, Category A; (5) Reimbursable, All Category B projects; and, (6) Reimbursable, exempt from apportionment.

Second, the SF 133s show obligations by Apportionment Category (A or B), and then by Category B project (for Category B, only) or program reporting category (Category A and Category B).

Third, the SF 133s show funds apportioned for future fiscal years on SF 133 line 9A2.

Exhibit 130C shows how the obligations are reported for one TAFS.

130.6 How do I report the relation of obligations to outlays?

To use the entries in this section of the SF 133, see <u>Appendix F</u>, relation of obligations to outlays. Lines 12 through 15 are required for all quarters.

130.7 What should I report during the expired phase?

Budget execution reporting procedures. Obligated and unobligated balances must be reported on the SF 133 for each expired TAFS that has not been canceled.

September 30 SF 133 reports for annual TAFSs and the last year of multi-year TAFSs that expire at midnight on September 30 should report these TAFSs as unexpired.

Expired unobligated balances.

At the beginning of the first expired year, place the expired unobligated balance on line 2A, "Unobligated balance: Brought forward October 1." This amount should equal the sum of the lines in the unobligated balances available section of the final report of budget execution for the unexpired phase, i.e., the sum of lines 9A, 9B and 9C, "Unobligated balance available." These unobligated balances are now expired budgetary resources. They are available for obligation only for valid upward adjustments of obligations that were properly incurred against the TAFS during the unexpired phase.

Since the expired resources are no longer available for new obligations, place the amounts not used for valid adjustments on line 10C, "Unobligated balance not available, other." In each succeeding expired year, the amount on line 2A, "Unobligated balance brought forward October 1," should be the same as the amount on line 10C, "Unobligated balance not available, other," of the final report of budget execution for the prior year.

130.8 How do I report adjustments to expired TAFSs?

Downward adjustments. Place downward adjustments of unpaid obligations previously incurred on line 4A, "Recoveries of prior year obligations, actual." The amount should be included as a positive number because it increases the expired resources available only for future adjustments. Downward adjustments do not include previously paid obligations which require a refund. These refunds will be recorded on line 3A, "Spending authority from offsetting collections, earned," when received.

Upward adjustments. Place upward adjustments of obligations previously incurred on line 8, "Obligations incurred." Upward adjustments of obligations reduce unobligated balances. Subtract upward adjustments from the expired unobligated balances on line 10C, "Unobligated balance not available, other."

The amount should represent the upward adjustments made during the fiscal year for which the report is submitted. Upward adjustments made during previous fiscal years should not be included because the amounts on line 10C, "Unobligated balance not available, other," have already been adjusted downward.

Upward adjustments are limited in at least two ways:

- Upward adjustments are limited by the amount available for adjustments on line 10C, "Unobligated balance not available, other," of the expired TAFS.
- No new obligations may be shown in the expired TAFS columns. Only upward adjustments of
 obligations that were incurred in the year in which the amount was available for obligation are
 valid, i.e., recording obligations that were incurred previously but reported in a different amount or
 erroneously not reported.

Obligation adjustments for contract changes. Upward adjustments to obligations in expired TAFSs, caused by "contract changes" that exceed certain cumulative thresholds, are subject to additional reporting and approval requirements as shown in the following table. A "contract change" means an order relating to an existing contract under which a contractor is required to perform additional work. A contract change does not include adjustments related to an escalation clause.

For the Department of Defense, obligational increases for contract changes are cumulative at the program, project, and activity level. For civilian agencies, such increases are cumulative at the appropriation level.

If the contract change will cause cumulative obligational increases to an appropriation to exceed	Then the agency head
\$4 million during a fiscal year	(or a designated officer in his immediate office) must approve the contract change.
\$25 million during a fiscal year	must report the contract change in writing to the appropriate authorizing committees in Congress and to the House and Senate Committees on Appropriations <i>before</i> the obligation is made. Include a description of the legal basis and policy reasons for the proposed obligation. Do <i>not</i> make or record the obligation in your accounting records until 30 days after submitting the report.

130.9 What must I do when I have extended disbursement authority?

The length of the expired phase of TAFSs may only be changed by law. You must prepare budget execution reports in accordance with Appendix F. Also, you must report such authority to Treasury's Financial Management Service to prevent premature, automatic cancellation of the TAFS. For further guidance, you should consult the Treasury Financial Manual.

Normally, payment of canceled balances will not be eligible for funding from Treasury's general claims fund.

130.10 How do I report expired TAFSs that are being closed?

Expired obligated and unobligated balances must be reported as canceled on the final, September 30 SF 133 before you close the TAFS. Once an amount is reported as canceled, it should not be reported again. Note: Technically, TAFSs are "closed," while appropriations and balances are "canceled."

Cancellations of unobligated balances.

