Results-Oriented, Community-Based Conservation

First established by the Congress in 1985, the Conservation Reserve Program (CRP) has become the nation's premier program for protecting fragile natural resources and enhancing the environment for all of rural America.

Over 34.7 million acres of environmentally sensitive and fragile lands have been placed into grass and trees that improve the soil, water, air, and wildlife resources of our Nation. Society benefits through improved water quality, safe drinking water supplies, enhanced wildlife, improved air quality, and improved soil resources. Enrollment of this acreage also ensures that prime farmland that should be farmed will be available for farming.

Enclosed is the most recent information for land enrolled in CRP. The information has been sorted according to national summary or State-by-State detail and includes:

- A breakdown comparing general, continuous, Conservation Reserve Enhancement Program (CREP), and Farmable Wetlands Program (FWP) enrollments;
- Acres enrolled and outlays by year since program inception;
- Total payments and payments per acre by general, continuous, CREP, and FWP;
- A schedule of contract expirations; and
- A schedule of acres enrolled to particular conservation practices.

Sincerely,

Robert Stephenson
Director, Conservation and Environmental
Programs Division

Larry Walker
Director, Economic and
Policy Analysis Staff

CONSERVATION RESERVE PROGRAM

EXECUTIVE SUMMARY

The Conservation Reserve Program (CRP) is the United States' largest conservation program both in acres enrolled and dollars spent. The 2002 Farm Security and Rural Investment Act authorized CRP through 2007 and provides for enrolling up to 39.2 million acres. In April 2004, over 34.7 million acres were enrolled, providing \$1.7 billion in annual payments to land owners and operators.

The CRP has provided substantial conservation benefits. The CRP is an integral part of USDA conservation programs that have reduced cropland soil erosion by over 40 percent since 1982. USDA's FY 2003 Governmental Performance and Reporting Act (GPRA) Annual Report credits CRP with:

- Restoring 1.9 million acres of wetlands,
- Establishing 2.4 million acres of riparian buffers,
- Reducing soil erosion by 446 million tons,
- Sequestering 17 million metric tons of carbon, and
- Restoring 3.5 million acres to ecosystems with high wildlife benefits.

Authorization for CRP ends on December 31, 2007, while contracts for over 16.1 million CRP acres expire on September 30, 2007, before enrollment authorizations ends. In 2008, contracts for another 6.1 million acres expire. What happens to CRP when these contracts expire will have consequences for soil and water quality, wildlife populations, commodity prices, and rural economies. This document was prepared to provides background and summary statistics to help make informed decisions.

ACTIVE CONTRACTS, APRIL 2004

<u>Sign-up Type</u>	<u>Contracts</u>	<u>Farms</u>	<u>Acres</u>	<u>Annual Rental Payments</u> b/ (<u>\$Million</u>)	<u>Payments</u> b/ (<u>\$/Acre</u>)
General	394,498	261,597	31,902,160	\$1,391	\$43.59
Continuous					
Non-CREP	220,009	139,472	2,133,591	\$191	\$89.43

Total	658,289	388,586 a/	34,724,144	\$1,665	\$47.95

Note: Not including 13,904 acres in contracts with invalid expiration year (before 2004).

a/ Number of farms not additive across sign-up types because a farm may participate in multiple sign-up types.

b/ Approximates FY 2005 payments, before adjustments for haying/grazing, non-compliance, terminations, part-year contracts, and contracts not yet recorded.

