# Labor Market Areas, 2003

This directory presents a comprehensive listing of the labor market areas of the United States and Puerto Rico. Every 10 years, the Nation's system of labor market areas is reevaluated and redefined, using the latest Decennial Census information on the population and commutation. Labor market areas are identified in order to standardize and promote comparability for the collection and use of labor force information in administering various government programs. A general definition for a labor market area is an economically integrated geographic area within which individuals can reside and find employment within a reasonable distance or can readily change employment without changing their place of residence.

Labor market areas are either metropolitan areas (MAs) or nonmetropolitan areas (small labor market areas), and exhaust the geography of each of the States, the District of Columbia, and Puerto Rico. The Office of Management and Budget (OMB) is responsible for defining the MAs, while the Bureau of Labor Statistics' Division of Local Area Unemployment Statistics (LAUS) performs this function for small labor market areas. The metropolitan and small labor market area definitions contained in this directory were introduced with labor force estimates for January 1994, except for those few changes noted as introduced in the 1995 to 2003 period. The previous major revision of labor market area definitions was implemented in 1986.

Labor market area definitions are updated on an annual basis, and changes to area definitions are introduced with the labor force estimates for the following January. In order to maintain a consistent time series, estimates for labor market areas are generally reconstructed back to January 1990 or as far back as practicable.

This directory lists all labor market areas alphabetically by State and area title. Since the areas are listed by State, to find all counties or Minor Civil Divisions of an interstate area, one should look for the area under each of the participating States as identified in the area's title. The same criteria are used for *interstate* areas as for *intrastate* areas. Also included with each area title are the type of area, the LAUS area code, and the geographical boundaries of the area. The type of area is either Metropolitan Statistical Area (MSA), Primary Metropolitan Statistical Area (PMSA), or small labor market area (SLMA). The LAUS area code is a unique area-specific alphanumeric code used for LAUS programmatic purposes. The geographic boundaries are defined in terms of full counties, or county equivalents, in all areas except New England, where Minor Civil Divisions are used.

The 2,383 areas in the directory comprise 2,046 small labor market areas, of which 13 are interstate areas, and 337 MAs, of which 42 are interstate. Labor force estimates for each of these labor market areas are available from the LAUS Division of BLS, telephone number--202-691-6392.

The appendix contains the concepts and criteria developed and used by BLS in redefining small labor market areas. The complete list of detailed standards used by the OMB is contained in the *Federal Register*, March 30, 1990, pages 12154-12160. A complete listing of the metropolitan areas, effective June 30, 1999, is contained in OMB Bulletin No. 99-04, *Revised Statistical Definitions of Metropolitan Areas (MAs) and Guidance on Uses of MA Definitions*.

This directory was prepared in the Office of Employment and Unemployment Statistics, Division of Local Area Unemployment Statistics.

## **Appendix 1. Criteria for Designating Small Labor Market Areas**

While metropolitan areas (MAs) are designated on the basis of population, urban area, and commutation data, population and urban area data are inappropriate for defining the generally less populous nonmetropolitan labor market areas (LMAs). Therefore, commutation data are used in the definition of small labor market areas, i.e., in determining which counties are deemed single-county areas and which are combined into multi-county areas. Regardless of population size, commuting flows are an indication of the degree of integration of labor markets among counties; commutation data show the extent that workers have been willing and able to commute to other counties.

Labor market areas are defined in terms of full counties in all areas except New England, where Minor Civil Divisions (MCDs) are used to define LMAs. In the criteria below, the term "county" includes county equivalents and, in New England, refers to MCDs. Accordingly, all parts of the U.S. are in a labor market area--either metropolitan or nonmetropolitan.

