## **June 13<sup>th</sup> Network Reliability and Interoperability Council Meeting Cancelled**

Since the March meeting, the Network Reliability and Interoperability Council (NRIC) has been actively pursuing an aggressive outreach and education program intended to increase awareness and familiarity with the homeland security best practices adopted in December and March. The outreach campaign has included panels at industry conferences nationwide, press interviews and a planned webinar. A number of additional events are planned to reach the wireless, Internet and small service provider communities.

There are no formal deliverables due at the upcoming June 13 NRIC meeting. For this reason, and in order to maintain energy and focus on the important outreach activities, the June meeting has been cancelled. The NRIC will meet again on September 15, 2003 from 1:00 pm to 4:00 pm.