Conservation Reserve Program-Performance Goals and Indicators FY 2003 Report

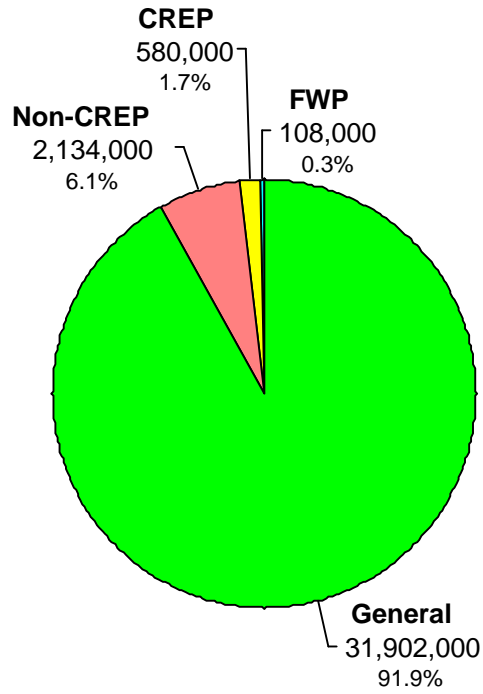

Goal or Indicator	FY 1999 Actual	FY 2000 Actual	FY 2001 Actual	FY 2002 Actual	FY 2003 Actual
Increase the number of acres enrolled in CRP and expand CREP.					
Number of acres enrolled in CRP (million acres)	29.8	31.4	33.6	33.9	34.1
General sign-up (competitive) enrollment (million acres)	28.9	30.2	32	31.8	31.6
Continuous (including CREP) enrollment (million acres)	0.9	1.2	1.6	2.1	2.5
CREP enrollment (million acres)	0.03	0.08	0.19	0.36	0.5
Tree plantings (million acres)	2.2	2.5	2.9	3.1	3.2
Acres enrolled in the Prairie Pothole, Chesapeake Bay, Great Lakes, Long Island Sound, and Long Leaf Pine national conservation priority areas (million acres)	6.9	7.2	7.8	8.0	8.1
Approved CREP agreements (#)	8	12	18	24	26
Reduce soil erosion, protect water and air quality, restore wetlands, and improve wildlife habitat by establishing conservation cover and/or installing priority practices.					
Soil Erosion					
Reduced soil erosion (million tons/year)	N/A	407	428	447	446
Water & Air Quality					
Reduced sheet and rill erosion (million tons/year)	N/A	166	178	215	214
Reduced wind erosion - also a measure of air quality (million tons/year)	N/A	241	250	232	232
Reduced nitrogen applications on land under long-term land retirement contract (thousand acres)	553	605	634	681	655
Reduced phosphorus applications on land under long-term land retirement contract (thousand acres)	80	87	97	104	103
Acres established in conservation buffers — including filter strips and riparian buffers ¹ (million acres)	1.2	1.3	1.7	2.1	2.4
Carbon sequestered in soil and vegetation through long-term retirement of crop and grazing land (million metric tons/year)	14.5	15.2	16.1	16.3	17
Wetlands					
Restored wetlands ² (million acres)	1.3	1.5	1.7	1.7	1.9
Wildlife Habitat					
Acres planted with vegetative covers defined as best suited for wildlife (million acres)	12.4	16.6	18.2	18.1	18.1
Land restored to ecosystems with high benefits for wildlife ³ (million acres)	1.3	2.1	2.6	3.3	3.5

¹ Most buffers installed under the CRP are installed primarily for water quality, however buffers provide multiple benefits, including air quality, wildlife habitat, and carbon sequestration.

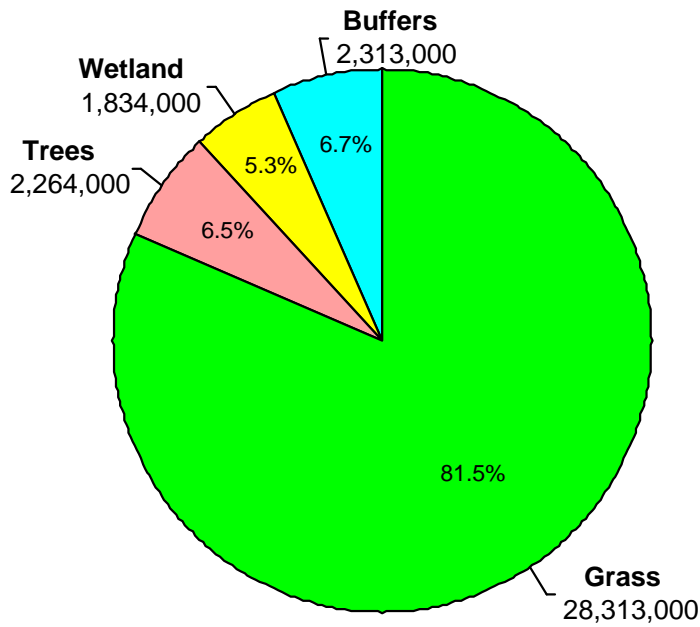

² Primarily wetland restoration, which includes adjacent upland.