The following criteria were applied in identifying small labor market areas:

- (1) If 15.0 percent (rounded to the nearest tenth of one percent) or more of the employed workers residing in a county commute to another county, then the two counties were combined into one labor market area.
- (2) After combining counties based on the "county-to-county" commuting criteria in (1) above, county-to-LMA flows were checked. If two or more counties were combined into one LMA, an additional county was added if 15.0 percent or more of the employed workers residing in that additional county commuted to the combined LMA (not necessarily to any one county within the LMA). This procedure may have required several iterations.
- (3) In the case of existing multi-county LMAs, attempts were made to maintain historical continuity. Thus, if the commuting flows were only marginally below the new criteria, (that is, within 1.645 standard errors of 15.0 percent) the counties remained combined.
- (4) Small LMAs, as MAs, are contiguous. Counties were first combined based on the commutation criteria, and then potential multi-county LMAs were checked for contiguity. Noncontiguous portions of potential LMAs were considered separately. If the noncontiguous area contained more than one county, it was reevaluated using (1), (2), and (3) above. If the noncontiguous area was a single county, it was designated as a single LMA.

- (5) In the New England States, due to the number of MCDs, residual MCDs were added to contiguous multi-area LMAs based on commuting flows and/or other economic ties. That is, if, after applying the commutation criteria, an MCD has been identified as an individual LMA, the State could recommend that the MCD be added to a contiguous multi-area LMA, especially if the MCD was extremely small.

Naming Conventions: Single-county LMA names typically include the full county name, followed by the State abbreviation, as in "Venango County, PA."

Multi-county LMA names consist of generally not more than three county, city, and/or regional names, in descending order of population, followed by the State abbreviation and the term "LMA," as in "Clearfield-Jefferson, PA LMA."

In the case of interstate LMAs, State abbreviations are sequenced according to the population sizes of the intrastate parts, that is, the State with the largest total population among its components within that LMA is listed first, and so on, as in "Nez Perce-Asotin, ID-WA LMA."

## Appendix 2. Annual Changes to Labor Market Areas

### 2003 Changes

The following is a detailed description of the changes contained in the 2003 replacement pages to *Labor Market Areas*. Changes marked by a “-|” signify a deletion of a labor market area or component thereof, while changes marked by a “\*|” indicate other types of changes.

1. Deleted an extraneous word from several area titles (Matanuska-Susitna Borough, Alaska; Missoula, Montana; and Atkinson and Gilmanton Academy grant, Beans grant, Beans purchase, Chandlers purchase, Crawfords purchase, Cutts grant, Dixs grant, Ervings location, Greens grant, Hadleys purchase, Hale’s location, Low and Burbanks grant, Martins location, Pinkhams grant, Sargents purchase, Second College grant, Thompson and Meserves purchase, and Wentworth location, all in New Hampshire). Some of these titles also had minor punctuation corrections.
2. Added a missing word in a number of area titles (Miami-Dade County (renamed), Florida; Power County, Idaho; Central Aroostook unorganized (redefined), Maine; East Central Penobscot unorganized (redefined), Maine; Passamaquoddy Pleasant Point Indian Reservation, Maine; Balance of Central Massachusetts, Massachusetts LMA; Balance of Western Massachusetts, Massachusetts LMA; Barnstable Town city, Massachusetts; Nantucket County/town, Massachusetts; Gallatin County (redefined), Montana; Park County (redefined), Montana; Limestone County, Texas; Alleghany County (redefined), Virginia; and Halifax County (redefined), Virginia).
3. Changed a word denoting geopolitical status in some area titles (Torrington city, Connecticut; Frye Island town, Maine; Caratunk plantation, Maine; Hammond plantation, Maine; Mount Chase plantation, Maine, Passamaquoddy Indian Township, Maine; Perkins unorganized, Maine; Prentiss unorganized, Maine; Unity unorganized, Maine; Easthampton city, Massachusetts; and Livermore town, New Hampshire).
4. Corrected the punctuation or spelling of some area titles (DeKalb County, Alabama; DeSoto County, Florida; DeKalb County, Georgia, DeKalb County, Illinois, DuPage County, Illinois, DeKalb County, Indiana, Islesboro town, Maine; Owls Head town, Maine; St. Mary’s County, Maryland; Becket town, Massachusetts; Manchester-by-the-Sea town, Massachusetts; North Attleborough town, Massachusetts; DeSoto County, Mississippi, DeKalb County, Missouri, Ossipee town, New Hampshire; Hickory-Morganton-Lenoir, North Carolina MSA; Tyrrell County, North Carolina; LaMoure County, North Dakota; DeKalb County, Tennessee; DeWitt County, Texas; Fort Worth-Arlington, Texas PMSA; Buels gore, Vermont; and Nottoway County, Virginia).
5. Changed the definition of the Boulder, Colorado PMSA and Denver, Colorado PMSA, to reflect the newly created Broomfield County.

