Epidemiology and Prevention of Vaccine-Preventable Diseases

Presented by: The Centers for Disease Control and Prevention • California Department of Health Services, Immunization Branch
Sacramento County, Health and Human Services • County of Los Angeles, Department of Health Services • Public Health Foundation, Trust Fund 910

Epidemiology and Prevention of Vaccine-Preventable Diseases

A live, two-day course with the latest information for providers

Sacramento, CA
November 15-16, 2004

Torrance, CA
November 18-19, 2004

This live course is designed to provide updates on schedules, contraindications, standard immunization practices, vaccine-preventable diseases, and vaccine management and safety.

Goal:

To provide the most current information available in the constantly changing field of immunization.

Objectives:

At the end of the series, participants will be able to:

- Describe the difference between active and passive immunity.
- List two characteristics of live attenuated vaccines.
- List two characteristics of inactivated vaccines.

For each vaccine-preventable disease: (pertussis, *haemophilus influenzae* type b, influenza, measles, rubella, varicella, pneumococcal, polio, hepatitis B, hepatitis A, smallpox, meningococcal disease)

- Describe the disease, including the causative agent.
- List the groups at highest risk.
- Identify those for whom routine immunization is recommended.
- Describe characteristics of the vaccine used to prevent each disease. (Characteristics may include: schedule, contraindications, and/or adverse reactions).
- Discuss current immunization issues.

What You Will Receive For Your Registration Fee

Participants will receive the course textbook, *Epidemiology and Prevention of Vaccine Preventable Diseases*, and copies of

- *General Recommendations on Immunization*
- *Standards for Pediatric Immunization Practices*
- *Guide to Contraindications to Childhood Vaccinations*

Continuing Education Credit

Continuing education credits will be offered for various professions based on 15 hours of instruction. Participants must attend all sessions and complete an online course evaluation to receive continuing education credits.