On the final, September 30 SF 133 before a TAFS will be closed, you must present all unobligated balances as canceled, i.e. as a negative (–) on line 6A, "Permanently not available, cancellations of expired and no-year TAFSs."

On all SF 133s, other than the final September 30 SF 133 before a TAFS will be closed, you should show recoveries of prior year obligations on line 4A, "Recoveries of prior year obligations, actual," as an expired resource. You should add any part of a recovery that is not used to adjust obligations to the expired unobligated balance shown on line 10C, "Unobligated balance not available, other."

Cancellations of obligated balances.

When a TAFS is required to be canceled, you must present any remaining obligated balance as canceled by doing the following:

- Include it as a cancellation (a positive number) on line 4A, "Recoveries of prior year obligations, actual."
- Include it as a writeoff (a negative number) on line 6A, "Permanently not available, cancellations of expired and no-year accounts."
- Reduce the obligated balance, line 14A, "Obligated balance, net, end of year period, accounts receivable," to zero.

130.11 What disbursements can I make during the canceled phase?

Legitimately incurred obligations that have not been disbursed (i.e. paid) at the time a TAFS is canceled cannot be disbursed from the canceled obligated or unobligated balances of the canceled TAFS.

After a TAFS is canceled, any obligations or adjustments to obligations that would have been properly chargeable to that TAFS may be disbursed from an unexpired TAFS that is available for obligation for the same purpose as the closed TAFS, provided that:

- The obligation or adjustment is not already chargeable to another unexpired TAFS.
- Payment of obligations against canceled TAFSs from unexpired TAFSs are limited to one percent
 of the appropriation in the unexpired TAFS. No more than one percent of an unexpired TAFS
 may be used to pay any combination of canceled obligations. This is a single, cumulative limit. It
 applies to one percent of the annual appropriation (not total budgetary resources) for annual
 TAFSs and to unexpired appropriations for multi-year TAFSs.

For example, assume there is a multi-year TAFS with an appropriation of \$10 million that covers fiscal year 1997 through 1999 that was enacted in fiscal year 1997. In fiscal year 1997, the one percent limitation is equal to \$100,000. At the end of fiscal year 1997, \$90,000 was used. In fiscal year 1998, the unused, unexpired portion (\$10,000) of the limitation is available for upward adjustment and disbursement of an obligation from a canceled predecessor TAFS. See section 120.20.

- Antideficiency Act provisions continue to apply to canceled TAFSs. The authority to pay obligations against closed TAFSs from one percent of unexpired TAFSs cannot be used to exceed the original appropriation.
- When you cancel obligations under the provisions of Public Law 101–510 (31 U.S.C. 1551–1557), a tracking process should be maintained. You must maintain proper U.S. Standard General Ledger (USSGL) controls for obligations pertaining to canceled appropriations to prevent overpayment. The Treasury's Financial Management Service provides USSGL accounting instructions. See http://www.fms.treas.gov/ussgl for further information.

130.12 How do I submit non-standard reports?

You must submit additional *monthly* budget execution reports when required by OMB. Submit these directly to your OMB representative. Use the SF 133 format and lines described in <u>Appendix F</u>. Provide a separate column of information for each unexpired and expired TAFS. The columns should be formatted in the following order: unexpired, expired, and total. Report amounts in whole dollars. The submission of a monthly report does not relieve you of providing an electronic submission through FACTS II each quarter.

OMB's policy is to use existing agency internal reports to the greatest extent feasible to support required reports. When existing agency internal reports do not include the information necessary to provide complete information on the progress and status of programs, projects, or activities, supporting information may be required by OMB.

See section <u>20</u> on definitions, concepts, and terminology for additional guidance related to preparation of the SF 133.

130.13 How do I report lower levels of detail?

You can submit lower levels of detail on the SF 133 in a variety of ways as follows:

Method	Description
Category B	If your SF 132 apportions funds on line 8B "Category B" at a certain level, then you must provide the same level of detail on the SF 133.

Method	Description
Treasury Sub-account	You may need to report certain SF 133s by Treasury sub-account. OMB and you may decide that a Treasury sub-account be established to identify a certain level of detail not only on the SF 133 but also on other reports submitted to the Treasury.
	The establishment of a Treasury sub-account for an account may affect Treasury reporting requirements (such as the SF 224 Statement of Transactions).
Footnotes	For information that is integral to understanding the content of the SF 133, but cannot be reported in one of the more standardized methods described above, you may footnote any amount reported on the SF 133. If your OMB representative requires a footnote, then it must be provided.

Consult with your OMB representative to determine the best method for your situation.

130.14 How do I submit an SF 133 for allocation accounts?

The parent agency must ensure that a separate SF 133 is submitted for each allocation transfer account through FACTS II. When allocation transfers are made from a parent account to allocation accounts, then an SF 133 will be submitted for each allocation account to report its activities. The parent agency will determine who will submit the information through FACTS II and how. Regardless of who submits the information through FACTS II, the activity of both the parent account and the allocation accounts will be reported on the parent agency's Statement of Budgetary Resources.