³ Primary conservation practices include, but are not limited to, wetland restoration, wildlife corridors, riparian buffers, longleaf pine establishment, and rare and declining habitats.

CRP Acres by Sign-up Type, April 2004

CRP Acres by Cover Type, April 2004

CONSERVATION RESERVE PROGRAM

Program Description and History

Under the voluntary Conservation Reserve Program (CRP), the U. S. Department of Agriculture (USDA) establishes contracts with agricultural producers to retire highly erodible and other environmentally sensitive cropland and pasture. During the 10- to 15-year CRP contract period, cropland is converted to grass, trees, wildlife cover, or other conservation uses. Enrollment provides environmental benefits, including improvement of surface water quality, creation of wildlife habitat, preservation of soil productivity, protection of groundwater quality, and reduction of offsite wind erosion damages. The program also assists farmers by providing a dependable source of income, reducing commodity surpluses, and providing a transition period for farmers to convert environmentally sensitive cropland to other uses. The program was first established by the Food Security Act of 1985 and later amended by the Food, Agriculture, Conservation, and Trade Act of 1990, the Federal Agriculture Improvement and Reform Act of 1996, and the Farm Security and Rural Investment Act of 2002.

PROGRAM DESCRIPTION

USDA's Farm Service Agency administers CRP with technical assistance from USDA's Natural Resources Conservation Service (NRCS) and Forest Service (FS). USDA provides participants annual rental payments during the contract period, half the cost of establishing conservation covers, and in some cases, incentive payments. There are 2 primary ways farmers and ranchers participate in CRP: general sign-up and continuous sign-up. Conservation Reserve Enhancement Program (CREP) and Farmable Wetland Program enrollments operate under continuous sign-up provisions.

General Sign-up. Under general sign-up provisions producers with eligible land compete for acceptance based on an environmental benefits index (EBI) during specified enrollment periods. Producers may submit offers below soil-specific maximum rental rates to increase EBI rankings.

Continuous Sign-up. Producers with eligible land may enroll certain high priority conservation practices, such as filter strips, riparian buffers, and wetland restoration any time during the year without competition. In addition to annual rental payment and cost-share assistance, many practices are eligible for additional annual and up-front financial incentives.

Conservation Reserve Enhancement Program (CREP). Under CREP agreements, Federal/State partnerships implement projects designed to address specific environmental objectives through targeted CRP enrollment. Sign-up is held on a continuous basis, enrollments may include both general and continuous sign-up practices, and additional financial incentives are provided.

Farmable Wetland Program. Implemented in June 2001, acreage is also accepted on a continuous basis, and is limited to 1,000,000 acres. Farmable wetlands cannot be in a flood-plain, cannot exceed 10 acres in size, and wetland plus buffer acreage cannot be more than 40 acres per tract.

LEGISLATIVE HIGHLIGHTS

Year	Legislation	Description
1985	Food Security Act of 1985	Required enrollment of 40 to 45 million acres by 1990
1990	Food, Agriculture, Conservation, and Trade Act of 1990	Extended enrollment authority to 1995
1992, 1993	Appropriations and Omnibus Budget Reconciliation Acts	Reduced enrollment authority to 38 million acres
1996	Federal Agriculture Improvement and Reform Act of 1996	Extended enrollment authority to 2002 and capped enrollment at 36.4 million acres
2001	FY 2001 Appropriation Act	Established Farmable Wetlands Pilot Program
2002	Farm Security and Rural Investment Act of 2002	Extended enrollment authority to 2007 and increased enrollment cap to 39.2 million acres
2003	Emergency Wartime Supplemental Appropriations Act, 2003	Authorized use funds authorized for other USDA conservation program for CRP technical assistance

