## Appendix C

## Breakouts by age

1. Q.20. How satisfied are you with you community as a place to live?*

Graph represents the average values and a 95 percent confidence interval.

Note: * Indicates there is not significant difference in responses between age groups.
2. Q. 33. To what extent would you encourage or discourage the following kinds of future recreational development in and around your community?

Park space ( $\mathrm{n}=903$ )
