

Radionuclides and Arsenic Rules

Draft

Web cast Training Sessions

Summer / Fall 2004

EPA's Office Of Ground Water and Drinking Water will be conducting Web cast training sessions for the Radionuclides and Arsenic Rules. The training sessions are intended for state personnel, but will also be open to technical assistance providers and system operators. Four sessions will be conducted between June and October 2004.

Each Web cast will last approximately 2 hours and will be hosted by EPA via a Web conferencing portal. Though Rule requirements will be reviewed, the focus of the sessions will be on compliance, treatment, monitoring, and disposal. The sessions may also provide real world experience through examples and case studies.

Overview of Web Cast Schedule

Web Cast 1: Radionuclides Rule

2:00-4:00 pm (EDT) June 29, 2004

- An Overview of the Rule
- Required Monitoring
- Monitoring Schedules
- Compliance Calculations
- Substitution of Gross Alpha for Radium-226 and Uranium
- Beta Particle/Photon Emitter Monitoring
- Analytical Methods and Detection
- Lab Analysis
- Exemptions
- Health Effects

Web Cast 2: Radionuclides Rule

2:00-4:00 pm (EDT) August 4, 2004

- Treatment
- Disposal
- POU/POE
- Operator Safety
- SPARRC Model Demonstration

Web Cast 3: Arsenic Rule

2:00-4:00 pm (EDT) September 15, 2004

- An Overview of the Rule
- Required Monitoring
- Monitoring Schedules
- Compliance Calculations
- Weighted Averaging
- Lab Analysis
- Exemptions
- Health Effects

Web Cast 4: Arsenic Rule

2:00-4:00 pm (EDT) October 20, 2004

- Treatment
- Disposal
- POU
- Case Studies/Update on EPA's Office of Research and Development's Demonstration Projects

For information on where you can view this Web cast, contact your state coordinator (listed on the following page).
