

Emergency Loan Program

Overview

USDA's Farm Service Agency (FSA) provides emergency loans to help producers recover from production and physical losses due to drought, flooding, other natural disasters, or quarantine.

Loan Uses

Emergency loan funds may be used to:

- Restore or replace essential property;
- Pay all or part of production costs associated with the disaster year;
- Pay essential family living expenses;
- Reorganize the farming operation; and
- Refinance certain debts.

Eligibility

Emergency loans may be made to farmers and ranchers who:

- Own or operate land located in a county declared by the President as a disaster area or designated by the Secretary of Agriculture as a disaster area or quarantine area (for physical losses only, the FSA Administrator may authorize emergency loan assistance);
- Are established family farm operators and have sufficient farming or ranching experience;

- Are citizens or permanent residents of the United States;
- Have suffered at least a 30-percent loss in crop production or a physical loss to livestock, livestock products, real estate, or chattel property;
- Have an acceptable credit history;
- Are unable to receive credit from commercial sources;
- Can provide collateral to secure the loan; and
- Have repayment ability.

Loan Requirements

FSA loan requirements are different from those of other lenders. Some of the more significant differences are the following:

- Borrowers must keep acceptable farm records;
- Borrowers must operate in accordance with a farm plan they develop and agree to with local FSA staff; and
- Borrowers may be required to participate in a financial management-training program and obtain crop insurance.

Collateral is Required

All emergency loans must be fully collateralized. The specific type of collateral may vary depending on the loan purpose, repayment ability and the individual circumstances of the applicant. If applicants cannot provide adequate collateral, their

repayment ability may be considered as collateral to secure the loan. A first lien is required on property or products acquired, produced, or refinanced with loan funds.

Loan Limit

Producers can borrow up to 100 percent of actual production or physical losses, to a maximum amount of \$500,000.

Loan Terms

Loans for crop, livestock, and non-real estate losses are normally repaid within 1 to 7 years; depending on the loan purpose, repayment ability, and collateral available as loan security. In special circumstances, terms of up to 20 years may be authorized. Loans for physical losses to real estate are normally repaid within 30 years. In certain circumstances, repayment may be made over a maximum of 40 years.

Interest Rate

The current annual interest rate for emergency loans is 3.75 percent.

Application Deadline

Applications for emergency loans must be received within 8 months of the county's disaster or quarantine designation date.

Temporary Assistance

Borrowers who receive temporary assistance are expected to return to conventional credit sources.

Emergency loans are a temporary source of credit, and borrowers are reviewed periodically to determine whether they can return to commercial credit.