PROGRAM OPERATION HIGHLIGHTS

Year(s)	Activity
1986-1989	<ul style="list-style-type: none"> z Sign-ups 1-9 conducted, 33.9 million acres enrolled z Eligibility primarily based on erosion and erodibility potential z Rental payments subject to State or sub-State maximum acceptable rental rates (not pre-announced)
1988-1989	<ul style="list-style-type: none"> z Eligibility expanded to include <ul style="list-style-type: none"> Cropland bordering water body or wetland Cropped wetlands Cropland subject to scour erosion
1990-1993	<ul style="list-style-type: none"> z Sign-ups 10-12 conducted, 2.5 million acres enrolled z Eligibility changed to include <ul style="list-style-type: none"> National conservation priority areas (Chesapeake Bay, Long Island Sound, and Great Lakes watersheds) State water quality priority areas (USDA or EPA/State designated watersheds) Additional high priority conservation practices z Cropped wetland eligibility canceled z Provisions for competitive enrollment based on cost and environmental benefits <ul style="list-style-type: none"> Soil-specific maximum rental payment rates (not pre-announced) “Black box” environmental benefits index (EBI)
1995	<ul style="list-style-type: none"> z 1-year extensions offered for contracts expiring 9/30/1995 z Early-contract termination offered for selected contracts z Sign-up 13 conducted, enrolling 684,000 acres approved for enrollment, using revised “open” EBI and pre-announced maximum soil rental rates
1996	<ul style="list-style-type: none"> z 1-year extensions offered for contracts expiring 9/30/1996 z Early-contract termination offer continued z Continuous sign-up began for selected high-priority conservation practices <ul style="list-style-type: none"> Non-competitive enrollment, with added financial incentives Additional practices, wellhead protection areas, and marginal pasture for water quality

PROGRAM OPERATION HIGHLIGHTS, CON'T

Year(s)	Activity
1997	<ul style="list-style-type: none"> z General sign-up provisions revisions including <ul style="list-style-type: none"> Prairie pothole national conservation priority area established Eligibility of cropped wetlands reinstated EBI revised to include wildlife habitat, air quality, and enduring benefits factors. Wildlife habitat benefits given priority equal to water quality and soil erosion benefits z General sign-up 15 conducted z General sign-up 16 conducted z FY 1997 continuous sign-up 14 conducted z Conservation Reserve Enhancement Program (CREP) established <ul style="list-style-type: none"> Targeted enrollment under State/Federal partnership Additional financial incentives, States provide 20-percent of total costs First CREP agreement signed with Maryland z Administration establishes 4-million-acre continuous sign-up goal among strategies in joint USDA/Environmental Protection Agency "Clean Water Action Plan"
1998	<ul style="list-style-type: none"> z General sign-up 18 conducted <ul style="list-style-type: none"> Longleaf pine National conservation priority area added z FY 1998 continuous sign-up 17 conducted
1999	<ul style="list-style-type: none"> z General sign-up 20 conducted z FY 1999 continuous sign-up 19 conducted
2000	<ul style="list-style-type: none"> z FY 2000 continuous sign-up 21 conducted z Sign-up 21 ended in June when additional continuous sign-up enhancements adopted z Continuous sign-up enhancements included <ul style="list-style-type: none"> Up-front signing incentive payments (SIP) and practice incentive payments (PIP) Increased maintenance payment allowance Updated marginal pastureland rental payment rates z FY 2000 continuous sign-up 22 began in June
2001	<ul style="list-style-type: none"> z 1-year extension of contracts expiring 9/30/2001 z FY 2001 continuous sign-up 23 conducted z Farmable Wetlands Pilot Program implemented <ul style="list-style-type: none"> Limited to 500,000 acres in 6 States Farmed and prior converted non-flood plain wetlands of 5 acres or less.
2002	<ul style="list-style-type: none"> z 1-year extension of contracts expiring 9/30/2002 z FY 2002 continuous sign-up 24 conducted z Farmable Wetland Program expanded to all states, 1 million acres and 10 acres/wetland.
2003	<ul style="list-style-type: none"> z FY 2003 continuous sign-up 25/27 conducted <ul style="list-style-type: none"> New marginal pasture eligibility provisions implemented (non-tree covers allowed, wetland buffers and wildlife habitat practices added) Flood-plain wetland restoration z General sign-up 26 conducted z Bottomland hardwood tree initiative adopted

Total		\$24,470	\$1,703	\$532	\$26,605

1/ Acres under contract at end of fiscal year. Acreage before 1994 estimated based on originally approved contracts and active contract data as of 1994.

