These individuals would have primary responsibility for formal education efforts under the Teacher Professional Continuum and/or the Instructional Materials Development programs.

**The Teacher Professional Continuum program** addresses research on critical issues and needs regarding the recruitment, preparation, enhancement, and retention of science, technology, engineering and mathematics (STEM) teachers for grades K-12. **The Instructional Materials Development program** emphasizes research and development of instructional materials and assessments for STEM education, K-12.

ESIE supports NSF's mission of providing leadership and promoting development of the infrastructure and resources needed to improve preK-12 science, technology, engineering, and mathematics (STEM) education throughout the United States. For temporary appointments of more than one year, the usual civil service benefits (retirement, health and life insurance) are applicable. For Visiting Scientist appointments, individuals are in a non-pay leave status from the home institution and are appointed to NSF's payroll as a Federal employee. NSF withholds Social Security and provides reimbursement for fringe benefits. For IPA assignments, the individual remains on the payroll of his/her institution and the institution continues to administer pay and benefits.
