

Attachment D

Electronic Filing of the FCC Form 301

Applicants are encouraged to familiarize themselves with the Media Bureau's electronic filing system prior to the opening of the window and to file as early in the window as possible. Applications will not be made publicly available until after the close of the window. Each applicant will be able to access and amend its electronically filed application at any point prior to the close of the window through the Consolidated Database System (CDBS) online electronic forms filing system, located at the following site: <http://www.fcc.gov/mb/elecfile.html>.

Electronic filing instructions are available in the CDBS User's Guide. The CDBS User's Guide can be accessed from the electronic filing web site, above, by clicking on the CDBS link. This action will take the user to the Media Bureau CDBS Electronic Filing System site. The user should then click on the "Go to CDBS User's Guide" link. Internet access to the CDBS online electronic forms filing system requires, at a minimum, a browser such as Netscape version 3.04 or Internet Explorer version 3.51, or later.

No consideration will be given to any proposal for which the required information is not on file by the close of the window.
