FORM LETTER DSL-1046 - FINAL NOTICE OF CANCELLATION OF REGISTRATION

United States Department of State
Washington, D.C. 20520

Dear Visa Applicant:

This office previously notified you that as of _____ your registration for an immigrant visa was canceled, and any petition approved on your behalf was also canceled. We informed you that your application might be reinstated if, within one year, you could establish that your failure to pursue your immigrant visa application was due to circumstances beyond your control.

Since you have failed to do so, the record of your registration has been destroyed and any petition approved in your behalf has been returned to the Immigration and Naturalization Service; any Department of Labor certification has been returned to your prospective employer; and any personal documents which were in your file at this office are enclosed herewith.

Sincerely,

LETTER