The parent agency may choose to: (a) gather information from all of the agencies that have allocation accounts and enter the information into FACTS II, or (b) require each agency with an allocation account to enter information into FACTS II and provide a copy to the parent agency.

Agencies reporting these allocation accounts will furnish information to the other agency or agencies involved in the allocation in a timely manner. Receiving agencies will submit the information required to the parent agency no later than 15 calendar days following the end of the reporting period.

130.15 How do I submit an SF 133 for credit TAFSs?

You should submit SF 133s for credit TAFSs at the TAFS level during quarters one through three, but at the cohort level in the fourth quarter. To determine the SF 133 aggregation of credit TAFS reporting that is required for your agency, consult your OMB representative. For additional instructions for preparing the SF 133 for credit programs, see section 185.

130.16 How do I ensure that my actuals are consistent?

Amounts reported on the fourth quarter SF 133 must be consistent with information reported to Treasury as part of year-end closing procedures and must be based on actual accounting information pursuant to 31 U.S.C. 3512. Actuals submitted to OMB for inclusion in the President's annual budget, which is submitted to the Congress, should agree with those submitted to Treasury and those submitted on the fourth quarter SF 133. If one group within your agency (for example, accounting) reports amounts to Treasury while another group (for example, the budget office) prepares budget schedules, then you must take action to ensure that the amounts reported are conceptually and numerically consistent. It may be advisable to allow the budget office to review your SF 133 information before it is submitted.

- (a) What reports of actuals should generally be the same?
 - September 30 SF 133 Report on Budget Execution and Budgetary Resources.
 - Statement of Budgetary Resources (SBR) (if required).
 - Budget Program and Financing Schedule (actuals column).
 - Treasury Combined Statement.
 - FMS 2108 Year-end Closing Statement (used to generate Treasury Combined Statement).
 - SF 224 Statement of Transactions (used to generate Treasury Combined Statement).
 - Your agency's accounting system.
- (b) What guidance is available to help me ensure that my actuals are reported consistently?
 - Exhibit 130K Crosswalk from SF 133 to the Budget Program and Financing schedule.
 - Exhibit 130M Relationship between Selected SF 133 and Budget Program and Financing Schedule lines.
 - section 82.15
 - Treasury Financial Manual U.S. Government Standard General Ledger Supplement, which contains crosswalks from the USSGL to the SF 133/SBR, FMS 2108, and Program and Financing Schedule. It is available at http://www.fms.treas.gov/ussgl.
- (c) What differences should I expect between the September 30 SF 133 and the Budget Appendix?
 - The SF 133 is displayed at the TAFS level, while the *Appendix* presents consolidated information covering all TAFSs (annual, multiple-year, and no-year) with the same account title. Also, an account in the *Appendix* may contain multiple TAFSs with different titles.
 - OMB Circular No. A–11 requires that allocation transfer accounts be consolidated and reported by the parent account for budget formulation purposes. OMB Circular No. A–11 requires that allocation accounts be reported separately for budget execution purposes (see section 130.14). The sum of the information on all the SF 133s with the same account title should be the same as the information required for the *Appendix*.
 - As the crosswalk from SF 133 to the Budget Program and Financing schedule (<u>Exhibit 130K</u>) shows, not all of the expired budgetary resources shown on the SF 133 are shown in the Budget Program and Financing schedule.
 - The SF 133 is reported in dollars, while the Budget Program and Financing schedule is in millions
 of dollars.
- (d) What differences should I expect among the September 30 SF 133, the Budget Appendix, and Treasury Combined Statement?
 - For trust or special funds where budget authority is limited by law, unobligated balances at the end of the fiscal year reported in the Treasury Combined Statement (column 6) may not agree with the unobligated balances reported on the SF 133 (lines 9/10) and the actual column of the Budget Program and Financing Schedule. The difference in the two amounts will represent the total end of year balance on the *Appendix*'s schedule on special and trust fund receipts (Schedule N).

