OMB Clearance (Pending, September 2003)

Instructions

Installation

The installation of SEIS-2004 Part A is a simple file copy from the provided SEIS-2002 CD to your own computer's hard disk. In brief,

1. Create a subdirectory SEIS-2004

2. Insert the SEIS-2004 CD into your CD drive, then copy *InstSEIS02A.XLS* into the SEIS-2004 folder. (*Inst* will be your institution's name.)

3. Go to your SEIS-2004 subdirectory, select *InstSEIS04A.XLS* by clicking on right mouse button, then select Property. Change the file property by clicking off the Read-only checkbox and clicking on the Archive checkbox.

4. Installation is complete.

Basic Operation

Each template can be identified by its unique worksheet tab name on the bottom of the screen. Clicking on this tab opens the respective table. To move the table view left or right, use the scroll bar on the bottom or on the right side. To maximize the table view on the screen, use the View-Full Screen option from the Excel menu bar.

All the tables are ready to print out on regular letter size paper using the landscape mode. You may have to revise the page-setup depending on your printer type. If you have to do this setup, please select all worksheets at once by clicking right button of your mouse on a tab, then select "Select all sheets". Once you have finished, please ungroup using the same button.

Data Entry

All worksheets are color-coded, locked, and protected. A shaded or colored cell contains a formula or linked data for automated tabulation. The table headings and the body are also protected from unintentional change. Accordingly, the user enters input data on non-colored, clear cells only. Please use the note box in each table for any additional comments regarding your data.

Zero value, Missing, and Not Applicable must be identified in the respective cells.

0	actual data value is zero
m	data is missing
na	data is not applicable

SEIS-2004 racial/ethnicity categories have been revised to confirm with OMB requirements. In the revised SEIS, every race is separated into either the "Hispanic or Latino" category or "NOT Hispanic or Latino" category.

Your data from SEIS-2002 has been transferred to SEIS-2004. Please note the following:

1. American Indian/Alaskan Native data has been transferred to NOT Hispanic or Latino – American Indian
2. Asian/Pacific Islander data has been transferred to NOT Hispanic or Latino – Asian
3. Black (Not Hispanic) data has been transferred to NOT Hispanic or Latino – Black or African American
4. Hispanic data has been transferred to Hispanic or Latino – Race Not Reported
5. White (Not Hispanic) / Alaskan Native data has been transferred to NOT Hispanic or Latino – White
6. Other or International data has been transferred to Neither Race or Ethnicity Reported

Please review the transferred data and make any necessary updates and changes. The following are some additional instructions:

Table 1.2 and 2.1 – The total institution undergraduate enrollment in Table 1.2 should match the total institution undergraduate enrollment in Table 2.1.

Table 2.2 - Part-Time Total and Other Classification (FT) Categories are new in SEIS-2004. Please fill in this data if possible. Also, "Not Reported" columns can be used as category totals if a Male/Female breakdown is not available.

Table 2.3 – If you see cells in red, this means that the number of students reported that graduated with a GPA of at least 3.0, prepared for STEM graduate study, or admitted to STEM graduate program exceeds the number of students who graduated. If necessary, please adjust this data to only include students that graduated.

Table 3.1 – If a gate-keeping course has been developed or enhanced, choose developed or enhanced from the drop down box and enter the course implementation date (e.g. Fall 2003).

Table 3.2 – Only total enrollment and completion totals are collected for each semester. Racial/ethnicity breakdowns will not be collected for this table.

Table 3.3 – Only include courses that are not included in Table 3.1.

Table 3.4 – Only include courses that are not included in Table 3.2. Only total enrollment and completion totals are collected for each semester. Racial/ethnicity breakdowns will not be collected for this table.

Table 4.1 – Only total number of students are collected for each academic year. Racial/ethnicity breakdowns will not be collected for this table.

Table 5 - The total number of full-time faculty and number of faculty with degrees or tenure status should match.

Table 6.1 - Professional Development Activities Supported by HBCU-UP should start in the first year of implementation.

Table 7.1 – Please specify a date range for Program Duration for each program (e.g. September 2002 – August 2004 or Fall 2002 – Summer 2004).
