

Message to Los Alamos National Laboratory Employees

From: Pete Nanos

Please join me in thanking John Browne for his years of dedication and leadership at Los Alamos National Laboratory. I know his heart will always be with this laboratory and I know he will continue to be a valuable resource for all of us in the weeks and months ahead.

We're in a time of tremendous challenge and with that challenge will come change. I will need the active help and commitment of each and every one of you to ensure that we do what is necessary to meet these challenges while maintaining our reputation for scientific excellence. Los Alamos National Laboratory plays a key role in our nation's security. At this important juncture in our nations history we can neither lose sight of that mission, nor can we falter in the quality of our performance.

I will look forward to working with you as we urgently address the issues facing our laboratory.