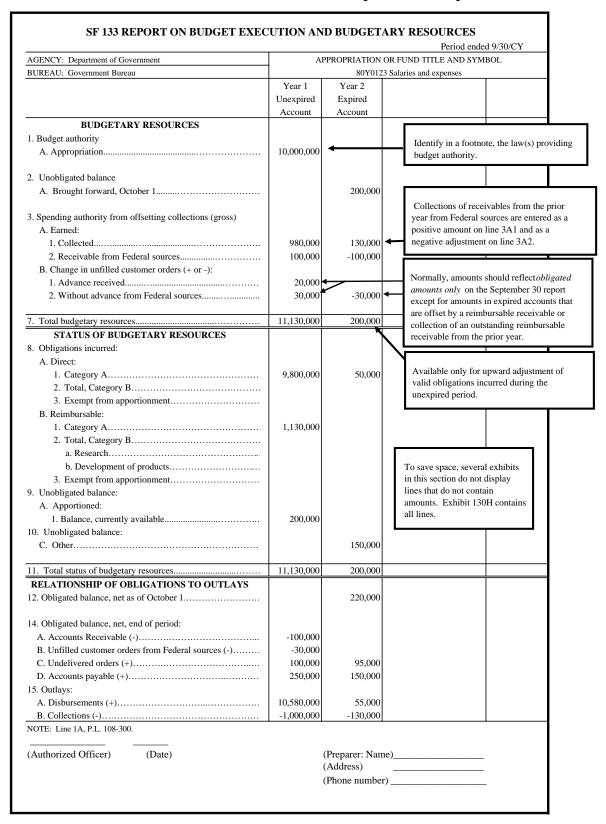

- (e) What differences should I expect between the September 30 SF 133 and the Statement of Budgetary Resources?
 - The SF 133 is displayed at the TAFS level, while the Statement of Budgetary Resources is displayed at the agency level. The Statement of Budgetary Resources is displayed as a principal statement for the agency as a whole, and must be displayed as required supplementary information for major TAFSs.
 - The SF 133 displays lines with zero dollars associated with them, while the Statement of Budgetary Resources does not display lines with zero dollars associated with them.
 - The Statement of Budgetary Resources includes a separate column for credit financing TAFSs because they are non-budgetary.
 - The Statement of Budgetary Resources includes separate lines for offsetting receipts and net outlays in order to derive the net outlays for the agency.

Annual Account--September 30 Report

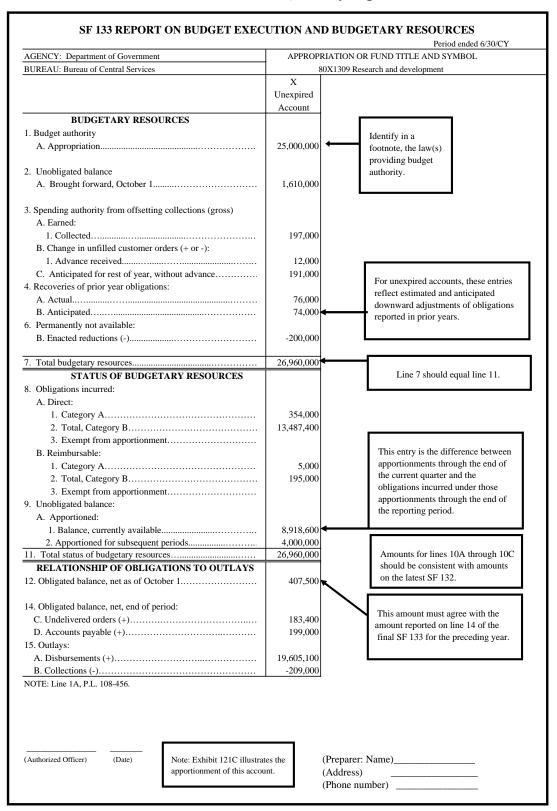

To save space, several exhibits in this section do not display lines that do not contain amounts. Exhibit 130H contains all lines.

SF 133 Outlay Formula

Outlays = Lines 8 - $(3A+3B+3E+4A) + 12 \pm 13 - (-14A-14B+14C+14D)$

Step 1: Take the total amount on line 8Obligations Incurred		19,656,000
Step 2: Subtract the sum of the following lines:		
Spending authority from offsetting collections (gross)		
Line 3A1Collected	197,000	
Line 3A2Receivable from Federal sources.	0	
Line 3B1Advance Received.	12,000	
Line 3B2Without advance from Federal sources	0	
Line 3E1Collected	0	
Line 3E2Anticipated (receivables only)	0	
Recoveries of prior year obligations		
Line 4AActual	76,000	
Sum	285,000	-285,000
Step 3: Add the amount on line 12Obligated balance, net as of October 1	407,500	407,500
Step 4: Add (if positive) or subtract (if negative)		
the amount on line 13Obligated balance, transferred, net (+ or -)	0	0
Step 5: Subtract the sum of the following lines: Obligated balance, net, end of period		
Line 14AAccounts receivable(-)	0	
Line 14BUnfilled customer orders from Federal sources(-)	0	
Line 14CUndelivered Orders (+)	183,400	
Line 14DAccounts payable (+).	199,000	
Sum	382,400	-382,400
Outlays:		
Line 15ADisbursements (+)	19,605,100	
Line 15BCollections (-)	-209,000	
	19,396,100	

Note: These amounts come from Exhibit 130C
