| Website        | http://www.ngdc.noaa.gov/seg/hazard/  | Description | <p>NGDC has a long involvement in hazards education, beginning with the publication of hazards slide sets depicting damage from past events. In 1998, NGDC partnered with the Institute for Business and Home Safety (IBHS) to develop the Natural Hazards Quiz and Natural Hazards Resource Directory. The collaboration continued with a second on-line quiz geared specifically towards children. In August 2000, NGDC/OSDPD/Public Affairs partnered to produce the first two in a series of Natural Hazards Poster, Stratovolcanoes of the World and Shield Volcanoes of Hawaii. The latest product in this ongoing project is a Teachers Guide to Stratovolcanoes of the World, February 2001.</p> |

| Website        | http://www.ngdc.noaa.gov/cgi-bin/wt/hqp/  | Description | As part of NGDC's Natural Hazards Outreach and Education project, NGDC partnered with the Institute for Business and Home Safety (IBHS) to develop the Natural Hazards Quiz. The on-line quiz is a fun, interactive means of learning about a variety of hazards from tornadoes to radon in the home. You can customize the quiz, i.e. only questions on earthquakes and volcanoes, print questions and answers for teachers, and access a variety of help resources. The success of this quiz led to the development of a quiz geared specifically for kids. |

| Website        | http://www.ngdc.noaa.gov/seg/hazard/res   | Description | As part of NGDC's partnership with the Institute for Business and Home Safety (IBHS), we developed an on-line version of the Hazards Resource Directory (originally published jointly with University of Colorado Hazards Center). The on-line Directory contains brief descriptions and contact information for hundreds of data and service providers relating to meteorological and geological hazards and societal response to natural hazards. The Resource Directory is heavily accessed by a variety of users and has won praise from the Pacific Disaster Center. There is on-going maintenance to keep web, e-mail, and phone contact information current. |