2/ Rental payments in a fiscal year apply to acres under contract in the previous fiscal year.

3/ Cost-share payments are made after cover establishment work is done. For contracts beginning in a given year, payments can occur over several years.

4/ Technical assistance outlays are generally paid to NRCS and FS in the year signups are held. About 90 percent of outlays have gone to NRCS and about 10 percent to FS.

28	Continuous	October 1, 2003 - 3/	L, P, R, S	116,766

1/ See attached eligibility criteria description.

2/ Acreage for sign-ups 1-13 based on initially approved contracts. Acreage for sign-ups 14-28 based on active contracts as of April 2004.

3/ Sign-up 28 in progress.

Eligibility Criteria:

- A Land capability classes 6 - 8
- B Land capability classes 2 - 5 with predicted average annual erosion rate greater than 3T
- C Land capability classes 2 - 5 with predicted average annual erosion rate greater than 2T and with gully erosion
- D Land with $EI \geq 8$ and predicted average annual erosion rate greater than T
- E Land for filter strips alongside wetlands, streams, or other water bodies
- F Land for tree planting-eligible when 1/3 of field meets criteria A or Class 2-5 soil with predicted average annual erosion rate greater than 2T
- G Land having evidence of scour erosion caused by out-of-bank water flows
- H Wetland as follows:
 - C cropped wetland of at least 6 acres
 - C a field of which 1/3 or more is cropped wetland
 - C a field of 6 to 9 acres on which wetlands are present
- I Land in designated national conservation priority areas
 - C Chesapeake Bay Region
 - C Great Lakes Region
 - C Long Island Sound RegionLand in designated State water quality priority areas
 - C Public wellhead protection area established by EPA
 - C Hydrologic Unit Areas approved by the Secretary
 - C Land located in areas designated as Clean Water Act "319" priority areas
- J Lands to be established in specified eligible practices, including filter strips, riparian buffers, windbreaks, grass waterways, and salt tolerant grasses
Wetland eligibility suspended
- K Land with an $EI \geq 8$, regardless of the predicted annual erosion rate relative to T
- L Eligible for continuous sign-up beginning with sign-up 14:
 - C Land identified as suitable for field windbreaks, grass waterways, shallow water areas for wildlife, contour grass strips, shelterbelts, living snow fences, salt tolerant vegetation, filter strips, or riparian buffers
 - C Marginal pasture land suitable for riparian buffers devoted to trees.
 - C Land within a wellhead protection area established by EPA
- M Land classified as highly erodible land (HEL) according to conservation compliance provisions.
- N Land in designated national conservation priority areas
 - C Chesapeake Bay Region
 - C Great Lakes Region
 - C Long Island Sound Region
 - C Prairie Pothole RegionLand in designated State water, air, or wildlife quality priority areas
- O Wetlands, including associated acreage, expiring Water Bank lands, and land serving as buffers for non-cropped wetlands
- P Land suitable for cross wind trap strips
- Q Land in the Long Leaf Pine national conservation priority area
- R Wetland and buffer acreage according to Farmable Wetland Program provisions
- S Restoration of flood plain wetland, including bottomland hardwood tree plantings

CP29	Wildlife habitat buffer on marginal pasture	10	Contin.	SRR+20%	\$10/Ac.	Yes	Yes
CP30	Wetland buffer on marginal pasture	6	Contin.	SRR+20%	\$10/Ac.	Yes	Yes
CP31	Bottomland hardwood trees	1	Contin.	SRR	\$10/Ac.	No	No
8/	Wellhead protection areas	162	Contin.	SRR+10%	\$10/Ac.	No	Yes

Cost-share payments are not provided for CP10, CP11, and CP12.

1/ Practices enrolled under CREP may be eligible for additional incentives.

2/ General sign-up practices may be enrolled under certain CREP agreements and may be eligible for additional financial incentives.