6. Changed the title of the New Bern-Kinston, North Carolina LMA to the Kinston-New Bern, North Carolina LMA. Changed the title of the Southern Pines, North Carolina LMA to the Southern Pines-Raeford, North Carolina LMA.
7. Changed the labeling of the St. Louis, Missouri-Illinois MSA from an LMA to an MSA, with the reference to the unique inclusion of a partial city cited in a footnote.
8. Added notations, previously inadvertently omitted, to indicate that the 2-county Hattiesburg, Mississippi MSA and four single-county LMAs (Covington County, Greene County, Jefferson Davis County, and Perry County) were added. These five LMAs replaced the former 6-county Forrest-Lamar-Covington, Missouri LMA in 1995. Also added notations indicating the deletion of Coconino County, Arizona, in December 1996, reflecting the creation of Flagstaff, Arizona-Utah.
9. Deleted Lee County, Alabama LMA. The LMA was deleted from the database in 2000, but the change was inadvertently omitted in the Directory.
10. Revised the cover page, page ii, and page iii (the table of contents), to reflect the 2003 updates.

## **2002 Changes**

The following is a detailed description of the changes contained in the 1996 replacement pages to *Labor Market Areas*:

1. Added Lake and Peninsula Borough to the Southwest, Alaska LMA. This was an inadvertent omission from prior editions, and is not a change in geographic definition.
2. Added the newly created Flagstaff, Arizona-Utah MSA, consisting of Coconino County, Arizona, and Kane County, Utah, and deleted Coconino County and Kane County as single-county LMAs.
3. Added the Grand Junction, Colorado MSA, consisting of Mesa County, and deleted Mesa County as an LMA.
4. Added the newly-created town of Long Island, Maine, to the Portland MSA and noted that the definition of Portland City was revised to reflect the secession of Long Island.
5. Added a notation, previously inadvertently omitted, to indicate that the Forest-Lamar-Covington, Missouri LMA was deleted when the Hattiesburg MSA was created in 1995. (The five additions were correctly noted previously.)
6. Changed the name of the Hickory-Morganton, North Carolina MSA to Hickory-Morganton-Lenoir, as revised by OMB.
7. Changed the name of the Halifax-South Boston, Virginia LMA to Halifax County, now a single-county LMA, to reflect the change in status of South Boston from an independent city (county equivalent) to a town. Halifax County now includes the land area that was formerly South Boston City.
8. Revised the cover page, page ii, and page iii (the table of contents), to reflect the 1996 updates.

## **1995 Changes**

The following is a detailed description of the changes contained in the 1995 replacement pages to *Labor Market Areas*:

1. Added Yakutat Census Area (later corrected to Borough) to the Southeast, Alaska LMA and changed the name of Skagway-Yakutat-Angoon Census Area to Skagway-Hoonah-Angoon Census Area. Yakutat was created from territory previously included in Skagway-Yakutat-Angoon Census Area.

2. Changed the following five entities in Massachusetts from town status to city status: Agawam, Barnstable, Franklin, Methuen, and Watertown.
3. Added the 2-county Hattiesburg, Missouri MSA and four single-county LMAs (Covington County, Greene County, Jefferson Davis County, and Perry County). These five LMAs replace the former 6-county Forrest-Lamar-Covington, Missouri LMA.
4. Revised the cover page, page ii, and page iii (the table of contents), to reflect the 1995 updates.
