If you need to order an appliance using a NSN but there is not a NSN available, GSA has established a generic NSN for each appliance's **Federal Stock Class (FSC)** and they are accessible through FED LOG. To order using one of the generic NSNs, submit an **AOE/AO5** requisition using the corresponding NSN listed below. Since there are several contractors carrying the exact same products on the schedule, it is important that you reference the valid manufacturer's model/part number and the corresponding company's contract number that you want to order from in the exception field. Listed below are the NSNs and their corresponding product line:
