

You're a Parent.

Learn more about your child's potential pesticide exposure.

Contact Us.

If you live in Duval County and are a parent of a child between the age of 9 and 12 months old or less than 3 months, you may be eligible to be in a research study about infants' and toddlers' exposure to pesticides.

Study participants will be compensated for their participation.

If you know someone who may be eligible to participate in the study, please ask them to give us a call.

To find out more about this research study, please call Cherry Jackson at 1-877-810-9530, ext. 503 (toll-free), or visit our website at www.epa.gov/cheers

Study conducted by: The U.S. Environmental Protection Agency in conjunction with the Duval County Health Department, the Centers for Disease Control and Prevention and The American Chemistry Council.
