HUNTING AND FISHING LICENSE SALES TOP ALL RECORDS

A record 44 million Americans spent close to \$300 million on State hunting and fishing licenses last year, according to State license sales figures released today by Director Lynn A. Greenwalt of the Interior Department's U.S. Fish and Wildlife Service.

"Both figures are record highs," said Greenwalt, "and they show that Americans continue to find hunting and fishing major pastimes." One of every five Americans enjoys the outdoors this way. The figures represent an increase of \$26 million in State sales and 600 thousand in license holders over 1974. Since some States do not require licenses for ocean fishing, children under 16, or senior citizens, these figures are considered conservative estimates.

"The revenues derived from these license sales enable States to conduct their fish and wildlife conservation and management programs," Greenwalt said. "Additional funds come from Federal Aid in Fish and Wildlife Restoration programs under which States are reimbursed up to 75 percent of the cost of approved projects.

California led the Nation in sales of fishing licenses with 5.9 million licenses, tags, permits, and stamps sold. Closest runner-up was Michigan with 1.7 million sold. Other very heavily fished States were Minnesota, Missouri, Oregon, Tennessee, Texas, and Wisconsin. Wisconsin also attracted the most out-of-State fishermen in the country with 360,000 visitors buying licenses last year. Montana, Tennessee, Minnesota, and Michigan also ranked high with tourist fishermen.

Pennsylvania led all States in the Nation last year in sales of hunting licenses with 1.8 million licenses, tags, permits, and stamps sold. California, Michigan, New York, and Texas ranked just below. Montana had the distinction of being the most frequently visited State by out-of-State hunters. Last year over 127 thousand non-resident permits were sold there.

Hawaii had the fewest licensed hunters and fishermen.

^{1/} A paid license holder is one individual regardless of the number of licenses he may purchase.

Data certified by State fish and game departments.

^{2/} Period covered not identical to period covered by certification for all States.

Persons who hunted in more than one State are counted in each State where they hunted. Therefore, this figure exceeds the total number of license holders in the United States.

A paid license holder is one individual regardless of the number of licenses he may purchase.

Data certified by State fish and game departments.

²/ Period covered not identical to period covered by certification for all States.

^{3/} Persons who fished in more than one State are counted in each State where they fished.
Therefore, this figure exceeds the total number of license holders in the United States.