3/ Soil rental rates (SRR) are soil-specific maximum rental payment rates for predominant soils (up to 3) for the land offered. Beginning with general sign-up 16, producers offering land for general sign-up enrollment requesting rental payments below the maximum receive higher EBI scores. Participants in continuous sign-up receive the maximum allowable rate. Annual incentives of 20% and 10% of annual rental rate are provided as indicated.

4/ For general sign-up practices, up to \$5/acre are allowed. For continuous practices, grass plantings are allowed up to \$5/acre, tree plantings are allowed up to \$7/acre. For CP21 and CP22, if livestock exclusion practices (alternative water sources or fencing) are implemented, up to \$9/acre is allowed, and if livestock exclusion is accompanied by tree plantings, up to \$10/acre is allowed.

5/ Signing incentive payments (SIP) implemented in June 2000 are up-front bonus payments of \$100 to \$150 per acre (\$10 per acre times contract length in years).

6/ Practice incentive payments (PIP) implemented in June 2000 equal 40-percent of practice installation cost.

7/ For marginal pasture, a county-specific flat rate is used.

8/ Acreage within EPA-designated wellhead protection area. Various practices may be used.

Note: Not including 13,904 acres in contracts with invalid expiration year (2003 or before).

1/ Includes 162,219 acres in designated wellhead protection areas.

2/ Includes both introduced grasses, legumes, and native grasses.

Softwood Trees Planted for CRP

April 2004

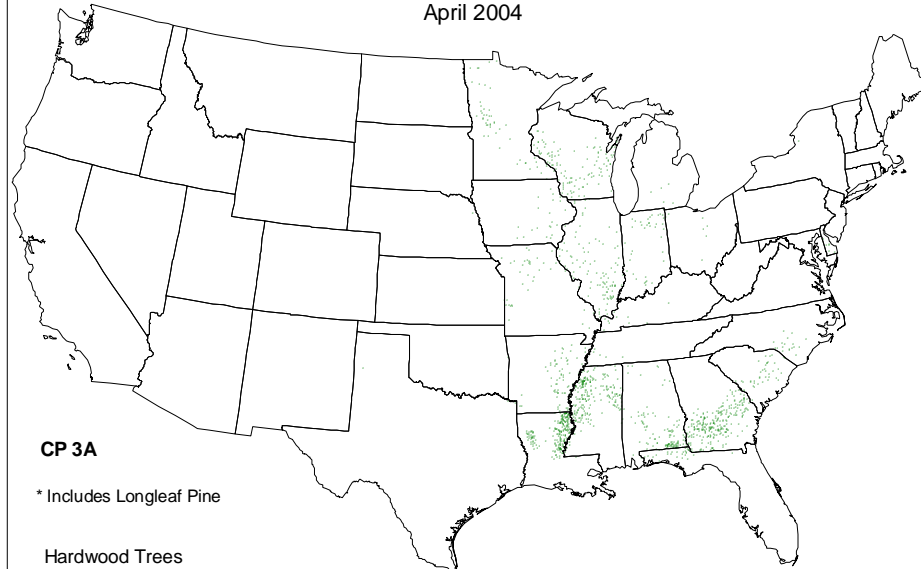

CP 3

Softwood Trees
1 Dot = 500 Acres
State Boundaries

This map was provided by FSA/DAP/CEPD as of May 26, 2004.
If you have any questions call (202) 720-9562.

