

Sector Notebooks

Learn about the major pollution issues associated with specific industry sectors through the Sector Notebooks.

What are the Sector Notebooks?

The Sector Notebook series is a unique set of profiles containing a wealth of sector-specific environmental information. Unlike many resource materials, which are organized by air, water, and land pollutants, the Notebooks provide a holistic, "whole facility," approach by integrating manufacturing process, applicable regulations, and other relevant environmental information. Each Notebook includes:

- Overview of the industry, including size, geographic distribution, organizational structure, products, economic trends, financial status.
- Description of manufacturing processes, including inputs of raw materials and pollution outputs.
- Summary of chemical releases to the environment.
- Summary of applicable federal statutes and regulations.
- Compliance and enforcement history.
- Review of major legal actions.
- Pollution prevention opportunities.
- Government and industry initiatives for compliance assurance.
- Resource materials and contacts.

Why did EPA develop the Notebooks?

The Sector Notebooks were developed to provide staff and managers with a consolidated source of compliance-related information for specific industry sectors. The Sector Notebook series is a highly regarded resource for a wide range of users, including government agencies, facility managers, researchers, educators, and environmental professionals. Each Notebook helps readers:

- Design comprehensive, common sense environmental protection measures for specific industries.
- Build a foundation for developing holistic solutions to environmental problems.
- Perform research on an industry and its environmental regulations.
- Understand compliance issues.
- Develop industry-specific training sessions and programs.

- Determine probable cause for a lawsuit, citation, or penalty.
- Create and improve innovative pollution prevention programs.

Who Should Use the Notebooks?

- Community & environmental advocates
- Compliance assistance providers
- Compliance inspectors and auditors
- Educators
- Engineers
- Public health professionals
- Foreign governments
- International agencies
- Legal professionals
- Librarians
- Regulators
- Environmental managers
- Small-business technical assistance providers
- Waste facility managers (water, solid waste)
- Members of the public with an interest in an industry

How Do I Order a Notebook?

Download free electronic (pdf) copies at <www.epa.gov/compliance/resources/publications/assistance/sectors/notebooks/index.html>.

Order hard copies for a fee of between \$6 and \$25, depending on length, through the Government Printing Office Web site at <<http://bookstore.gpo.gov>>, or by calling 202 512-1800. Be sure to search using "sector notebook" or the exact title of the document.

Federal, state, tribal and local government employees and libraries can order free printed copies of any Notebook through EPA's National Service Center for Environmental Publications at <www.epa.gov/ncepihom> or by phone at 800 490-9198. When ordering, be ready with the exact title (Profile of the xxxx Industry) or the EPA publication number.

Where Do I Get More Information?

For latest editions, staff contacts and free downloads, visit the Notebook Web site at <www.epa.gov/compliance/resources/publications/assistance/sectors/notebooks/index.html> or contact the Sector Notebook Project Coordinator, Office of Compliance, Phone: 202 564-2310, Fax: 202 564-0009.