Hardwood* Trees Planted for CRP

April 2004

CP 3A

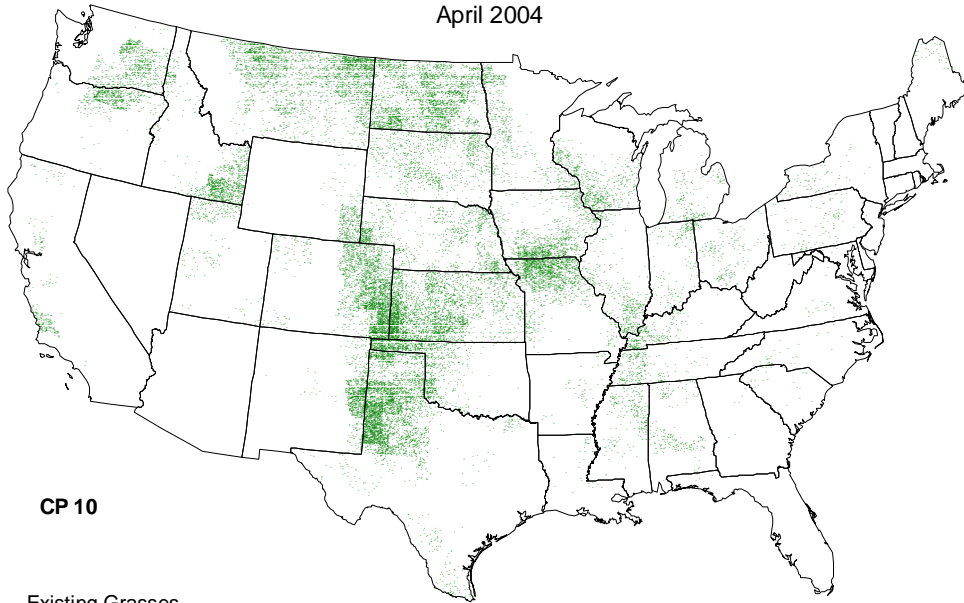

* Includes Longleaf Pine

Hardwood Trees
1 Dot = 500 Acres
State Boundaries

This map was provided by FSA/DAP/CEPD as of May 26, 2004.
If you have any questions call (202) 720-9562.

Existing Grasses on CRP

April 2004

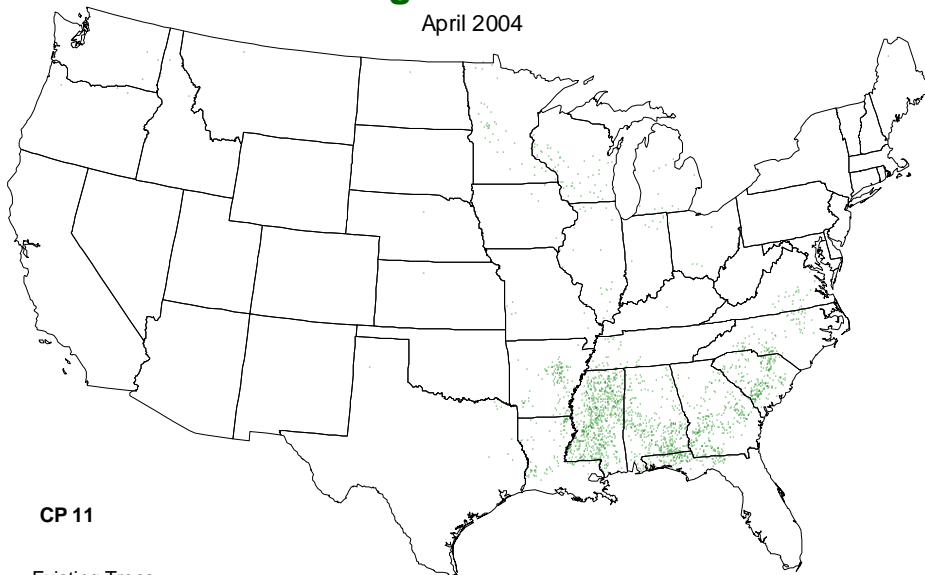

CP 10

Existing Grasses
1 Dot = 500 Acres
State Boundaries

This map was provided by FSA/DAFP/CEPD as of May 26, 2004.
If you have any questions call (202) 720-9562.

Existing Trees on CRP

April 2004

CP 11

Existing Trees
1 Dot = 500 Acres
State Boundaries

This map was provided by FSA/DAFP/CEPD as of May 26, 2004.
If you have any questions call (202) 720-9562.

Grass Filter Strips Planted in CRP

April 2004

This map was provided by FSA/DAFPCEPD as of May 26, 2004.
If you have any questions call (202) 720-9562.

Riparian Buffers Planted in CRP

April 2004

This map was provided by FSA/DAFPCEPD as of May 26, 2004.
If you have any questions call (202) 720-9562.

Restored Wetlands Planted in CRP

April 2004

CP 23

Restored Wetlands
1 Dot = 500 Acres
State Boundaries

This map was provided by FSA/DAFP/CEPD as of May 26, 2004.
If you have any questions call (202) 720-9562.
